**Powerhouse** Brian MacNeice,James Bowen,2016-10-03 DISTINGUISHED FAVOURITE: Independent Press Awards 2017 Why are the New Zealand All Blacks the best rugby team in the world? How does the Kirov Ballet produce generation after generation of exceptional ballerinas? How did Southwest Airlines evolve from being an idiosyncratic Texan airline to become one of the most successful businesses internationally? How does the Finnish School Education System deliver great results by breaking conventions? Powerhouse uncovers the performance secrets of some of the most impressive organizations around the world and reveals the key principles they have in common to enable any business to raise their own bar. To understand what makes these organizations great, MacNeice and Bowen have conducted immersive and personal research; investigating their culture, interviewing their leaders and observing their everyday practice. Despite this diverse range of seemingly contrasting industries - business, sport, technology, finance, the arts - each of these successful institutions share a common bond: they are world-class industry leaders and have repeatedly outperformed their competition. Powerhouse explores what lessons can be learnt from these organizations to provide a unique and in-depth analysis of how enduring high performance can be developed.

A New Literary History of the Long Twelfth Century Mark Faulkner,2022-07-28 A New Literary History of the Long Twelfth Century offers a new narrative of what happened to English language writing in the long twelfth century, the period that saw the end of the Old English tradition and the beginning of Middle English writing. It discusses numerous neglected or unknown texts, focusing particularly on documents, chronicles and sermons. To tell the story of this pivotal period, it adopts approaches from both literary criticism and historical linguistics, finding a synthesis for them in a twenty-first century philology. It develops new methodologies for addressing major questions about twelfth-century texts, including when they were written, how they were read and their relationship to earlier works. Essential reading for anyone interested in what happened to English after the Norman Conquest, this study lays the groundwork for the coming decade's work on transitional English.

*Plankton Ecology of the Southwestern Atlantic* Mónica S. Hoffmeyer,Marina E. Sabatini,Frederico P. Brandini,Danilo L. Calliari,Norma H. Santinelli,2018-06-26 This book integrates a variety of issues such as regional settings of productivity and nutrient cycling; plankton of coastal and shelf systems; plankton, climate change and human-induced changes; harmful algae and their impacts; and gelatinous zooplankton. This book explores the intriguing marine plankton communities of the SWA region of South America encompassing low to high latitude environments, framed by a complex hydrographic background and global climate change. This vast and iconic region has been largely under-recognized and under-studied. However, in recent years a strong interest has emerged along with the acknowledgment of its high biological productivity. The book concludes by discussing conservation in the region, highlighting regional biodiversity hotspots where the challenges of climate change, habitat loss, and other threats to biodiversity may be particularly acute. Plankton Ecology of the Southwestern Atlantic is a timely synthesis of the field, setting a new baseline for future research. It will be important reading for both researchers and graduate students, and will also be of interest and use to a professional audience of oceanographers, conservation biologists, stake holders and educated science enthusiasts
