The Bloody Chamber Angela Carter, 2015-05-26 For the 75th anniversary of her birth, a Deluxe Edition of the master of the literary supernatural's most celebrated book—featuring a new introduction by Kelly Link Angela Carter was a storytelling sorceress, the literary godmother of Neil Gaiman, David Mitchell, Audrey Niffenegger, J. K. Rowling, Kelly Link, and other contemporary masters of supernatural fiction. In her masterpiece, *The Bloody Chamber*—which includes the story that is the basis of Neil Jordan's 1984 movie *The Company of Wolves*—she spins subversively dark and sensual versions of familiar fairy tales and legends like “Little Red Riding Hood,” “Bluebeard,” “Puss in Boots,” and “Beauty and the Beast,” giving them exhilarating new life in a style steeped in the romantic trappings of the gothic tradition. For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,700 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators.

Winter in the Blood James Welch, 2021-02-23 A contemporary classic from a major writer of the Native American renaissance – Brilliant, brutal and, in my opinion, Welch's best work. –Tommy Orange, *The Washington Post* During his life, James Welch came to be regarded as a master of American prose, and his first novel, *Winter in the Blood*, is one of his most enduring works. The narrator of this beautiful, often disquieting novel is a young Native American man living on the Fort Belknap Reservation in Montana. Sensitive and self-destructive, he searches for something that will bind him to the lands of his ancestors but is haunted by personal tragedy, the dissolution of his once proud heritage, and Montana's vast emptiness. *Winter in the Blood* is an evocative and unforgettable work of literature that will continue to move and inspire anyone who encounters it. For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,700 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators.

Bloody Genius John Sandford, 2019-10-01 Virgil Flowers will have to watch his back--and his mouth--as he investigates a college culture war turned deadly in another one of Sandford's madly entertaining Virgil Flowers mysteries (*New York Times Book Review*). At the local state university, two feuding departments have faced off on the battleground of science and medicine. Each carries their views to extremes that may seem absurd, but highly educated people of sound mind and good intentions can reasonably disagree, right? Then a renowned and confrontational scholar winds up dead, and Virgil Flowers is brought in to investigate . . . and as he probes the recent ideological unrest, he soon comes to realize he's dealing with people who, on this one particular issue, are functionally crazy. Among this group of wildly impassioned, diametrically opposed zealots lurks a killer, and it will be up to Virgil to sort the murderer from the mere maniacs.

The Great Penguin Rescue Dyan deNapoli, 2011-08-16 On June 23, 2000, a ship en route from Brazil to China foundered off the coast of South Africa, spilling 1,300 tons of oil into the ocean and contaminating the habitat of 75,000 penguins. Local conservation officials immediately launched a massive rescue operation, and 12,500 volunteers from around the globe rushed to South Africa in hopes of saving the imperiled birds. Serving as a rehabilitation manager during the initial phase of the three-month effort, Dyan deNapoli--better known as the Penguin Lady for her extensive work with penguins--and fellow volunteers de-oiled, nursed back to health, and released into the wild nearly all of the over 19,000 affected birds. Now, at the tenth anniversary of the disaster, deNapoli recounts the extraordinary story of the world's largest and most successful wildlife rescue--From publisher description.

Bloody Saturday: Shanghai's Darkest Day: Penguin Specials Paul French, 2017-08-11 Saturday, August 14, 1937 – that summer Shanghai was expecting to be hit by a typhoon of ‘violent intensity’. The typhoon passed, but what did strike Shanghai was a man-made typhoon of bombs and shrapnel that brought aerial death and destruction such as no city had ever seen before. The clock outside the Cathay Hotel stopped at 4.27 p.m. precisely as the first bombs landed on the junction of the Nanking Road and the Bund; the second wave of explosions struck the dense crowds outside the Great World amusement centre in the French Concession. *Bloody Saturday* reconstructs the events of that dreadful day from eyewitness accounts.

