The Complete Idiot's Guide® to Creating a Social Network takes reader through the technical aspects of creating a successful site-and addresses the responsibilities involved in running one. • Covers how to build and maintain a website through a white label service such as GroupSite or Ning, and by using customized software for creating one's own network • Addresses such issues as privacy, authenticity, fostering participation, quality versus quantity, moral and ethical guidelines, and much more • Americans now average more than six hours per month on social networks, with an active unique social network audience estimated to be from 149 million—up 29 percent from 2009 • Ad revenue taken in by social networking sites is growing rapidly, and many people and companies are looking for ways to get in on this growth

**The Routledge Handbook of Language Learning and Technology** Fiona Farr,Liam Murray,2016-02-26

The exponential growth and development of modern technologies in all sectors has made it increasingly difficult for students, teachers and teacher educators to know which technologies to employ and how best to take advantage of them. The Routledge Handbook of Language Learning and Technology brings together experts in a number of key areas of development and change, and opens the field of language learning by exploring the pedagogical importance of technological innovation. The handbook is structured around six themes: historical and conceptual contexts core issues interactive and collaborative technologies for language learning corpora and data driven learning gaming and language learning purpose designed language learning resources. Led by fundamental concepts, theories and frameworks from language learning and teaching research rather than by specific technologies, this handbook is the essential reference for all students, teachers and researchers of Language Learning and TESOL. Those working in the areas of Applied Linguistics, Education and Media Studies will also find this a valuable book.

**Digital You** William Arruda,2019-10-01 What's your story? The most successful brands aren't created, they are unearthed. Successful branding is based on authenticity. So how do you reveal your own brand? First, by searching yourself for answers to questions like these: What do you do better than anyone? What are you most proud of? What makes you lose track of time? In Digital You: Real Personal Branding in the Virtual Age, branding authority William Arruda describes the 21st century world of personal branding and guides you to define, express, and expand your personal brand for the virtual world. Branding is not about being famous, Arruda explains; it's about being selectively famous. It's about more than social media excess. When you understand the true value of personal branding, you can use it as a serious career development strategy. Digital You offers a deep dive to understanding and defining your unique promise of value—making a great first impression, mastering multimedia, and, ultimately, expanding your network and promoting thought leadership. You'll learn how to develop, design, and sustain a personal brand throughout the fluid movements of any career. Understand how to be clear about your digital brand and your unique promise of value so you can increase your success and happiness at work and in life. It's time to stop worrying about career extinction and start crafting a brand of distinction.
