The Book of Chatbots Robert Ciesla,2024-01-13 Primitive software chatbots emerged in the 1960s, evolving swiftly through the decades and becoming able to provide engaging human-to-computer interactions sometime in the 1990s. Today, conversational technology is ubiquitous in many homes. Paired with web-searching abilities and neural networking, modern chatbots are capable of many tasks and are a major driving force behind machine learning and the quest for strong artificial intelligence, also known as artificial general intelligence (AGI). Sophisticated artificial intelligence is changing the online world as advanced software chatbots can provide customer service, research duties, and assist in healthcare. Modern chatbots have indeed numerous applications — including those of a malicious nature. They can write our essays, conduct autonomous scams, and potentially influence politics. The Book of Chatbots is both a retrospective and a review of current artificial intelligence-driven conversational solutions. It explores their appeal to businesses and individuals as well as their greater social aspects, including the impact on academia. The book explains all relevant concepts for readers with no previous knowledge in these topics. Unearthing the secrets of virtual assistants such as the (in)famous ChatGPT and many other exciting technologies, The Book of Chatbots is meant for anyone interested in the topic, laypeople and IT-enthusiasts alike.

Intelligent Computing Kohei Arai,Supriya Kapoor,Rahul Bhatia,2018-11-01 This book, gathering the Proceedings of the 2018 Computing Conference, offers a remarkable collection of chapters covering a wide range of topics in intelligent systems, computing and their real-world applications. The Conference attracted a total of 568 submissions from pioneering researchers, scientists, industrial engineers, and students from all around the world. These submissions underwent a double-blind peer review process. Of those 568 submissions, 192 submissions (including 14 poster papers) were selected for inclusion in these proceedings. Despite computer science's comparatively brief history as a formal academic discipline, it has made a number of fundamental contributions to science and society—in fact, along with electronics, it is a founding science of the current epoch of human history ('the Information Age') and a main driver of the Information Revolution. The goal of this conference is to provide a platform for researchers to present fundamental contributions, and to be a premier venue for academic and industry practitioners to share new ideas and development experiences. This book collects state of the art chapters on all aspects of Computer Science, from classical to intelligent. It covers both the theory and applications of the latest computer technologies and methodologies. Providing the state of the art in intelligent methods and techniques for solving real-world problems, along with a vision of future research, the book will be interesting and valuable for a broad readership.

Engineering the Web in the Big Data Era Philipp Cimiano,Flavius Frasincar,Geert-Jan Houben,Daniel Schwabe,2015-06-09 This book constitutes the refereed proceedings of the 15th International Conference on Web Engineering, ICWE 2015, held in Rotterdam, The Netherlands, in June 2015. The 26 full research papers, 11 short papers, 7 industry papers, 11 demonstrations, 6 posters and 4 contributions to the PhD symposium presented were carefully reviewed and selected from 100 submissions. Moreover 2 tutorials are presented. The papers focus on eight tracks, namely Web application modeling and engineering; mobile Web applications; social Web applications; semantic Web applications; quality and accessibility aspects of Web applications; Web applications composition and mashups; Web user interfaces; security and privacy in Web applications.

Emerging Champions in the Digital Economy Xiaoming Zhu,2018-12-13 This book presents a list of emerging and established companies which have a strong belief in the digital economy and elaborate their unique digital innovations. The companies selected for this book are from a variety of industries, including both Chinese and international leading technology companies such as iflytek, JD.com, IBM and Amazon. A wide range of commercial fields are covered ensuring a comprehensive research on the topic of digital economy, for example Shanghai Center (Construction Management), PPDai(Finance), 3Dmed(Precision Medicine), Children's Hospital of Shanghai(Medical Service), First Respond (First Aid Service) etc. All cases are presented based on field studies as well as in-depth interviews and are followed by thought-provoking case analysis, which can help readers to better understand the cases from different perspectives. Readers can use this book as a good reference to address challenges and capture opportunities in the context of ever growing digital economy.

