**Haunted Florence** H.P. Bradley,2018-09-17 Florence occupies a huge space in American history, and that past left a lot of lingering spirits. A Native American trickster meanders the local swamps. In Mars Bluff, a ghostly guide offers tours of a beloved plantation. A dedicated worker in the former Jamestown area still haunts a dilapidated tobacco barn. At an abandoned boardinghouse, a spectral couple searches for a lost trinket. Author H.P. Bradley details these stories and more of the historic hauntings in the Magic City.

**The Routledge International Handbook of Juvenile Homicide** Kathleen M. Heide,2023-12-22 The Routledge International Handbook of Juvenile Homicide is the definitive work on juvenile homicide. This volume provides an up-to-date, comprehensive, and in-depth exploration of what is known about juveniles involved in murder. Taking an interdisciplinary approach to juvenile homicide, this handbook brings together the leading experts in social sciences, mental health, and law from many countries. The volume covers the phenomenon of juvenile homicide from beginning to end, by addressing the questions “why do kids kill?” all the way to “how does society stop them from killing?”. The tough issues involved in sentencing youths who take the lives of others, often deliberately and in horrific ways, are confronted through chapters addressing the legal issues, child development factors, risk assessment, public attitudes, and ethical concerns. The volume brings together research specifically conducted for this volume, in addition to summaries and discussions of clinical and empirical findings. Each chapter ends with key takeaway points. Contributors include psychologists, psychiatrists, criminologists, sociologists, lawyers, economists, biologists, epidemiologists, and public health and public policy experts. Uniquely, they examine murder by juveniles across the globe. The volume includes research pertaining to the causes, correlates, and theoretical explanations of juvenile homicide offending. Moving beyond discussions of juvenile homicide offenders (JHOs) as a homogenous group, the volume includes research on specific types of JHOs and research investigating age and gender differences among JHOs. In addition, it draws attention to the empirical factors associated with juvenile homicide offending, effective treatment of JHOs, recidivism, and prevention of violent behavior. The volume also makes recommendations for policy and practice, including how to shift government policy from punishing lawbreakers to saving lives. This volume is essential reading for scholars and students researching youth violence/juvenile homicide across a variety of disciplines including criminology, criminal justice, law, psychology, psychiatry, sociology, social work, public health, and education. It is also an invaluable reference for mental health professionals, practitioners in the juvenile and criminal justice systems, policymakers, and government leaders.

**The Favorite Daughter** Patti Callahan Henry,2019-06-04 From the New York Times bestselling author of *The Bookshop at Water’s End*, here is a lush, heart-wrenching novel about the power of memory, the meaning of family, and learning to forgive. Ten years ago, Lena Donohue experienced a wedding-day betrayal so painful that she fled the small town of Watersend, South Carolina, and reinvented herself in New York City. Though now a freelance travel writer, the one place she rarely goes is home—until she learns of her dad’s failing health. Returning to Watersend means seeing the sister she has avoided for a decade and the brother who runs the family’s Irish pub and has borne the burden of his sisters’ rift. While Alzheimer’s slowly steals their father’s memories, the siblings rush to preserve his life in stories and in photographs. As his secret past brings Lena’s own childhood into focus, it sends her on a journey to discover the true meaning of home.

The American Poet Laureate Amy Paeth,2023-05-16 The American Poet Laureate shows how the state has been the silent center of poetic production in the United States since World War II. It is the first history of the national poetry office, the U.S. poet laureate, highlighting the careers of Elizabeth Bishop, Robert Frost, Gwendolyn Brooks, Robert Pinsky, Tracy K. Smith, Juan Felipe Herrera, and Joy Harjo at the nation’s Capitol. It is also a history of how these state poets participated in national arts programming during the Cold War. Drawing on previously unexplored archival materials at the Library of Congress and materials at the John F. Kennedy Presidential Library, Amy Paeth describes the interactions of federal bodies, including the Central Intelligence Agency, the State Department, and the National Endowment for the Arts, with literary organizations and with private patrons, including “Prozac heiress” Ruth Lilly. The consolidation of public and private interests is crucial to the development of state verse culture, recognizable at the first National Poetry Festival in 1962, which followed Robert Frost’s “Mission to

Moscow,” and which became dominant in the late 1990s and early 2000s. The American Poet Laureate contributes to a growing body of institutional and sociological approaches to U.S. literary production in the postwar era and demonstrates how poetry has played a uniquely important, and largely underacknowledged, role in the cultural front of the Cold War.

**Biker Gangs and Transnational Organized Crime** Thomas Barker, 2014-10-17 Biker Gangs and Transnational Organized Crime, Second Edition, describes and analyzes a rapidly expanding global problem: criminal acts committed by motorcycle gangs. Thomas Barker, one of the world’s top experts on outlaw biker gangs, offers fascinating details about the Bandidos, the Vagos, the Mongols, and other one percenters (criminal biker gangs, as opposed to the vast majority of motorcycle enthusiasts). He combines this data with a strengthened conceptual framework that makes sense of this complicated picture. U.S.-based motorcycle gangs like the Hells Angels have proliferated, especially in Canada and Europe, to the point where these gangs have more members in other countries than in the United States. Increasingly more often in recent years their crimes are not limited to rumbles or drug use—these gangs challenge the dominance of organized crime, leading to violent conflicts between the rivals. Germany, Scandinavia, the UK, the Netherlands, and Canada are particularly hard-hit by this rising violence. One of Barker’s unique contributions is his Criminal Organization Continuum, building on the groundbreaking network approach to organized crime proposed by Klaus von Lampe. Introduced in the first edition, Barker elaborates his continuum tool and makes it more multi-dimensional to help refine the definition of adult criminal gangs. The product of years of research, this book lays the groundwork for further study by offering students, police, and researchers the most thorough account available of outlaw motorcycle gangs.

