Hurricane Katrina and the Lessons of Disaster Relief Michael Powelson,2017-08-21 Hurricane Katrina, which hit the Gulf Coast in 2005, exposed the failings and incompetence of local, state, and federal officials, as well as the private sector and a host of other public and private agencies. This volume explores how inaction, lack of planning and undisguised greed insured that a category 3 hurricane would result in widespread destruction of both lives and property. It adopts a multifaceted approach to Hurricane Katrina, and includes studies from the fields of oral history, environmental science, physics, political science, sociology, and history. Part One provides first-hand accounts from people that lived through the hurricane and its aftermath. Part Two looks at how various entities

responded, or failed to respond, to the disaster. Included in this section are articles on public health, tourism, environmental science, and the role of the Army Corp of Engineers. Part Three incorporates data from the aftermath of Katrina to suggest future responses to hurricanes and other natural/human made disasters. Finally, Harry Shearer, actor, radio host of Le Show, and director of The Big Uneasy, a documentary on Katrina and its aftermath, contributes an article on the various elements that went into the disaster that was Hurricane Katrina.

Seeking Refuge Stephan Bauman, Matthew Soerens, Dr. Issam Smeir, 2016-06-16 Recipient of Christianity Today's Award of Merit in Politics and Public Life, 2016 ----- What will rule our hearts: fear or compassion? We can't ignore the refugee crisis—arguably the greatest geo-political issue of our time—but how do we even begin to respond to something so massive and complex? In *Seeking Refuge*, three experts from World Relief, a global organization serving refugees, offer a practical, well-rounded, well-researched guide to the issue. Who are refugees and other displaced peoples? What

are the real risks and benefits of receiving them? How do we balance compassion and security? Drawing from history, public policy, psychology, many personal stories, and their own unique Christian worldview, the authors offer a nuanced and compelling portrayal of the plight of refugees and the extraordinary opportunity we have to love our neighbors as ourselves.