The Importance of Being Maddison Helen E Highton, 2018-08-14 An accurate, hilarious and deftly drawn portrait of “normal” family life seen through the eyes of a seven year old narrator, who means well but in whose steps disaster inevitably follows... Meet the McLarens: There's Maddie, our narrator, the 7 year old ‘pocket rocket’ with no ‘off’ switch. Liz, her permanently exhausted mum, who seems to spend her life in a state of permanent mortification or profound apology for her daughter. Dad, Joe, with his ‘Northern banter’ and inability to suffer fools lightly; big sister, Rachel, who at 21 sees her little sister as both a source of shocked amusement and an audacious personality to be secretly envied. And lastly big brother, Robbie, who at a hormonal nineteen years of age has a love-hate relationship with his frustrating little sister who frequently proves herself to be the bane of his life! With an absorbing narrative and spiked with adult humour throughout, we follow Maddie's quest to get an Xbox for Christmas, as promised, but on one condition - she must stay out of trouble for one whole year. Unfortunately Maddison being Maddison has difficulty staying out of trouble for one whole day! As frustrating as she is endearing, Maddison will leave you either cheering her on in the aisles - or simply wanting to throttle her! Both parents and readers who delight in observational comedies will enjoy this cleverly written and heart-

warming story about a very ordinary family who find themselves dealing with a gamut of crazy, embarrassing and frustrating situations thanks to their seven-year-old.

Captain Blood Rafael Sabatini,2002-12-31 Peter Blood is a physician and an English gentleman who becomes a pirate out of a rankling sense of injustice. Barely escaping the gallows after his arrest for treating wounded rebels who were fighting the oppressive King James, Blood flees England and becomes enslaved on a Barbados plantation of buccaneers. When he escapes, no ship sailing the Spanish Main is safe from Blood and his companions. Abounding with adventure, color, romance, and strong social commentary on the evils of slavery and the dangers of intolerance, this classic adventure is a story about how oppression drives men to desperate actions, how fate plays a hand in everyone's life, and how love is ultimately the greatest power of all. For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,700 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators.

Professor Penguin Lloyd Spencer Davis,2014-10-17 Meet 'Bill Bryson in Antarctica' in this engaging book by one of the world's authority on penguins. Part memoir, partly the research of a field biologist, Professor Penguin could be called 'How Penguins Shaped My Life'. Based on journals kept during Davis's years of working with penguins in the wild, the story takes readers to remote locations: Antarctica, the Galapagos, the deserts of Chile and Peru, the Falkland Islands, the wild coasts of Argentina and South Africa, and New Zealand. Davis, a world authority on penguins, reveals that these box-office favourites are not the cute 'mate for life' animals we've been led to believe. He also reveals that penguins are a lot like humans – sometimes disturbingly so – when it comes to their basic needs: sex, food, shelter, marriage, family and travel. Over the years that Davis studies penguins, he realises that they are far more complex and nuanced than he imagines at his first encounter. 'They really don't deserve to be seen as so black and white.' He expertly marries scientific knowledge with his own anecdotes – told with humour, hard-earned knowledge and insight. He also includes stories about those who have helped advance our knowledge of penguins –other 'Professor Penguins'. Implicit throughout is Davis's philosophy – the more we learn about the natural world, and specifically penguins, the more we learn about ourselves. And he asks: Is the isolation of Antarctica sufficient to protect penguins from us?

The Bloody Forest Gerald Astor,2010-06-02 The definitive account of one of World War II's bloodiest campaigns—the five-month battle between American and German forces in the Huertgen Forest—told through the words of the men who were there. From the preface: “In the course of research and interviews while writing a series of books on World War II, I became increasingly aware of the campaign for the Huertgen Forest. While survivors of other battles sometimes criticized the strategy and the orders they were given, there was a depth of anger about the Huertgen that surpassed anything I had encountered elsewhere. The unhappiness with what occurred and the absence of much objective coverage in the memoirs of those in the top command slots convinced me to produce this history. As I have reiterated in all of my books, which rely heavily on oral or eyewitness reports, there are always the dangers of flawed memory, limited vantage points, and the possibility of self-interest in such accounts. But the almost universal condemnation of their superiors' critical decisions by individuals who were under fire in that 'green hell' offers a cautionary note on the accuracy and the truths of histories that draw

from the official documents and the personal papers of the likes of Dwight Eisenhower, Omar Bradley, Courtney Hodges (who apparently left little in the way of records), J. Lawton Collins and others in similar positions. . . . Each new war differs from that of the past, but to ignore what happened in the Huertgen enhances the possibilities for another bitter victory, if not a defeat.”
