Punishment and Welfare David Garland, 2018-01-30 First published in 1985, this classic of law and society scholarship continues to shape the research agenda of today's sociology of punishment. It is now republished with a new Preface by the author. Punishment and Welfare explores the relation of punishment to politics, the historical formation and development of criminology, and the way in which penal reform grew out of the complex set of political projects that founded the modern welfare state. Its analyses powerfully illuminate many of the central problems of contemporary penal and welfare policy, showing how these problems grew out of political struggles and theoretical debates that occurred in the first years of the 20th century. In conducting this investigation, David Garland developed a method of research which combines detailed historical and textual analysis with a broader sociological vision, thereby synthesizing two forms of analysis that are more often developed in isolation. The resulting genealogy will interest everyone who works in this field. "... a brilliant book ... the main arguments of Punishment and Welfare are undoubtedly some of the most tenacious and exciting to emerge from the field of criminology in many years." — Piers Biernie, *Contemporary Sociology* "... one of the most important pieces of work ever to emerge in British criminology. It is a study of depth, subtlety and complexity ... Garland's integration of close historical details with a broader sociological vision provides a model methodology...." — Stan Cohen, *British Journal of Criminology* "This study shows how early 20th-century penal policy was a function of the nation's social welfare practices. Garland's theory is as applicable to the 21st century as it is to that earlier era: A tour de force." — Malcolm Feeley, University of California-Berkeley

The Argentine Penal Code and Other Criminal Economic Articles Estudio Durrieu Abagados, 2021-10-01 This English translation of the 2004 Argentina Criminal Code, featuring articles on specific criminal economic issues, is intended to provide easier access to the criminal framework of Argentina. A set of elements and concepts are set up to provide English-speaking readers with a straight-forward grasp of criminal law in Argentina and Latin America. Special focus on the economies of these areas provides a requisite platform for further study of the subject matter. Published under the Transnational Publishers imprint.

Penal Philosophy Gabriel Tarde, Gabriel de Tarde, 1912 Tarde constructs a sociological explanation of crime in which the individual is ultimately the principal actor, and suggests forms of penalty whose principles avoided the determinist implications of positivism. The book should be of interest to students of criminology, jurisprudence and sociology.

Penal Systems Michael Cavadino, Professor Mick Cavadino, James Dignan, 2005-10-26 'Cavadino and Dignan's Penal Systems: A Comparative Approach looks across national boundaries to see how penal systems differ and why. It is hands-down the most comprehensive and up-to-date book on the subject and should become a staple textbook for use in law and social science courses on comparative penal policy and practice' - Michael H. Tonry, University of Minnesota 'This book is an important addition to the literature on punishment. It is a highly readable and very well researched overview of some of the major differences in punitiveness between neo-liberal, corporatist and social democratic countries... This is a major contribution to comparative penology by two of the leading authors in this field' - Alison Liebling, Director of the Prisons Research Centre, UK 'A major and seminal work' - David Downes, Professor Emeritus at the London School of Economics Penal Systems: A Comparative Approach is a comprehensive and original introduction to the comparative study of punishment. Analysing twelve countries, Cavadino and Dignan offer an integrated and theoretically rigorous approach to comparative penology. They draw upon material provided by a team of eminent penologists to produce an important and highly readable contribution to scholarship in this area. Early chapters introduce the reader to comparative penology, set out the theoretical framework and consider whether there is currently a 'global penal crisis'. Each country is then discussed in turn. Chapters on comparative youth justice and the privatization of prisons follow. Comparisons between countries are drawn within each chapter, giving the reader a synoptic and truly comparative vision of penalty in different jurisdictions.
