James R. Lewis

Among the Scientologists Donald A. Westbrook, 2018-11-01 The Church of Scientology is one of the most recognizable American-born new religions, but perhaps the least understood. With academic and popular interest on the rise, many books have been written about Scientology and surely more will follow. Although academics have begun to pay more attention to Scientology, the subject has received remarkably little qualitative attention. Indeed, no work has systematically addressed such questions as: what do Scientologists themselves have to say about their religion's history, theology, and practices? How does Scientology act as a religion for them? What does lived religion look like for a Scientologist? This is not so much a book about the Church of Scientology, its leaders, or its controversies, as it is a compilation of narratives and histories based on the largely unheard or ignored perspectives of Scientologists themselves. Drawing on six years of interviews, fieldwork, and research conducted among members of the Church of Scientology, this groundbreaking work examines features of the new religion's history, theology, and praxis in ways that move discussion beyond apostate-driven and exposé accounts.

The Church of Scientology Hugh B. Urban, 2013-02-24 Scientology's long and complex journey to recognition as a religion. Scientology is one of the wealthiest and most powerful new religions to emerge in the past century. To its detractors, L. Ron Hubbard's space-age mysticism is a moneymaking scam and sinister brainwashing cult. But to its adherents, it is humanity's brightest hope. Few religious movements have been subject to public scrutiny like Scientology, yet much of what is written about the church is sensationalist and inaccurate. Here for the first time is the story of Scientology's protracted and turbulent journey to recognition as a religion in the postwar American landscape. Hugh Urban tells the real story of Scientology from its cold war-era beginnings in the 1950s to its prominence today as the religion of Hollywood's celebrity elite. Urban paints a vivid portrait of Hubbard, the enigmatic founder who once commanded his own private fleet and an intelligence apparatus rivaling that of the U.S. government. One FBI agent described him as a mental case, but to his followers he is the man who solved the riddle of the human mind. Urban details Scientology's decades-long war with the IRS, which ended with the church winning tax-exempt status as a religion; the rancorous cult wars of the 1970s and 1980s; as well as the latest challenges confronting Scientology, from attacks by the Internet group Anonymous to the church's efforts to suppress the online dissemination of its esoteric teachings. The Church of Scientology demonstrates how Scientology has reflected the broader anxieties and obsessions of postwar America, and raises profound questions about how religion is defined and who gets to define it.

What is Scientology? Boyd Grant, 2013-12-10 By now it's a safe bet that you have at least heard of Scientology. Nine times out of ten what you have heard is negative. Very rarely do you ever hear something positive about the Church of Scientology or Scientologists. This often leads to a greater misunderstanding of Scientology, Scientologists and what the mission of the Church of Scientology actually is. Scientology is arguably the most controversial of all the religions. When you mention Scientology to someone you are almost guaranteed to get some kind of reaction or opinion. The Church of Scientology has been maligned and demonized by many detractors. But Scientologists themselves are passionate about their beliefs and defend Scientology with that very same passion. When it finally comes down to understand what Scientology is there is little if any objective information out there. It's all written from the perspective of detractors, supporters or people who just uninformed about Scientology and Scientologists in general. A new book, *What Is Scientology - History, Beliefs, Rules, Secrets and Facts*, will help shed some light on one of the most controversial topics of all

time, Scientology. Look no further for one of the few objective accounts that will finally shed some light on the Church of Scientology. *What Is Scientology? History, Beliefs, Rules, Secrets and Facts* helps you better understand Scientology. It cuts out all the unhelpful chatter and helps you understand in simple terms exactly what Scientology is. This short book will help answer the most important questions you might have about Scientology. Some of the more important questions include everything from the Scientology belief system, the History of Scientology, and why people join the Church of Scientology and much more. You will also have a greater understanding of why people hate Scientology and why former members speak out about it. For those of you looking to learn more about Scientology this is the book you are looking for.

