The USS Ward Richard P. Klobuchar,2015-05-20 In 1940, the threat of war in the Pacific forced the United States to expand its fleet quickly. This effort included reconditioning and recommissioning “four stackers” from the navy’s reserve fleet. Built in 1918 to fight German submarines, the USS Ward earned at Pearl Harbor the distinction of firing the first shot in America’s war against Japan. In the three years that followed, it was bombed, shelled, strafed, and finally sunk (on December 7, 1944), yet none of her crew of 125 men ever lost a life in combat. Information is drawn from naval records as well as from interviews with surviving crewmen. Appendices provide Ward technical data, a chronology of major events, listings of citations earned in World War II and of amphibious landings, and a roster of personnel.

After years of watching ships being built at the docks and going on short excursions with his father and grandfather, he finally gets the chance to go on a great fishing expedition. But is Davy up for the challenge? A perfect fit for fans of exciting 19th century adventure stories complete with a potent take on morality. Recommended for fans of Daniel Defoe's adventure novel 'Robinson Crusoe' and Walt Disney's 1960 movie 'Swiss Family Robinson' starring John Mills, Dorothy McGuire, James MacArthur and Janet Munro. Nobel-Prize winning author William Golding also drew inspiration from Ballantyne's seafaring and adventure prose for his cult novel 'The Lord of The Flies'. R. M. Ballantyne was a Scottish writer specialising in the juvenile fiction genre. He was born as Robert Michael Ballantyne into a family of well-known printers and publishers in Edinburgh. At age 16 he travelled to Canada where he served with the Hudson's Bay Company for six years. He returned to Scotland in 1847 and published his first book the next year, 'Hudson's Bay: or Life in the Wilds of North America'. For several years he was employed by the publishing house Messrs Constable. But in 1856 he decided to leave the literature business. Instead he began writing a series of adventure stories for young readers.

**Ghost Ship of Diamond Shoals** Bland Simpson,2002 The extraordinary wreck of a majestic ship, a mysteriously missing crew, a message in a bottle, the lost captain's determined daughter - these are all elements of a great sea yarn, and one that happens to be true. Bland Simpson weaves them together in this nonfiction novel, his reconstruction of a ghost ship's final voyage and its baffling aftermath. Using contemporary sources including newspapers, FBI reports, ship's logs, and personal and official correspondence, Simpson dramatizes the ghost ship's final voyage, in the same style he employed so successfully in the award-winning nonfiction novel *The Mystery of Beautiful Nell Cropsey*. Interwoven with the historical narrative are the voices of three key participants in the drama: Lula Wormell, the nervy and sturdy young Maine girl who inspired the investigation; Christopher Columbus Gray, the fisherman whose discovery caused a sensational panic; and W. O. Saunders, the well-known Elizabeth City, N.C., newspaper editor who was also featured in *Nell Cropsey*. To this day, the fate of the Carroll A. Deering is considered one of the greatest mysteries of maritime history. Bland Simpson's haunting chronicle keeps the story alive, an apt memorial to the ghost ship and its lost crew.

*Cruise Ships The Small Scale Fleet* Peter C Smith,2014-03-31 Peter C. Smith presents us here with the second release in his visually splendid Cruise Ships series. Whilst his first book concerned itself with the large-scale ships currently cruising through our seas (those weighing 40,000 GT and more) this volume focusses on the other end of the market; the ships that weigh in at less than 40,000 GT, but which are often much more stylish and aesthetically pleasing than their larger-scale counterparts. The elegant interiors and luxurious features on display in today's vast fleet of cruise liners remain unrecorded in all but holiday brochures. This book carries on in the tradition of Peter's last release, giving a complete overview of the best of these ships, the cream of the crop, so to speak.??Each colour profile includes external and interior views of the featured ship. Details of the design, building and service history of each vessel are provided with vital statistics of the ship and its facilities.??This is a book of reference for maritime enthusiasts, would-be holiday cruisers and those who have been passengers. It serves as an impressive visual tribute to the best of the smaller scale fleet currently cruising globally.??As seen in the Bedford Times & Citizen.

Ships of the American Revolutionary Navy Mark Lardas,2012-01-20 Mark Lardas explores the origins of American warships, primarily light and medium frigates, built for the Continental Navy during the years 1776–1783. This was the first navy of the United States and much of the fleet was comprised of ships that had been modified from existing vessels, converted into warships to provide a crucial service during the American Revolutionary War. Despite having no real funding, this unique fleet had a surprising amount of success against the might of the Royal Navy, and this title discusses the strengths and weaknesses of each design, and the differences between European and American warships of the time. With a close look at how these ships performed in key battles, as well as the exploits of John Paul Jones – the founding father of the United States Navy – this is a complete, illustrated overview of the ships' service and development until France's entry into the war and the subsequent decline in importance of the Continental Navy.

*Plague Ship (SF Classic)* Andre Norton,2019-12-18 This eBook edition has been formatted to the highest digital standards and adjusted for readability on all devices. Plague Ship follows the adventures of Dane Thorson, a Cargo-master-apprentice on the Free Trader rocket ship the Solar Queen. Free Traders take on trading contracts on remote and recently discovered planets, which can be dangerous and unpredictable. The Solar Queen has recently obtained a valuable trading contract on the planet Sargol and are building a relationship with one of the races on the planet, the cat-like Salariki. The process goes slowly till the Salariki discover that the Solar Queen is carrying catnip and other plants from Terra that are unknown on Sargol. The traders exchange what little of the plants they have for the rare and valuable Koros stones and collect a native red-colored wood to exchange at home. A few days after leaving the planet, several members of the crew suffer from attacks, which start with severe headaches and end in a semi-coma state. Only 4 of the younger members of the crew are unaffected, including Dane Thorson. Upon exiting hyperspace on return to the vicinity of Terra, the crew discovers that they are pariah and have been declared a plague ship.

**The Grain Ship** Morgan Robertson,2021-02-08 I could not help listening to the talk at the next table, because the orchestra was quiet and the conversation unrestrained; then, too, a nautical phrasing caught my ear and aroused my attention. For I had been a lifelong student of nautical matters. A side glance showed me the speaker, a white-haired, sunburned old fellow in immaculate evening dress. With him at the table in the restaurant were other similarly clad men, evidently of good station in life, and in their answers and comments these men addressed the white-haired man as Commodore. A navy captain, I thought, promoted on retirement. His talk bore it out. Yes, sirree, he said, as he thumped the table mildly. A good, tight merchant ship, with nothing wrong except what might be ascribed to neglect such as light canvas blown away and ropes cast off the pins, with no signs of fire, leak, or conflict to drive the crew out, with plenty of grub in the stores and plenty of water in the tanks. Yet, there she was, under topsails and topgallant-sails, rolling along before a Biscay sea, and deserted, except that the deck was almost covered with dead rats.

*The Ship* Jabrā Ibrāhīm Jabrā,1985 Jabra's novel is a masterful exploration of the post-1948 Arab world, with its frustration yearning for homeland, and struggle for survival. The action takes place on a ship cruising the Mediterranean - a closed environment, where seemingly unrelated characters can unravel their reasons for being there and their links with the others on board. --Book Jacket.

**The Good Ship** Ian Friel,1995 Traces the momentous advances in ship design during the Middle Ages that made possible the wars, explorations, and trade that followed. Also describes the economic and social forces that shaped the shipbuilding industry, the shipyards, and the workers. Illustrated with drawings and woodcuts.
