Please Come Off-Book Kevin Kantor,2021-03-23 Please Come Off-Book queers the theatrical canon we all grew up with. Kantor critiques the treatment of queer figures and imagines a braver and bolder future that allows queer voices the agency over their own stories. Drawing upon elements of the Aristotelian dramatic structure and the Hero's Journey, Please Come Off-Book is both a love letter to and a scathing critique of American culture and the lenses we choose to see ourselves through.

**Off the Books** Sudhir Alladi Venkatesh,2009-06-30 In this revelatory book, Sudhir Venkatesh takes us into Maquis Park, a poor black neighborhood on Chicago's Southside, to explore the desperate and remarkable ways in which a community survives. The result is a dramatic narrative of individuals at work, and a rich portrait of a community. But while excavating the efforts of men and women to generate a basic livelihood for themselves and their families, Off the Books offers a devastating critique of the entrenched poverty that we so often ignore in America, and reveals how the underground economy is an inevitable response to the ghetto's appalling isolation from the rest of the country.

**And We're Off** Dana Schwartz, 2018-05-08 A *Seventeen* Magazine Best Book of the Year "A winsome, hilarious tale about losing the map and finding a better way to a happy ending. I loved it!" —#1 New York Times bestselling author Jennifer Weiner *Seventeen*-year-old Nora Holmes is an artist,

a painter from the moment she could hold a brush. She inherited the skill from her grandfather, Robert, who's always nurtured Nora's talent and encouraged her to follow her passion. Still, Nora is shocked and elated when Robert offers her a gift: an all-expenses-paid summer trip to Europe to immerse herself in the craft and to study history's most famous artists. The only catch? Nora has to create an original piece of artwork at every stop and send it back to her grandfather. It's a no-brainer: Nora is in! Unfortunately, Nora's mother, Alice, is less than thrilled about the trip. She worries about what the future holds for her young, idealistic daughter—and her opinions haven't gone unnoticed. Nora couldn't feel more unsupported by her mother, and in the weeks leading up to the trip, the women are as disconnected as they've ever been. But seconds after saying goodbye to Alice at the airport terminal, Nora hears a voice call out: Wait! Stop! I'm coming with you! And . . . they're off. 13 Little Blue Envelopes meets Gilmore Girls in this fun, funny, and bittersweet summer adventure from Observer writer and the hilarious voice behind @GuyInYourMFA, Dana Schwartz.

**Health Care Off the Books** Danielle T. Raudenbush, 2020-02-11 Millions of low-income African Americans in the United States lack access to health care. How do they treat their health care problems? In *Health Care Off the Books*, Danielle T. Raudenbush provides an answer that challenges public perceptions and prior scholarly work. Informed by three and a half years of fieldwork in a public housing development, Raudenbush shows how residents who face obstacles to health care gain access to pharmaceutical drugs, medical equipment, physician reference manuals, and insurance cards by mobilizing social networks that include not only their neighbors but also local physicians. However, membership in these social networks is not universal, and some residents are forced to turn to a robust street market to obtain medicine. For others, health problems simply go untreated. Raudenbush reconceptualizes U.S. health care as a formal-informal hybrid system and explains why

many residents who do have access to health services also turn to informal strategies to treat their health problems. While the practices described in the book may at times be beneficial to people's health, they also have the potential to do serious harm. By understanding this hybrid system, we can evaluate its effects and gain new insight into the sources of social and racial disparities in health outcomes.

**Teach Your Class Off** C. J. Reynolds, 2020-03-23 It's Only Ever about the Students In today's educational climate of budget shortages, rigid testing standards, and diminishing autonomy in the classroom, how can teachers bring creativity and passion back into their work? **Mask Off** J. J. Bola,2019 What is masculinity? Dominating the world around us, from Trump's twitter outbursts to deadly gun violence, from male suicide rates to incels on Reddit and 4chan, masculinity is perceived to be 'toxic', 'fragile' and 'in crisis'. In Mask Off, JJ Bola exposes masculinity as a performance that men are socially conditioned into. Using examples of non-Western cultural traditions, music and sport, he shines light on historical narratives around manhood, debunking popular myths along the way. He explores how LGBTQ men, men of colour, and male refugees experience masculinity in diverse ways, revealing its fluidity, how it's strengthened and weakened by different political contexts, such as the patriarchy or the far-right, and perceived differently by those around them. At the heart of love and sex, the political stage, competitive sports, gang culture, and mental health issues, lies masculinity: Mask Off is an urgent call to unravel masculinity and redefine it.

