Voices from Criminal Justice Heith Copes,Mark R. Pogrebin,2016-11-25 Voices from Criminal Justice, Second Edition, gives students rich insight into the criminal justice system from the point of view of practitioners, as well as outsiders—citizens, clients, jurors, probationers, or inmates. These qualitative and teachable articles cover all three components of the criminal justice system, ensuring students will be better informed about the daily realities of criminal justice professionals in law enforcement, courts, and corrections. At the same time, the juxtaposition of insider and outsider views allows students to look beyond the actual content of the articles and develop their own views about the functions and flaws of the criminal justice system on a societal level. This innovative reader, now with seven new articles designed to stimulate discussions and promote critical thought, is perfect for undergraduate criminal justice courses in the United States, and has proven to be an effective companion or alternative to traditional introductory textbooks. Voices from Criminal Justice, Second Edition, also offers a framework for more advanced students in special issues or capstone courses to synthesize information from earlier courses and develop their own view of American justice.

From German Prisoner of War to American Citizen Barbara Schmitter Heisler,2014-11-29 Among the many German immigrants to the United States over the years, one group is unusual: former prisoners of war who had spent between one and three years on American soil and who returned voluntarily as immigrants after the war. Drawing on archival sources and in-depth interviews with 35 former prisoners who made the return, the book outlines the conditions that defined their unusual experiences and traces their journeys from captive enemies to American citizens. Although the respondents came from different backgrounds, and arrived in America at different times between 1943 and 1945, their experiences as prisoners of war not only left an indelible impression, they also provided them with opportunities and resources that helped them leave Germany behind and return to the place “where we had the good life.”

Coming Back to a Theater Near You Brian Hannan,2016-06-05 In the Silent Era, film reissues were a battle between rival studios—every Mary Pickford new release in 1914 was met with a Pickford re-release. For 50 years after the Silent Era, reissues were a battle between the studios, who considered old movies “found money,” and cinema owners, who often saw audiences reject former box office hits. In the mid–1960s, the return of *The Bridge on the River Kwai* (1957)—the second biggest reissue of all time—altered industry perceptions, and James Bond double features pushed the revival market to new heights. In the digital age, reissues have continued to confound the critics. This is the untold hundred-year story of how old movies saved new Hollywood. Covering the booms and busts of a recycling business that became its own industry, the author describes how the likes of Charlie Chaplin, Humphrey Bogart and Alfred Hitchcock won over new generations of audiences, and explores the lasting appeal of films like *Napoléon* (1927), *Gone with the Wind* (1939), *The Rocky Horror Show* (1975) and *Blade Runner* (1982).

The Grand Western Railroad Game Robert S. Farnsworth,2017-12-11 *The Grand Western Railroad Game* By: Robert S. Farnsworth *The Grand Western Railroad Game* by Robert S. Farnsworth is a fascinatingly detailed story of the historical importance of Western railroads. It has been meticulously written to educate the reader on the intricacies involved in the creation and growth of the Rock Island System over the “Empire Years.” The railroad’s premium passenger train service even inspired the popular song “The Rock Island Line is a Mighty Fine Line.” To quote the author, “I wrote this book, not from just the viewpoint of a rail fan, hundreds of whom have diligently photographically documented the railroad’s passage through time, but from the viewpoint of a former employee and from the insights gained from a broad education in both the university and in the experience of a practiced transportation planner. I hope that the reader will learn from the stories told here that the workers tried valiantly to do their jobs, that the line’s managers were forced to play with the hand that was dealt to them from a less than full deck, and that investors expected to get a reasonable return on the often gigantic sums paid into the corporation. “I hope that the information contained within these covers leads others toward more detailed studies of the railroads and of the conditions in which they survived, if not prospered.”

Blitz Kids Ferrin Tres,2012-02-01 In the 1940s, before March Madness, the frenzy of the NBA draft, and multi-million dollar professional contracts, college basketball players played simply because they loved the game. This is the story of a group of kids who loved to play basketball: the underdog 1943–44 University of Utah men’s basketball team and their unlikely path to the NCAA championship, who came out of nowhere to upset heavily favored Dartmouth for the title.

Calming America Dennis S. O’Leary MD,2022-09-16 Pot Luck Spokesman? The information void in the hours following the shooting of US President Ronald Reagan late Monday afternoon, March 30, 1981, spawned many false rumors and misinformation, which White House political adviser Lyn Nofziger understood threatened the credibility of the White House. He therefore took the podium before the 200 plus assembled press in Ross Hall to tell them that he would be bringing with him a credible physician to brief them once the president was out of surgery. However, he didn’t have many options to draw from for that credible physician. At the hospital, the surgeons tending the three shooting victims had first-hand information about the afternoon’s events, but each surgeon knew only about his own injured patient. White House physician Dan Ruge meanwhile had been at the president’s side throughout the afternoon and was a possible candidate, but his White House association made his credibility suspect according to White House aides. The job became the drafting of the most

logical person to be spokesman. That would have been the seasoned physician CEO of the George Washington University Medical Center Ron Kaufman, but he was out of town. Next up was Dennis O’Leary, the physician dean for clinical affairs, as the preferred spokesman. To the White House, O’Leary was a total unknown, but a review of his credentials would hardly have been reassuring. He had originally been recruited to George Washington University as a blood specialist. Reticent by nature, he had minimal public-relations and public-speaking experience, save two years as a member of his hometown high school debate team. He had no surgical or trauma training or experience. But beggars can’t be choosers, as the saying goes. Kindly stated, O’Leary was probably the least bad choice to serve as White House/hospital spokesman to inform the world of the status of the wounded President Reagan, special agent Tim McCarthy, and press secretary Jim Brady. Yet, with a little bit of luck, it might all work out. And it did.