Scientology in Popular Culture Stephen A. Kent, Susan Raine, 2017-07-14 This multidisciplinary study of Scientology examines the organization and the controversies around it through the lens of popular culture, referencing movies, television, print, and the Internet—an unusual perspective that will engage a wide range of readers and researchers. For more than 60 years, Scientology has claimed alternative religious status with a significant number of followers, despite its portrayals in popular culture domains as being bizarre. What are the reasons for the vital connections between Scientology and popular culture that help to maintain or challenge it as an influential belief system? This book is the first academic treatment of Scientology that examines the movement in a popular-culture context from the perspective of several Western countries. It documents how the attention paid to Scientology by high-profile celebrities and its mention in movies, television, and print as well as on the Internet results in millions of people being aware of the organization—to the religious organization's benefit and detriment. The book leads with a background on Scientology and a discussion of science fiction concepts, pulps, and movies. The next section examines Scientology's ongoing relationship with the Hollywood elite, including the group's use of celebrities in its drug rehabilitation program, and explores movies and television shows that contain Scientology themes or comedic references. Readers will learn about how the Internet and the mainstream media of the United States as well as of Australia, Germany, and the UK have regarded Scientology. The final section investigates the music and art of Scientology.

Inside Scientology Janet Reitman, 2011-06-13 Based on five years of research, access to confidential documents, and extensive interviews with current and former Scientologists, Janet Reitman sheds some long-awaited light on the ever-elusive religion of the Church of Scientology. Scientology, created in 1954 by pulp science fiction writer L. Ron Hubbard, claims to be the world's fastest growing religion, with millions of members and huge financial holdings. Celebrity believers keep its profile high. Teams of volunteer ministers offer aid at disaster sites like Haiti and the World Trade Center. But Scientology is also a very closed faith, harassing journalists and others through litigation and intimidation, even infiltrating high levels of the government to further its goals. Its attacks on psychiatry and its requirement that believers pay as much as tens or even hundreds of thousands of dollars for salvation have drawn scrutiny and skepticism. Ex-members use the internet to share stories of harassment and abuse. Reitman offers the first full journalistic history of the Church of Scientology in an even-handed account that establishes the truth about the controversial religion. She traces Scientology's development from the birth of Dianetics to today, following its metamorphosis from a pseudoscientific self-help group to a global spiritual corporation with profound control over its followers and ex-followers. This is a defining book about a little-known world.

Handbook of Scientology James R. Lewis, 2017-01-05 The Handbook of Scientology brings together a collection of fresh studies of

the most persistently controversial of all contemporary New Religions.

Scientology James R. Lewis, 2009-03-11 Scientology is arguably the most persistently controversial of all contemporary New Religious Movements. James R. Lewis has assembled an unusually comprehensive anthology, incorporating a wide range of different approaches. In this book, a group of well-known scholars of New Religious Movements offers an extensive and evenhanded overview and analysis of all of these aspects of Scientology, including the controversies to which it continues to give rise.

Scientology Linus Hauser, 2010-08-18 Die Ideologie, die Scientology zugrunde liegt - hier wird sie entlarvt! Jeder meint zu wissen, worum es bei Scientology geht. Doch es gibt kaum etwas Geheimnisvolleres als dieses weltumspannende Imperium. Handelt es sich um eine Kirche, eine Sekte oder doch um ein bedrohliches Netzwerk, dessen Intentionen nichts weniger als verbrecherisch sind? Das Spektrum im Urteil über Scientology ist groß: In manchen Ländern wie der Schweiz genießt sie den Status einer Kirche mit allen sich daraus ergebenden Vorteilen, während sie in anderen - etwa in Deutschland - sogar unter Beobachtung durch den Verfassungsschutz steht. Mittlerweile verfügt die Scientology-Organisation über ein weltumspannendes Netzwerk. Zahlreiche Stars und Sternchen, vor allem aus der Glitzerwelt Hollywoods, sind bekennende Anhänger und stehen in der Hierarchie der Organisation an exponierter, geradezu werbender Stelle. Filme über Scientology finden ein Millionenpublikum. Wer sich selbst ein Urteil bilden möchte, was die ideologische Basis von Scientology ausmacht, muss zur Geburt des Imperiums zurück und sich mit der Entwicklung des Gedankengebäudes ihres Gründers Ronald Hubbard beschäftigen, der die Organisation über Jahrzehnte diktatorisch regiert und geformt hat. Linus Hauser ist diesen Spuren detektivisch nachgegangen und legt die weltanschauliche Basis offen, auf der das Imperium fußt.