*No Days Off* Max Domi,2020-10-13 INSTANT NATIONAL BESTSELLER One of the NHL's most talented young stars shares his inspiring coming-of-age story about following his dreams after being diagnosed with type 1 diabetes. "Max, you have type 1 diabetes," the doctor said. My mom and I looked at each other. For her, time stood still for a second as our entire future as a family shifted. But I had no clue what the diagnosis meant. So I said the first thing that came to mind. "Can I still play hockey?" As a kid, when Max Domi was asked what he wanted to be when he grew up, he only ever had one answer: a hockey player. Growing up the son of a professional hockey player, Max saw from an early age what it took to make the NHL: grit, talent, and the support of a team. Over countless

hours in the garage, at the rink, and in the gym, Max chased his dream. It seemed that Max was born to be on the ice. But then, when he was twelve years old, Max started getting sick. And sicker. Finally, he and his family learned the awful truth: Max had type 1 diabetes. Overnight, Max and his family found their lives upended. All Max wanted was to be a normal kid, but suddenly, the simplest things—a game of basketball with friends, a family meal, a school field trip—were complicated with a thousand different considerations. Would people notice or make fun of him if he carried his blood-testing kit everywhere? Would his teammates think he was weak if his blood sugar went low at hockey practice? How much insulin did he need after a meal? And all the while, the fear of what might happen if things went wrong hung over his head. Max had to grow up quickly. As he struggled to find his new normal, Max slowly began to realize that overcoming his disease demanded the same qualities that it took to be a hockey player—mental and physical toughness, maturity, and the love and care of family and friends. Bit by bit, he learned—sometimes the hard way—not just to control his diabetes, but to turn it into an advantage. If managing his disease was going to demand that Max be stronger, more prepared, and more disciplined than anyone else, then he wouldn't just be good at those things: he'd be the best. He'd do whatever it took to move himself closer to his dream of playing in the NHL. Inspiring, heartwarming, and exciting, *No Days Off* is a memoir about what it's like to be a kid whose world is turned upside down, and what it takes to face adversity.

**Off-Grid Solar Electrification in Africa** Nathanael Ojong, 2022-11-15 This book evaluates off-grid solar electrification in Africa by examining how political, economic, institutional, and social forces shape the adoption of off-grid solar technologies, including how issues of energy injustice are manifested at different levels and spaces. The book takes a historical, contemporary, and projective outlook using case studies from pre- and ongoing electrification communities in non-Western countries such as Ghana, Kenya, Rwanda, Senegal, Malawi, Tanzania, and Nigeria. Beyond the diverse nature of these countries in terms of their geographical location in West, East, and Southern Africa, each offers a different experience in terms of colonial history, economic and institutional infrastructure, social and cultural context, and level of adoption of off-grid solar technologies. Notably, the book contributes to the off-grid solar and energy justice scholarship in low-income non-Western contexts. It examines various approaches to energy justice and does so by engaging with Western and non-Western philosophical notions of the concept. It takes into consideration the major principles of Ubuntu philosophy with the adoption of off-grid solar technologies, hence enriching the energy justice framework. Finally, the book interrogates the degree to which the social mission that catalysed the expansion of the off-grid solar sector is being undermined by broader structural dynamics of the capital investment upon which it is reliant. It also argues that the ascendance of off-grid solar electrification in Africa is transformative in that it enables millions of people without access to or facing uncertainties linked to centralised grid energy to have access to basic energy services.
