Need Joelle Charbonneau,2015-11-03 “No one gets something for nothing. We all should know better.” Teenagers at Wisconsin’s Nottawa High School are drawn deeper into a social networking site that promises to grant their every need . . . regardless of the consequences. Soon the site turns sinister, with simple pranks escalating to malicious crimes. The body count rises. In this chilling YA thriller, the author of the best-selling Testing trilogy examines not only the dark side of social media, but the dark side of human nature.

Need Carrie Jones,2009-04-01 Zara collects phobias the way other high school girls collect lipsticks. Little wonder, since she's had a pretty rough life. Her father left when she was a baby, and her stepfather just died. Her mother's pretty much checked out - in fact, Mom's sent her to live with her grandmother in cold and sleepy Maine to keep Zara safe. Whatever that means. Zara doesn't think she's in danger; she thinks her mother just can't deal. Zara's wrong. The man she sees everywhere - the tall creepy guy who points at her from the side of the road - yeh, he's not a figment of her imagination. He's a pixie. And not the cute, sweet kind with little wings. Maine's got a whole assortment of unbelievable creatures, like pixies and were-people. And they seem to need something - something from Zara... What Children Need Jane Waldfogel,2010-03-15 What do children need to grow and develop? And how can their needs be met when parents work? Emphasizing the importance of parental choice, quality of care, and work opportunities, economist Jane Waldfogel guides readers through the maze of social science research evidence to offer comprehensive answers and a vision for change. Drawing on the evidence, Waldfogel proposes a bold new plan to better meet the needs of children in working families, from birth through adolescence, while respecting the core values of choice, quality, and work; Allow parents more flexibility to take time off work for family responsibilities; Break the link between employment and essential family benefits; Give mothers and fathers more options to stay home in the first year of life; Improve quality of care from infancy through the preschool years; Increase access to high-quality out-of-school programs for school-aged children and teenagers.

The Need Helen Phillips,2020-07-07 ***LONGLISTED FOR THE NATIONAL BOOK AWARD IN FICTION*** “An extraordinary and dazzlingly original work from one of our most gifted and interesting writers” (Emily St. John Mandel, author of *The Glass Hotel*). *The Need*, which finds a mother of two young children grappling with the dualities of motherhood after confronting a masked intruder in her home, is “like nothing you’ve ever read before...in a good way” (People). When Molly, home alone with her two young children, hears footsteps in the living room, she tries to convince herself it’s the sleep deprivation. She’s been hearing things these days. Startling at loud noises. Imagining the worst-case scenario. It’s what mothers do, she knows. But then the footsteps come again, and she catches a glimpse of movement. Suddenly Molly finds herself face-to-face with an intruder who knows far too much about her and her family. As she attempts to protect those she loves most, Molly must also acknowledge her own frailty. Molly slips down an existential rabbit hole where she must confront the dualities of motherhood: the ecstasy and the dread; the languor and the ferocity; the banality and the transcendence as the book hurtles toward a mind-bending conclusion. In *The Need*, Helen Phillips has created a subversive, speculative thriller that comes to life through blazing, arresting prose and gorgeous, haunting imagery. “Brilliant” (Entertainment Weekly), “grotesque and lovely” (The New York Times Book Review, Editor’s Choice), and “wildly captivating” (O, The Oprah Magazine), *The Need* is a glorious celebration of the bizarre and beautiful nature of our everyday lives and “showcases an extraordinary writer at her electrifying best” (Publishers Weekly, starred review).

A Theory of Human Need Len Doyal,Ian Gough,1991-08-23 Rejecting fashionable subjectivist and cultural relativist approaches, this important book argues that human beings have universal and objective needs for health and autonomy and a right to their optimal satisfaction. The authors develop a system of social

indicators to show what such optimization would mean in practice and assess the records of a wide range of developed and underdeveloped economies in meeting their citizens' needs.

The Men We Need Brant Hansen,2022-03-29 The world needs real men, real bad. And there are all sorts of conflicting ideas and messages about what a real man is (and is not). Is a real man one who hunts, loves sports, grills meat, fixes cars, and climbs mountains? Sure, sometimes. But that's not really the point of being a man and it's not the purpose for which men were made. Into our cultural confusion, Brant Hansen paints a refreshingly specific, compelling picture of what men are made to be: Keepers of the Garden. Protectors and defenders. He calls for men of all interests and backgrounds (including avid indoorsmen like himself) to be ambitious about the right things and to see themselves as defenders of the vulnerable, with whatever resources they have. Using short chapters loaded with must-have wisdom and Brant's signature humor, *The Men We Need* explains the essence of masculinity in a fresh, thoughtful, and entertaining way that will inspire any man who dares to read it.

All You Need for a Snowman Alice Schertle,2002 Lists everything that one needs to build the perfect snowman, from the very first snowflake that falls.

The Future We Need Erica Smiley,Sarita Gupta,2022-04-15 In *The Future We Need*, Erica Smiley and Sarita Gupta bring a novel perspective to building worker power and what labor organizing could look like in the future, suggesting ways to evolve collective bargaining to match the needs of modern people—not only changing their wages and working conditions, but being able to govern over more aspects of their lives. Weaving together stories of real working people, Smiley and Gupta position the struggle to build collective bargaining power as a central element in the effort to build a healthy democracy and explore both existing levers of power and new ones we must build for workers to have the ability to negotiate in today and tomorrow's contexts. *The Future We Need* illustrates the necessity of centralizing the fight against white supremacy and gender discrimination, while offering paths forward to harness the power of collective bargaining in every area for a new era.

