The Leaf Reader Emily Arsenault,2017-06-13 Emily Arsenault (*The Rose Notes*) makes her YA debut with a “page-ripping whodunit” about Marnie Wells, who comes face-to-face with the occult when she discovers her ability to read tea leaves might help solve the mystery of a classmate's disappearance. Marnie Wells knows that she creeps people out. It's not really her fault; her brother is always in trouble, and her grandmother, who's been their guardian since Mom took off is . . . eccentric. So no one even bats an eye when Marnie finds an old book about reading tea leaves and starts telling fortunes. The ceremony and symbols are weirdly soothing, but she knows—and hopes everyone else does too—that none of it's real. Then basketball star Matt Cotrell asks for a reading. He's been getting emails from someone claiming to be his best friend, Andrea Quinley, who disappeared and is presumed dead. And while they'd always denied they were romantically involved, a cloud of suspicion now hangs over Matt. But Marnie sees a kindred spirit: someone who, like her, is damaged by association. Suddenly, the readings seem real. And, despite the fact that they're telling Marnie things about Matt that make him seem increasingly dangerous, she can't shake her initial attraction to him. In fact, it's getting stronger. And that could turn out to be deadly.

Reader, Come Home Maryanne Wolf,2018-08-14 The author of the acclaimed *Proust and the Squid* follows up with a lively, ambitious, and deeply informative book that considers the future of the reading brain and our capacity for critical thinking, empathy, and reflection as we become increasingly dependent on digital technologies. A decade ago, Maryanne Wolf's *Proust and the Squid* revealed what we know about how the brain learns to read and how reading changes the way we think and feel. Since then, the ways we process written language have changed dramatically with many concerned about both their own changes and that of children. New research on the reading brain chronicles these changes in the brains of children and adults as they learn to read while immersed in a digitally dominated medium. Drawing deeply on this research, this book comprises a series of letters Wolf writes to us—her beloved readers—to describe her concerns and her hopes about what is happening to the reading brain as it unavoidably changes to adapt to digital mediums. Wolf raises difficult questions, including: Will children learn to incorporate the full range of deep reading processes that are at the core of the expert reading brain? Will the mix of a seemingly infinite set of distractions for children's attention and their quick access to immediate, voluminous information alter their ability to think for themselves? With information at their fingertips, will the next generation learn to build their own storehouse of knowledge, which could impede the ability to make analogies and draw inferences from what they know? Will all these influences change the formation in children and the use in adults of slower cognitive processes like critical thinking, personal reflection, imagination, and empathy that comprise deep reading and that influence both how we think and how we live our lives? How can we preserve deep reading processes in future iterations of the reading brain? Concerns about attention span, critical reasoning, and over-reliance on technology are never just about children—Wolf herself has found that, though she is a reading expert, her ability to read deeply has been impacted as she has become increasingly dependent on screens. Wolf draws on neuroscience, literature, education, and philosophy and blends historical, literary, and scientific facts with down-to-earth examples and warm anecdotes to illuminate complex ideas that culminate in a proposal for a biliterate reading brain. Provocative and intriguing, *Reader, Come Home* is a roadmap that provides a cautionary but hopeful perspective on the impact of technology on our brains and our most essential intellectual capacities—and what this could mean for our future.

Maybe he's ready to settle into the end of his career, like it's a tipsy afternoon after a working lunch.