Health Information Science Xiaoxia Yin,Kendall Ho,Daniel Zeng,Uwe Aickelin,Rui Zhou,Hua Wang,2015-05-05 This book constitutes the refereed proceedings of the 4th International Conference on Health Information Science, HIS 2014, held in Melbourne, Australia, in May 2015. The 20 full papers and 5 short papers presented were carefully reviewed and selected from numerous submissions. The scope of the papers includes medical/health/biomedicine information resources such as patient medical records, devices and equipments, software and tools to capture, store, retrieve, process, analyze, and optimize the use of information in the health domain; data management, data mining, and knowledge discovery, all of which play a key role in decision making, management of public health, examination of standards, privacy and security issues; computer visualization and artificial intelligence for computer aided diagnosis; development of new architectures and applications for health information systems.

LiberTEA Trilogy 1: Éclair Gazchela Aerienne, Dala ng matinding boredom ay napagpasyahan ni Éclair na pumunta sa farm nila para makapag-unwind. Pero hindi pag-a-unwind ang napala niya. Dahil unang araw pa lang sa farm ay nakasalubong na niya si Vincent del Vega—ang guwapo at supladong customer nila sa LiberTEA, na napag-trip-an niya minsang maligaw ito sa coffee shop. At ikini-claim nitong pinagtataguan daw at tinatakasan niya ang atraso sa lalaki. "Ano? Wala akong atraso sa `yo. Ikaw itong may atraso sa `kin. Bakit ka basta pumapasok sa lupain ko, ha?" mataray na sikmat ni Éclair sa lalaki. "Dahil naniningil ako ng pautang. Sige, bukas na lang ulit ako maniningil. Alas-siyete ng umaga." That brute! hindi ito titigil hanggang hindi nakakapaningil. Pero may problema pa pala siya. Dahil sa sulok ng puso ni Éclair, gusto niyang parating may sumusulpot na guwapong Vincent sa harap niya para singilin ang kabayaran sa atraso niya ditto. Puwede na kayang ipambayad ang puso niya?

The History of al-Ṭabarī Vol. 1 ,2015-06-10 Volume I of the thirty-eight volume translation of Ṭabarī's great History begins with the creation of the world and ends with the time of Noah and the Flood. It not only brings a vast amount of speculation about the early history of mankind into sharp Muslim focus, but it also synchronizes ancient Iranian ideas about the prehistory of mankind with those inspired by the Qur'an and the Bible. The volume is thus an excellent guide to the cosmological views of many of Ṭabarī's contemporaries. The translator, Franz Rosenthal, one of the world's foremost scholars of Arabic, has also written an extensive introduction to the volume that presents all the facts known about Ṭabarī's personal and professional life. Professor Rosenthal's meticulous and original scholarship has yielded a valuable bibliography and chronology of Ṭabarī's writings, both those preserved in manuscript and those alluded to by other authors. The introduction and first volume of the translation of the History form a ground-breaking contribution to Islamic historiography in English and will prove to be an invaluable source of information for those who are interested in Middle Eastern history but are unable to read the basic works in Arabic.

When The Rain Stopped Falling KENDANIEL,2019-07-02 Elois is in a constant state of doubt. She doubts the people around her, her place in the world, and even herself. And on one of the worst days of her already unstable life,

she gets the most shocking plot twist of all. When the rain stops falling literally in midair, she meets her future husband, Nikolas, who traveled back to her time to prevent losing her in the future. One mistake after another, however, forces Elois to stay away from the man she can't get herself to trust. But Nikolas will continue to test fate time and time again, risking everything in the process, to get even just one more day with the woman he loves.

Architectures, Rules, and Preferences Annie Else Zaenen,2007 Architectures, Rules, and Preferences reflects the interests and honors the influence of Joan W. Bresnan's two decades of foundational work on Lexical-Functional Grammar. This comprehensive volume includes contributions by leading linguists on language typology, synchronic variation, language change, constituent structure, function identification, subject condition, control, complex predicates, NP internal structure, wh-constructions, syntactic features, and lexical issues. Featuring an impressive range of empirical and theoretical research, this collection covers more than a dozen spoken languages as well as American Sign Language.
