The Blues Guitar Looper Pedal Book Brent Robitaille,2021-04-17 The looper pedal is an excellent companion for the blues genre! Most styles of blues have a repeating chord progression like the twelve-bar blues making it perfect for looping. Guitarist Brent Robitaille has created two, four, eight, twelve, and sixteen bar multi-layered loops divided into four or five separate layers or parts. Each loop contains riffs or a melody, a bass line, chords, and a rhythm pattern. Get your loops sounding better with the ten tips for making great loops and also improve your solos with the ten tips for making great solos. Also included: blues scales, standard blues chord progressions in all keys, blues strumming patterns, chord spelling charts, fingerboard charts, and a section on how to play slide guitar with exercises. This book serves two functions: how to use your looper pedal musically and efficiently to create blues loops for soloing and performing, and how to improve your blues guitar playing. Pedal Culture Ronald Light,2021-12-30 Pedal Culture is a themed exploration of guitar effects pedals as cultural artifacts, derived from a 2017 design exhibition at San Francisco State University curated by the author. An anthropological quest, understanding how effects stompboxes allow for quasi-supernatural power transference from on high to guitarists is just one of the many themes Ronald Light explores. Exhibits showcase symbolic associations in the branding of sonic effects with cultural touchstones from popular arts and culture: material manifestations of noir literature, retro-futuristic cinema, and Japanese anime; graphic metaphors for female pudenda; explicit reference to murder and mayhem; and all too obvious associations to guacamole and chips. The curatorial tone of Pedal Culture employs an irreverent sensibility expressed in a whimsical and ironic attitude toward its subject. In the expansive (and expensive) world of guitar gear, this richly photographed volume fuses form, content, and aesthetics. This is Pedal Culture!

Pedal Power J. Harry Wray,2015-11-17 This book examines the surging national interest in bike-friendly public policies and argues that this growth is likely to escalate. Currents in U.S. culture that have supported the dominance of the car are edging toward exhaustion. At the same time, other factors including congestion, contentious and unreliable energy resources, rising pollution, and global warming support the expansion of the bike's use. A surprising array of political organizations, visionary politicians, and colorful individuals powers this movement.

Pedal ZEPHYR, Ken Miller, SWOON,2006-04-01 Best-selling author Peter Sutherland's newest title, *Pedal*, is a wild ride alongside a band of New York City's most feared and respected inhabitants: bike messengers. In a book of photographs and a documentary on DVD, Sutherland follows the frenetic trips and lives of the cyclists who live by their own rules of the road. In *Pedal*, Sutherland documents bike messengers competing in the 2005 Cycle Messenger World Championships in New York City. Going straight to the center of this urban subculture, Sutherland serves up compelling portraits of the competitors from dozens of countries, in motion and at ease, checking out each other's bags, lingering over modifications to bikes and bodies. Between events like sprints, distance racing, and skid contests, Sutherland shows us the riders' elegant physicality, complex individuality, and unique community that crosses boundaries of race, gender, age, and class. And he doesn't shy away from the blood and bruises that come part and parcel with the messenger's life. Sutherland delves deep into the world of the messengers—a world usually seen from the outside—and returns with a dynamic document that evokes the unbridled anarchy and energy of its inhabitants. The accompanying DVD is a fast-paced documentary film about surviving in the streets of New York City as a bicycle messenger. It features messengers from all walks of life as they battle traffic in a race to make their next delivery on time. Directed by Sutherland and produced by Ana Lombardo, *Pedal* the documentary lets viewers live the spectacle of the delivery itself. It premiered in 2001 at the South by Southwest film festival, and was later acquired by the Sundance channel, where it aired until 2004.

Pedal Louis K. Lowy,2017-04 Forty-nine and single. Fired from her lifelong passion: teaching music. Stripped of her self-worth. Can she regain her life through bicycle racing? Joanne Brick's thirty years as an elementary school music teacher evaporated into the rising sea of layoffs. A lifetime of dedication gone. At forty-nine, single with an ailing mother and bitter, divorced sister, the future looked bleak. Then one day, while cleaning out the garage for a yard sale, inspiration struck as she dusted off an old, forgotten bicycle. And when she took her first ride she knew it was time to sink or pedal. *Pedal* is an inspirational journey. It is a contemporary story that deal not only with family relationships, but with life's turning points and how ordinary people deal with them.
