History of the Pet Bottle Tom Brady, 2022-08-10 Dr. Tom Brady began his career at Owens-Illinois, Inc. in 1972, just as the carbonated soft drink companies began asking their suppliers to create and offer family-size carbonated beverage containers, which required an industry-wide conversion from glass and aluminum to plastic. As a fledgling Senior Scientist, Tom, along with his O-I colleagues and along with other industry plastic package suppliers, accepted the challenge and, over just a 10-year period, created an entirely new industry to supply sustainable PET packaging to the beverage, food, and personal care product industries When Owens-Illinois abandoned commercialization of the new and successful plastic PET container in 1985 because it was affecting O-I's glass container business, Tom left O-I and founded Plastic Technologies, Inc., with the initial goal of helping the Coca-Cola Company to self-manufacture its own PET plastic containers. Over its 35-year history, PTI has become a key technology development supplier and manufacturer of PET packaging for many of the major global brand owners, resin suppliers, and machine manufacturers, and PTI has also emerged as a leading industry source for training, manufacturing support, recycling technologies and laboratory testing. PTI is known for developing and commercializing sustainable plastic packaging products and strategies. Over its 35-year history, PTI has spawned 5 subsidiary recycling, manufacturing, and technology development companies, including Phoenix Technologies International, PTI-Europe, Preform Technologies, The Packaging Conference, and Guardian Medical USA, and PTI is planning for an exciting future by partnering with other leading industry recycling, manufacturing, and medical companies, here in the US and in Europe. The History of the PET Bottle fulfills Tom's long-time desire to capture the history of the PET container industry, including many important stories which have been contributed by former PET industry colleagues. Thanks to all of those colleagues! _____ Dr. Tom Brady spent 50 years in the plastic packaging industry and participated in the development of many of today's standard plastic packaging technologies. In 1986, Tom founded Plastic Technologies, Inc. to continue the journey that he began at Owens-Illinois in 1972. In 2009, Tom took a dramatic career turn to become Interim Dean of The

University of Toledo's College of Education, and today he remains committed to promoting and improving education, from PreK through Higher Education. His charitable and community service work includes serving as a board member for the Northwest Ohio Regional Growth Partnership, Toledo Port Authority, Lourdes University, Toledo Symphony, University of Toledo, and the Ohio Governor's Third Frontier Commission, among others, and Tom and his wife, Betsy, continue to support entrepreneurial, teacher education, and engineering technology initiatives at the University of Toledo, Dartmouth College, and the University of Michigan. Tom earned his BS and MS degrees from Dartmouth and his Ph.D. from the University of Michigan. He holds six U.S. patents, received the Lifetime Achievement Award from the Plastics Industry in 2010, was inducted into the Plastics Industry Hall of Fame in 2012, and has received numerous other honors, including being named Entrepreneur of the Year in 1989, and Philanthropist of the Year with his wife, Betsy, in 2006.
