*The Legacy of R. D. Laing* M. Guy Thompson,2015-05-22 The name R. D. Laing continues to be widely recognized by those in the psychotherapy community in the United States and Europe. Laing's books are a testament to his breadth of interests, including the understanding of madness, alternatives to conventional psychiatric treatment, existential philosophy and therapy, family systems, cybernetics, mysticism, and poetry. He is most remembered for his devastating critique of psychiatric practices, his controversial rejection of the concept of 'mental illness,' and his groundbreaking center for people in acute mental distress at Kingsley Hall, London. Most of the books that have been published about Laing have been written by people who did not know him personally and were unfamiliar with Laing the man and teacher. The Legacy of R. D. Laing: An appraisal of his contemporary relevance is composed by thinkers and practitioners who knew Laing intimately, some of whom worked with Laing. This collection of papers brings a perspective and balance to Laing's controversial ideas, some of which were never addressed in his books. There has never been a collection of papers that address so thoroughly the question of who Laing was and why he became the most famous psychiatrist in the world. As M. Guy Thompson's collection illustrates, there are now a number of alternatives to psychiatry throughout the world, and much of this can be credited to Laing's influence. The Legacy of R. D. Laing will ensure the reader has a keen grasp of who Laing was, what it was like to be his patient or his friend, and why his thinking was far ahead of its time, even in the radical era of the 1970s. It is timely to appraise the nature of his contribution and bring Laing back into contemporary conversations about the nature of sanity and madness, and more humane approaches to helping those in profound mental distress. This book offers an in-depth insight into the work of R.D. Laing. It will be a must read for psychoanalysts, psychotherapists, family therapists, psychiatrists and academics alike. M. Guy Thompson, PhD is a Personal and Supervising Analyst at the Psychoanalytic Institute of Northern California and Chairman of Free Association, Inc., a non-profit organization devoted to the dissemination of Laing's ideas, in San Francisco. Dr. Thompson received his psychoanalytic training from R. D. Laing and associates at the Philadelphia Association and is the author of numerous books and journal articles on psychoanalysis, phenomenology, and schizophrenia. He currently lives in San Rafael, California.

**R.D. Laing: His Work and its Relevance for Sociology (RLE Social Theory)** Martin Howarth-Williams,2014-08-07 This study, by a sociologist, provides the most rigorous and comprehensive review to appear so far of R. D. Laing's work and theoretical development. Martin Howarth-Williams considers that Laing's insights into such controversial issues as the divided self and the politics of the family are of an importance that transcends their basis in clinical psychiatry and that they have a special significance for sociology. Using the Progressive/Regressive Method of Jean-Paul Sartre, the author illuminates the internal coherence of Laing's aims through the various stages of his work and shows how his ideas are shaped by consistent philosophic presuppositions and influences underlying his work. To give as complete an account as possible of Laing's interests and to relate them to the broad stream of his thought, the author explores Laing's involvement in other non-psychiatric realms – especially politics, religion and eastern mysticism. Material has been secured from a wide variety of recent sources which include interviews, films, TV appearances and the author's own personal recollections of informal talks given by Laing. In the final section of the book Martin Howarth-Williams isolates the concept of 'Intelligibility', which he demonstrates to be the unifying theme central to Laing's theory and shows how this can be used as the basis for a critique of recent developments in sociological theory as well as a starting point towards a genuinely dialectical sociology.
