Everyday Book Marketing Midge Raymond,2013-09 Book publication is just the beginning. Everyday Book Marketing is for the published author who is not only a writer but who also may have another career, a family, and any number of other obligations that require fitting book promotion into a budget where both hours and dollars may be hard to find. This book will guide you on the journey from Writer to Marketing Pro, offering essential marketing tools along the way--including such book promotion basics as how to schedule a book tour and how to make the most of social media to how to keep the buzz going long after your launch date. Everyday Book Marketing is divided into easily accessible sections that cover not only what you'll need to handle before publication, such as establishing a blog and website, but what you can do during your book launch and beyond. It also offers tips and advice for how to keep the never-ending tasks of book promotion manageable, whether you have ten minutes a day or two hours a day. Also included are Q&As with a range of authors and industry experts--from fiction authors and poets to librarians and event managers--who provide such invaluable tips as how to present yourself as an author, how to reach out to event coordinators, and how to find new readers both within your community and beyond.

Adorno, Foucault and the Critique of the West Deborah Cook,2018-11-27 The alliance of critical theory between Frankfurt and Paris Adorno, Foucault and the Critique of the West argues that critical theory continues to offer valuable resources for critique and contestation during this turbulent period. To assess these resources, it examines the work of two of the twentieth century's more prominent social theorists: Theodor W. Adorno and Michel Foucault. Although Adorno was situated squarely in the Marxist tradition that Foucault would occasionally challenge, Deborah Cook demonstrates that their critiques of our current predicament are complementary in important respects. Among other things, these critiques converge in their focus on the historical conditions-economic in Adorno and political in Foucault-that gave rise to the racist and authoritarian tendencies that continue to blight the West. Cook also shows that, when Adorno and Foucault plumb the economic and political forces that have shaped our identities, they offer remarkably similar answers to the perennial question: What is to be done?

Emotion as Promotion Rick Valicenti,2005 From innovative fonts and commercial logos to products and artists' books, the work of graphic design collective Thirst is unmistakable: dazzling in form, intellectually challenging, incorporating Real Human Presence, just over the edge of the Discomfort Zone. The firm is known not only for fusions of text and image but for the emotion and strength that pervade the work. Thirst hallmarks include striking color photographs, creative computer manipulation, the use of new media, and challenges offered to the reader/viewer (and sometimes to the client as well). The first monograph on the design group, Emotion as Promotion is an exuberant manifesto, a collective autobiography, and a brutally honest heart-to-heart with the next generation of design. It showcases work known (designs for Gilbert Paper, Gary Fisher Mountain Bikes, Wired magazine, and Absolut vodka), unknown (unimplemented identities for iXL and U.S. Robotics), and notorious (the Just My Type nude alphabet, the Want photo shoot for RayGun). Thirst principal Rick Valicenti and his colleagues tell the tales of each project, offering sometimes funny, sometimes wry assessments of the client, the end result, and all stages in between.

Promotion and Tenure Confidential David D. Perlmutter,2010-11-15 Sitting down with a young and brilliant mathematician, I asked what he thought were his biggest problems in working toward tenure. Instead of describing difficulties with his equations or his software programs, he lamented that (a) his graduate assistant wasn't completing his tasks on time, (b) his department chair didn't seem to care if junior faculty obtained grants, and (c) a senior professor kept glaring at him in faculty meetings. He knew he could handle the intellectual side of being an academic—but what about the people side? ‘Why didn't they offer “Being a Professor 101” in graduate school?’ he wondered.” Promotion and Tenure Confidential provides that course in an astute and practical book, which shows that P&T is not just about research, teaching, and service but also about human relations and political good sense. Drawing on research and extensive interviews with junior and senior faculty across many institutions, David D. Perlmutter provides clear-sighted guidance on planning and managing an academic career, from graduate school to tenure and beyond. Topics include:making the transformation from student and protégé to teacher and mentorseeking out and holding onto lifelong allieshow to manage your online reputation and avoid “death by Google”what to say and what not to say to deans and department chairshow meeting deadlines wins points with everyone in your lifehow, when, and to whom to say “no”when and how to look for a new job when you have a jobhow (and whom) to ask for letters of recommendationwhat to do if you know you're not going to get tenure

The Scribe Method Tucker Max,Zach Obront,2021-04-15 Ready to write your book? So why haven't you done it yet? If you're like most nonfiction authors, fears are holding you back. Sound familiar? Is my idea good enough? How do I structure a book? What exactly are the steps to write it? How do I stay motivated? What if I actually finish it, and it's bad? Worst of all: what if I publish it, and no one cares? How do I know if I'm even doing the right things? The truth is, writing a book can be scary and overwhelming—but it doesn't have to be. There's a way to know you're on the right path and taking the right steps. How? By using a method that's been validated with thousands of other Authors just like you. In fact, it's the same exact process used to produce dozens of big bestsellers—including David Goggins's Can't Hurt Me, Tiffany Haddish's The Last Black Unicorn, and Joey Coleman's Never Lose a Customer Again. The Scribe Method is the tested and proven process that will help you navigate the entire book-writing process from start to finish—the right way. Making Sense of Incentives Timothy J. Bartik,2019-10-15 Bartik provides a clear and concise overview of how state and local governments employ economic development incentives in order to lure companies to set up shop—and provide new jobs—in needy local labor markets. He shows that many such incentive offers are wasteful and he provides guidance, based on decades of research, on how to improve these programs.