Going Clear (Enhanced Edition) Lawrence Wright, 2013-01-17 National Book Award Finalist The enhanced eBook edition of Lawrence Wright's revelatory study of Scientology includes additional photographs and documents, plus more than thirty minutes of original video—taped interviews with former members of the church speaking about what drew them to Scientology and about discovering past lives, the church's position on abortion and homosexuality, and how the Guardian's Office functions; and in interviews with the author, Lawrence Wright speaks about his aims in writing this book, his respect for his sources, and methods of research. A clear-sighted revelation, a deep penetration into the world of Scientology by Pulitzer Prize-winning author of *The Looming Tower*, the now-classic study of al-Qaeda's 9/11 attack. Based on more than two hundred personal interviews with current and former Scientologists—both famous and less well known—and years of archival research, Lawrence Wright uses his extraordinary investigative ability to uncover for us the inner workings of the Church of Scientology. At the book's center, two men whom Wright brings vividly to life, showing how they have made Scientology what it is today: The darkly brilliant science-fiction writer L. Ron Hubbard, whose restless, expansive mind invented a new religion. And his successor, David Miscavige—tough and driven, with the unenviable task of preserving the church after the death of Hubbard. We learn about Scientology's complicated cosmology and special language. We see the ways in which the church pursues celebrities, such as Tom Cruise and John Travolta, and how such stars are used to advance the church's goals. And we meet the young idealists who have joined the Sea Org, the church's clergy, signing up with a billion-year contract. In *Going Clear*, Wright examines what fundamentally makes a religion a religion, and whether Scientology is, in fact, deserving of this constitutional protection. Employing all his exceptional journalistic skills of observation, understanding, and shaping a story into a compelling narrative, Lawrence Wright has given us an evenhanded yet keenly incisive book that reveals

the very essence of what makes Scientology the institution it is.

Going Clear Lawrence Wright, 2013-01-17 NATIONAL BESTSELLER • NATIONAL BOOK AWARD AND NATIONAL BOOK CRITICS CIRCLE AWARD FINALIST • From the Pulitzer Prize-winning author of *The Looming Tower* comes “an utterly necessary story” (The Wall Street Journal) that pulls back the curtain on the church of Scientology: one of the most secretive organizations at work today. • The Basis for the HBO Documentary. Scientology presents itself as a scientific approach to spiritual enlightenment, but its practices have long been shrouded in mystery. Now Lawrence Wright—armed with his investigative talents, years of archival research, and more than two hundred personal interviews with current and former Scientologists—uncovers the inner workings of the church. We meet founder L. Ron Hubbard, the highly imaginative but mentally troubled science-fiction writer, and his tough, driven successor, David Miscavige. We go inside their specialized cosmology and language. We learn about the church’s legal attacks on the IRS, its vindictive treatment of critics, and its phenomenal wealth. We see the church court celebrities such as Tom Cruise while consigning its clergy to hard labor under billion-year contracts. Through it all, Wright asks what fundamentally comprises a religion, and if Scientology in fact merits this Constitutionally-protected label.

Scientology Introduction

In today's digital age, the availability of Scientology books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Scientology books and manuals for download, along with some popular platforms that offer these resources. One of the significant

advantages of Scientology books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Scientology versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Scientology books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or

referencing. When it comes to accessing Scientology books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Scientology books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America,

which provides a vast collection of digitized books and historical documents. In conclusion, Scientology books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Scientology books and manuals for download and embark on your journey of knowledge?