Design Justice Sasha Costanza-Chock,2020-03-03 An exploration of how design might be led by marginalized communities, dismantle structural inequality, and advance collective liberation and ecological survival. What is the relationship between design, power, and social justice? “Design justice” is an approach to design that is led by marginalized communities and that aims explicitly to challenge, rather than reproduce, structural inequalities. It has emerged from a growing community of designers in various fields who work closely with social movements and community-based organizations around the world. This book explores the theory and practice of design justice, demonstrates how universalist design principles and practices erase certain groups of people—specifically, those who are intersectionally disadvantaged or multiply burdened under the matrix of domination (white supremacist heteropatriarchy, ableism, capitalism, and settler colonialism)—and invites readers to “build a better world, a world where many worlds fit; linked worlds of collective liberation and ecological sustainability.” Along the way, the book documents a multitude of real-world community-led design practices, each grounded in a particular social movement. *Design Justice* goes beyond recent calls for design for good, user-centered design, and employment diversity in the technology and design professions; it connects design to larger struggles for collective liberation and ecological survival.

The World We Need Audrea Lim,2021-05-04 The inspiring people and grassroots organizations that are on the front lines of the battle to save the planet As the world's scientists have come together and declared a climate emergency, the fight to protect our planet's ecological resources and the people that depend on them is more urgent than ever. But the real battles for our future are taking place far from the headlines and international conferences, in mostly forgotten American communities where the brutal realities of industrial pollution and environmental degradation have long been playing out. *The World We Need* provides a vivid introduction to America's largely unsung grassroots environmental groups—often led by activists of color and the poor—valiantly fighting back in America's so-called sacrifice zones against industries poisoning our skies and waterways and heating our planet. Through original reporting, profiles, artwork, and interviews, we learn how these activist groups, almost always working on shoestring budgets, are devising creative new tactics; building sustainable projects to transform local economies; and organizing people long overlooked by the environmental movement—changing its face along the way. Capturing the riveting stories and hard-won strategies from a broad cross section of pivotal environmental actions—from Standing Rock to Puerto Rico—*The World We Need* offers a powerful new model for the larger environmental movement, and inspiration for concerned citizens everywhere.

What Girls Need Marisa Porges, PhD,2020-08-04 A powerful book about how we can raise girls to become bold, ambitious women. --Adam Grant What do girls really need to succeed? Children today face an uncertain future, and parents and teachers can't fully predict what's in store for their daughter and sons. But one thing is clear: Our kids need a new set of skills to succeed. Girls, in particular, must nurture essential traits to fully flourish. Students hit the ground running today, entering a school system that carries high expectations on their way to a college application process that is more demanding than ever. After school, young women enter a competitive job market, still complicated by sexism and the possibility of harassment. But the ways we define leadership are also changing, and the women stepping into those roles are mapping new paths to inhabiting traits like grit, resilience, audacity, and self-confidence. *What Girls Need* shows how parents and educators can foster these critical twenty-first-century skills in our girls and help them to recognize and nurture their inherent strengths—to not just thrive but also find joy and purpose as they come of age in our ever-evolving world. As a student at the all-girls Baldwin School outside of Philadelphia, Marisa Porges grew up in a community designed to produce strong, independent women. After graduating from Harvard, she fulfilled her childhood dream of flying jets off aircraft carriers for the U.S. Navy and served as a counterterrorism expert in Afghanistan and a cybersecurity advisor in the Obama White House. Then in 2016, in an unexpected move for someone whose ambitions had taken her so far from home, Porges returned to head the Baldwin School. In doing so, she saw how small moments in her early education gave her the tools she needed to excel in a “man's world.” Combining compelling research, personal stories, and practical advice on timely questions, Porges delves into hot-button subjects like how to harness girls' voices and boost girls' self-esteem, and shows how little things have a big impact when nurturing vital skills like competitiveness, collaboration, empathy, and adaptability. *What Girls Need* empowers us to support the next generation of women so they can confidently hold their own no matter what the future has in store.

The Only Baby Book You'll Ever Need Marian Edelman Borden,Ellen Bowers,Vincent Iannelli,2014-01-18 A complete book on babies covers choosing a pediatrician, babyproofing the home, figuring out sleeping patterns, potty-training a toddler, the best foods and much more. Original.

The Theory of Need in Marx Agnes Heller,2018-04-17 The basic discoveries underlying Marx's critique of political economy - labour power, surplus value, use value - are all in some way built upon the concept of need. From Marx's varying and passing interpretations of a theory of need, Agnes Heller unravels the main tendencies and demonstrates the importance which Marx attached to the restructuring of a system of needs going beyond the purely material. She also brings out those aspects, especially the idea of radical needs which point to revolutionary activity and to the project which Marx could only foresee but which for us today is of real urgency: the society of associated producers. Thus Agnes Heller's study is not only the first full presentation of a fundamental aspect of Marx, but the basis for a discussion of the utmost contemporary relevance.

The Ethics of Need Sarah Clark Miller,2013-03-01 *The Ethics of Need: Agency, Dignity, and Obligation* argues for the philosophical importance of the notion of need and for an ethical framework through which we can determine which needs have moral significance. In the volume, Sarah Clark Miller synthesizes insights from Kantian and feminist care ethics to establish that our mutual and inevitable interdependence gives rise to a duty to care for the needs of others. Further, she argues that we are obligated not merely to meet others' needs but to do so in a manner that expresses dignifying care, a concept that

captures how human interactions can grant or deny equal moral standing and inclusion in a moral community. She illuminates these theoretical developments by examining two cases where urgent needs require a caring and dignifying response: the needs of the elderly and the needs of global strangers. Those working in the areas of feminist theory, women’s studies, aging studies, bioethics, and global studies should find this volume of interest.
