Stars Of The Ratland Sunday Ahuronyeze Abakwue, 2010-08-13 Once upon a very distant time, a big Rat became the King in the house of Cats. He would walk on his four tiny legs, around the house, barking orders to all the timid Cats, all in their own house. He was the Lord, their Emperor, and even the very King they knew. And there was none, in the big house, like him. One day, however, Lord Lizard came from the bush on a state visit. He had a golden cap on his head. And his hairless skin was wrapped in pure gold. And even the very claws of his four feet were all painted and coated with the very best of purified liquid gold.

The Luxury Economy and Intellectual Property Haochen Sun, Barton Beebe, Madhavi Sunder, 2015-08-26 Intellectual property law plays a pivotal role in ensuring that luxury goods companies can recoup their investments in the creation and dissemination of their copyrighted works, trademarked logos, and patented designs. In 2011, global sales for luxury goods reached about \$250 billion, and consumers in East and Southeast Asia accounted for more than 50 percent of that figure. The rapid expansion of the market has prompted some retailers to wield intellectual property against the influx of imitators and counterfeiters. The Luxury Economy and Intellectual Property comprehensively explores the rise of the luxury goods economy and the growing role of intellectual property in creating, sustaining, and regulating this economy. Leading scholars across various disciplines critically consider the industry, its foundational intellectual property laws, and the public interest and social concerns arising from the intersection of economics and law. Topics covered include defining the concept of luxury, the social life of luxury goods, concerns about distributive justice in a world flooded by luxury goods and knockoffs, the globalization of luxury goods, and the economic, social, and political ramifications of the meteoric rise of the Asian luxury goods market.