Understanding Angry Groups Susan C. Cloninger, Steven A. Leibo, 2017-01-23 This book examines the dynamics that lead to anger in individuals, within groups, and between groups; identifies the role of the media in angry group behavior; and offers solutions for dealing with angry groups and channeling that negative energy in positive ways. In today’s society, we see angry groups in many forms—from animal rights and climate crisis activists to citizens opposed to allowing more immigrants of certain ethnicities or religions into the country, militia groups frustrated by acts of domestic terrorism and legislation that limits gun ownership and the ability to carry weapons in public, and those outraged by what they see as police brutality or the unnecessary use of deadly force against people of color. More than just evidence of civil unrest in society, angry groups across history and nations often ultimately affect our politics and our government, for better or worse, and sometimes result in injury, bloodshed, or financial costs that hit otherwise-uninvolved taxpayers. This book demonstrates how people across our nation are involved in, affected by, or harmed by angry groups; covers historical and modern perspectives on angry groups; and offers suggestions for predicting and influencing the expression of angry group behavior. It provides readers with an understanding of such conflicts and of their origins and dynamics that may offer insights to successful resolution, and it identifies strategies that can reduce the suffering that comes from such conflicts.

*The Changing Nature of War* Kristen Boon, Douglas C. Lovelace (Jr.), 2012 Terrorism: Commentary on Security Documents is a series that provides primary source documents and expert commentary on various topics in the worldwide effort to combat terrorism. Among the documents collected are transcripts of Congressional testimony, reports by such federal government bodies as the Congressional Research Service (CRS) and the Government Accountability Office (GAO), United Nations Security Council resolutions, reports and investigations by the United Nations Secretary-General and other dedicated UN bodies, and case law from the U.S. and around the globe covering issues related to terrorism. Most volumes carry a single theme, and inside each volume the documents appear within topic-based categories. The series also includes a subject index and other indices that guide the user through this complex area of the law. Volume 127, *The Changing Nature of War*, tackles how the approach to training for and fighting wars and readying national security is likely to evolve as the United States moves further into the 21st Century. Professor Douglas Lovelace, Jr. has organized and provided framing and illustrative commentary on Congressional Research Service reports, Presidential policy statements, Department of Defense strategy papers, and research reports from the U.S. Army War College’s Strategic Studies Institute on contemporary national security topics as: United States war planning; the inter-related policy and force-related concerns of shifting from counterinsurgency-based efforts abroad to a focus on counterterrorism both domestically and abroad; transnational organized crime, with particular emphasis on the Mexican drug cartels operating along the U.S.-Mexico border; and the ever-expanding national security and private economic ramifications of cyberwarfare.

**True Crime Stories of Eastern North Carolina** Cathy Pickens, 2020-09-28 Eastern North Carolina is a land of contrasts, and its crime stories bear this out. A lovelorn war hero or a stalker? Conniving wife or consummate homemaker? Murder or suicide? The answers can be as puzzling as the questions. Mystery author Cathy Pickens details an assortment of quirky cases, including a duo of poisoning cases more than one hundred years apart, a band of folk hero swamp outlaws, sex swingers and a couple of mummies. Each story has, in its way, helped define Eastern North Carolina and its history.

*Why Boys Fail* Richard Whitmire, 2011-09-30 This book takes a hard look at how this ominous reality came to be, how it has worsened in recent years, and why attempts to resolve it often devolve into finger-pointing and polarizing politics. The signs and statistics are undeniable: boys are falling behind in school. Contrary to conventional wisdom, the biggest culprits are not video games, pop culture, or female-dominated schools biased toward girls. The real problem is that boys have been thrust into a bewildering new school environment that demands high-level reading and writing skills long before they can handle them. In *Why Boys Fail*, you will understand this misunderstood problem and uncover schools that are getting it right by boosting literacy among the entire student body, using: data, interviews, case studies, and clearheaded analysis. Amidst the alarming proof of failure among boys, there are also inspiring case studies of schools where something is going right. Each has come up with realistic ways to make sure that every student—male and female—has the tools to succeed in school and later in life. Educators and parents alike will take heart in these promising developments and heed the book’s call to action, not only to demand solutions but also to help create them for their own students and children.

American Jihadist Terrorism: Combating a Complex Threat Jerome P. Bjelopera, 2013 This report describes homegrown violent jihadists and the plots and attacks that have occurred since 9/11. For this report, homegrown and domestic are terms that describe terrorist activity or plots perpetrated within the United States or abroad by American citizens, legal permanent residents, or visitors radicalized largely within the United States. The report also discusses the radicalization process and

the forces driving violent extremist activity. It analyzes post-9/11 domestic jihadist terrorism and describes law enforcement and intelligence efforts to combat terrorism and the challenges associated with those efforts. It also outlines actions underway to build trust and partnership between community groups and government agencies and the tensions that may occur between law enforcement and engagement activities.
