**It Takes Star Dust to Create a Star** Donald Rayson McGrath, 2002-11 It Takes Star Dust To Create a Star is one man's journey from choosing his parents in the forests of Pennsylvania to returning to the stars on or about the year 2033. An altar boy and a paper boy he enjoyed the sanctity and sanctuary of a small child who learned at an early age that we are here to sing and dance and give praise to the life of bringing joy to others. As a youth worker in Pittsburgh he trained four children to sing as the group of Don & the Pennies. His Journey continues on towards fatherhood as he becomes an actor in New York, making choices that lead him to his one true vocation that of being a loving father and husband. He has wonderful meetings with Carol Burnett, Deborah Howe, author of Bunnacula, who died quite young. He has discovered the wonder of prayer and of developing at P.A.T.H. that will help us on the Journey to the Stars. He has plunged to the depths of despair and to the wonder of the heavens. In a few short words he tells teenagers they are the hope of the world and asks all to honor the sanctity of the children of the world and to join together to provide them sanctuary. He is the director of the annual Peace at Last concert and charts the first inspiration to the actual event from his love of the music of Stephen Foster to the sharing with the world the wonderful work of Anton Dvorak who turned Foster's simple Way Down Upon the Swanee River (Old folks at home) into a choral symphonic piece. He writes of a new vision for this

earth, a place where we certainly recognize our function here is to totally believe in all the world coming to the realization that, like Martin Luther King, Jr., who he stood shoulder to shoulder with in 1965, will be not only free at last but experience peace at last.

**Void Star** Zachary Mason, 2017-04-11 A riveting, beautifully written, fugue-like novel of AIs, memory, violence, and mortality Not far in the future the seas have risen and the central latitudes are emptying, but it's still a good time to be rich in San Francisco, where weapons drones patrol the skies to keep out the multitudinous poor. Irina isn't rich, not quite, but she does have an artificial memory that gives her perfect recall and lets her act as a medium between her various employers and their AIs, which are complex to the point of opacity. It's a good gig, paying enough for the annual visits to the Mayo Clinic that keep her from aging. Kern has no such access; he's one of the many refugees in the sprawling drone-built favelas on the city's periphery, where he lives like a monk, training relentlessly in martial arts, scraping by as a thief and an enforcer. Thales is from a different world entirely—the mathematically inclined scion of a Brazilian political clan, he's fled to L.A. after the attack that left him crippled and his father dead. A ragged stranger accosts Thales and demands to know how much he can remember. Kern flees for his life after robbing the wrong mark. Irina finds a secret in the reflection of a laptop's screen in her employer's eyeglasses. None are safe as they're pushed together by subtle forces that stay just out of sight. Vivid, tumultuous, and propulsive, *Void Star* is Zachary Mason's mind-bending follow-up to his bestselling debut, *The Lost Books of the Odyssey*.

*The Silver Star* Jeannette Walls, 2013-06-11 From one of the bestselling memoirists of all time comes a stunning and heartbreaking novel about an intrepid girl who challenges the injustice of the adult world in a triumph of imagination and storytelling.

**Wild Star** Catherine Coulter,2002-03-01 The third title in New York Times bestselling author Catherine Coulter's Star series. Brent Hammond is as handsome as sin and wilder than an unbroken stallion. When he meets Byrony by chance, he's charmed. But when he sees her again, as the petted wife of an older rich man, he's chagrined. Until her life is threatened—and he discovers that only he can protect her...

**The Star Splitters** Wallace H. Tucker,1984

**Star Born** Andre Norton,2018-05-10 When Raf Kurbi's Terran spaceship burst into unexplored

skies of the far planet Astra and was immediately made welcome by the natives of a once-mighty metropolis, Kurbi was unaware of three vital things: One was that Astra already harboured an Earth colony-descended from refugees from the world of the previous century. Two was that these men and women were facing the greatest danger of their existence from a new outburst of the inhuman fiends who had once tyrannized Astra. Three was that the natives who were buying Kurbi's science know-how were those very fiends-and their intentions were implacably deadly for all humans, whether Earth born or Star Born. It's an Andre Norton space adventure-and therefore the tops in its field!

**Sydney's Star** Peter H. Reynolds,2001 The malfunction of Sydney's mechanical star leads her to an unexpected happy ending.

The Sun Is Also a Star Nicola Yoon,2016-11-01 #1 New York Times bestselling author Nicola Yoon is back with her second book, and just like Everything, Everything, it's an instant classic with a love story that's just as intense as Maddy and Olly's--get ready for Natasha and Daniel. This book is inspired by Big History (to learn about one thing, you have to learn about everything). In The Sun Is Also a Star, to understand the characters and their love story, we must know everything around them and everything that came before them that has affected who they are and what they experience. Two teens--Daniel, the son of Korean shopkeepers, and Natasha, whose family is here illegally from Jamaica--cross paths in New York City on an eventful day in their lives--Daniel is on his way to an interview with a Yale alum, Natasha is meeting with a lawyer to try and prevent her

family's deportation to Jamaica--and fall in love.

Find out in **Star Search**, a humorous yet informative musical by Janet Gardner, arranged by Jay Althouse for unison and 2-part voices. Travel with the planets, played by your students, as they meet other planetary bodies in their quest to find their missing sun. Additional Stars, Asteroids, Comets, and Meteors make up an all-star cast. Blast off with this light-filled musical and learn some interesting facts about our solar system along the way! Recommended for grades three and up.

Star Yukio Mishima,2019-04-30 For the first time in English, a glittering novella about stardom from “one of the greatest avant-garde Japanese writers of the twentieth century” (Judith Thurman, *The New Yorker*) All eyes are on Rikio. And he likes it, mostly. His fans cheer, screaming and yelling to attract his attention—they would kill for a moment alone with him. Finally the director sets up the shot, the camera begins to roll, someone yells “action”; Rikio, for a moment, transforms into another being, a hardened young yakuza, but as soon as the shot is finished, he slumps back into his own anxieties and obsessions. Being a star, constantly performing, being watched and scrutinized as if under a microscope, is often a drag. But so is life. Written shortly after Yukio Mishima himself had acted in the film “Afraid to Die,” this novella is a rich and unflinching psychological portrait of a celebrity coming apart at the seams. With exquisite, vivid prose, **Star** begs the question: is there any escape from how we are seen by others?
