On a Silver Platter Greg M. Smith,1999 When the new medium of CD-ROMs emerged, industry figures and critics alike proclaimed their virtually unlimited potential. Adapting material from well-established media like television and film, CD-ROMs have quickly transformed genres such as science fiction and horror. At the same time, the realities of actual CD-ROMs often fall short of their utopian visions. On a Silver Platter marks a coming of age for CD-ROMs as a commercially and aesthetically significant medium demanding critical attention. Greg Smith brings together media scholars such as Lisa Cartwright, Henry Jenkins, Janet Murray, and Scott Bukatman to analyze how CD-ROMs offer alternatives to familiar places—to museums, to cities, and especially to classrooms. Examining specific CD-ROM titles, including, Sim City, Civilization, and Phantasmagoria, the contributors argue that CD-ROMs are complex texts worthy of close consideration, both for how they have changed our understanding of space and genre, and for how they will impact the development of future media. By examining particular CD-ROM texts and contexts, On a Silver Platter probes this new medium for insight and understanding into the current state of multimedia and into the future of technology.

The book is divided into three sections: Basic Information Formats; Types of Websites and How to Find Them; and How to Use Web Information. Jones discusses the strengths and limitations of Websites; scholarly and basic information resources are noted; and search strategies for finding pertinent Websites are included. Art Information and the Internet also discusses research methodology for studying art-historical styles, artists working in various media, individual works of art, and non-Western cultures--as well as art education, writing about art, problems of copyright, and issues concerning the buying and selling of art. Europäische Musiker in Venedig, Rom und Neapel 1650-1750 Anne-Madeleine Goulet,Gesa zur Nieden,2018-11-07 Der Abschlussband des deutsch-französischen ANR-DFG-Projekts MUSICI widmet sich der Musikermigration im Europa der Frühen Neuzeit mit einem kultur- und musikgeschichtlichen Blick auf Venedig, Rom und Neapel als Reiseziele und Wirkungsorte von Instrumentalisten, Sängern, Komponisten und Instrumentenbauern, die nicht von der italienischen Halbinsel stammten. Im Sinne einer histoire croisée werden Netzwerke, Integrations- und Austauschprozesse aufgedeckt, mit denen fremde Musiker zwischen musikalischem Alltag und herausragenden Festlichkeiten konfrontiert waren. Auf dieser Grundlage wird eine systematische Betrachtung der frühneuzeitlichen Musikermigration sowie eine Untersuchung musikalischer Stile jenseits nationaler Forschungstraditionen möglich.