The Politics of Promotion Bonnie Marcus,2015-03-23 Break into the power circle and build relationships that advance careers The Politics of Promotion offers women the tools and guidance they need to successfully navigate the realities of their organization, emphasizing the need to understand office politics to get the promotions and recognition they deserve. Written by Bonnie Marcus, a professional coach who focuses on helping women advance their careers, this book demonstrates the impact of relationships and sponsorship on career trajectory. Readers will learn why excellence and achievement aren't propulsion enough to get ahead, and how networking with power and intention can make all the difference in perception, reputation, and promotion. Far beyond the typical advice of be assertive and embrace ambition, this book provides a unique and proven method for becoming a bigger player in the workplace and avoiding unexpected trip-ups that can add years to the climb—or end it for good. Many women focus on performance, thinking that good work garners promotion. Too often, they're left outside of the circles of power and influence where decisions are made that affect their careers. The Politics of Promotion provides a framework for breaking into that circle, and taking control of one's own career path, specifically showing how to: Navigate office politics successfully Build and nurture key relationships Get comfortable with self-promotion Avoid potentially disastrous blindsides Women who want to advance cannot afford to view politics as dirty. It's the reality of the workplace, one that differs between organizations and fluctuates over time. Although being savvy about office politics is important for both genders, unconscious bias and stereotypes create special challenges for women. Learning to navigate these complex rules and customs is the key to professional recognition for women, fostering relationships that reach far beyond the next evaluation. Women looking to get ahead will find that the insights in The Politics of Promotion can help smooth the way.

Promoting Equity and Justice Through Pedagogical Partnership Alise de Bie,Elizabeth Marquis,Alison Cook-Sather,Leslie Luqueño,2023-07-03 Faculty and staff in higher education are looking for ways to address the deep inequity and systemic racism that pervade our colleges and universities. Pedagogical partnership can be a powerful tool to enhance equity, inclusion, and justice in our classrooms and curricula. These partnerships create opportunities for students from underrepresented and equity-seeking groups to collaborate with faculty and staff to revise and reinvent pedagogies, assessments, and course designs, positioning equity and justice as core educational aims. When students have a seat at the table, previously unheard voices are amplified, and diversity and difference introduce essential perspectives that are too often overlooked.In particular, the book contributes to the literature on pedagogical partnership and equity in education by integrating theory, synthesizing research, and providing concrete examples of the ways partnership can contribute to more equitable educational systems. At the same time, the authors

acknowledge that partnership can only realize its full potential to redress harms and promote equity and justice when thoughtfully enacted. This book is a resource that will inspire and challenge a wide variety of higher education faculty and staff and contribute to advancing both practice and research on the potential of student-faculty pedagogical partnerships. Presenting a conceptual framework for understanding the various epistemological, affective, and ontological harms that face students from equity-seeking groups in postsecondary education, Promoting Equity and Justice Through Pedagogical Partnership applies this conceptual framework to current literature in partnerships, highlighting the promise of partnership as the way to redress these harms. The authors ground both the conceptual framework and the literature review by offering two case studies of pedagogical partnership in practice. They then explore the complexities raised by their framework, including the conditions under which partnerships themselves may risk reproducing epistemic, affective, or ontological harms. Applying the framework in this way allows them to propose strategies that make it more likely for these mediations to be successful. Finally, the authors focus on the future of pedagogical partnership and share their perspectives on new directions for inquiry and practice. After summarizing the overarching themes developed throughout the book, the authors leave the reader with a set of questions and recommendations for further inquiry and discussion. The Hundred Year Flood Matthew Salesses,2015 In the tradition of Native Speaker and The Family Fang, Matthew Salesses weaves together the tangled threads of identity, love, growing up, and relationships in his stunning first novel, The Hundred-Year Flood. This beautiful and dreamlike debut follows twenty-two-year-old Tee as he escapes to Prague in the wake of his uncle's suicide and the aftermath of 9/11. Tee tries to convince himself that living in a new place will mean a new identity and a chance to shed the parallels between him and his adopted father. His life intertwines with Pavel Picasso, a painter famous for revolution; Katka, his equally alluring wife; and Picasso's partner--a giant of a man with an American name. In the shadow of a looming flood that comes every one hundred years, Tee contemplates his own place in life as both mixed and adopted and as an American in a strange land full of heroes, myths, and ghosts.
