The Following of the Star Florence L. Barclay, 2020-07-24 Reproduction of the original: The Following of the Star by Florence L. Barclay

It Takes Star Dust to Create a Star Donald Rayson McGrath, 2002-11 It Takes Star Dust To Create a Star is one man's journey from choosing his parents in the forests of

Pennsylvania to returning to the stars on or about the year 2033. An altar boy and a paper boy he enjoyed the sanctity and sanctuary of a small child who learned at an early age that we are here to sing and dance and give praise to the life of bringing joy to others. As a youth worker in Pittsburgh he trained four children to sing as the group of Don & the Pennies. His Journey continues on towards fatherhood as he becomes an actor in New York, making choices that lead him to his one true vocation that of being a loving father and husband. He has wonderful meetings with Carol Burnett, Deborah Howe, author of Bunnica, who died quite young. He has discovered the wonder of prayer and of developing at P.A.T.H. that will help us on the Journey to the Stars. He has plunged to the depths of despair and to the wonder of the heavens. In a few short words he tells teenagers they are the hope of the world and asks all to honor the sanctity of the children of the world and to join together to provide them sanctuary. He is the director of the annual Peace at Last concert and charts the first inspiration to the actual event from his love of the music of Stephen Foster to the sharing with the world the wonderful work of Anton Dvorak who turned Foster's simple Way Down Upon the Swannee River (Old folks at home) into a choral symphonic piece. He writes of a new vision for this earth, a place where we certainly recognize our function here is to totally believe in all the world coming to the realization that, like Martin Luther King, Jr., who he stood shoulder to shoulder with in 1965, will be not only free at last but experience peace at last.

The Silver Star Jeannette Walls, 2013-06-11 From one of the bestselling memoirists of all time comes a stunning and heartbreaking novel about an intrepid girl who challenges the injustice of the adult world in a triumph of imagination and storytelling.

Void Star Zachary Mason, 2017-04-11 A riveting, beautifully written, fugue-like novel of AIs, memory, violence, and mortality Not far in the future the seas have risen and the central latitudes are emptying, but it's still a good time to be rich in San Francisco, where weapons drones patrol the skies to keep out the multitudinous poor. Irina isn't rich, not quite, but she does have an artificial memory that gives her perfect recall and lets her act as a medium between her various employers and their AIs, which are complex to the point of opacity. It's a good gig, paying enough for the annual visits to the Mayo Clinic that keep her from aging. Kern has no such access; he's one of the many refugees in the sprawling drone-built favelas on the city's periphery, where he lives like a monk, training relentlessly in martial arts, scraping by as a thief and an enforcer. Thales is from a different world entirely—the mathematically inclined scion of a Brazilian political clan, he's fled to L.A. after the attack that left him crippled and his father dead. A ragged stranger accosts Thales and demands to know how much he can remember. Kern flees for his life after robbing the wrong mark. Irina finds a secret in the reflection of a laptop's screen in her employer's eyeglasses. None are safe as they're pushed together by subtle forces that stay just out of sight. Vivid, tumultuous, and propulsive, **Void Star** is Zachary Mason's mind-bending follow-up to his bestselling debut, *The Lost Books of the Odyssey*.

Wild Star Catherine Coulter, 2002-03-01 The third title in New York Times bestselling author Catherine Coulter's *Star* series. Brent Hammond is as handsome as sin and wilder than an unbroken stallion. When he meets Byrony by chance, he's charmed. But when he sees her again, as the petted wife of an older rich man, he's chagrined. Until her life is threatened—and he discovers that only he can protect her...

Variable Star Robert A. Heinlein, Spider Robinson, 2010-12-07 A never-before-published masterpiece from science fiction's greatest writer, rediscovered after more than half a century. When Joel Johnston first met Jinny Hamilton, it seemed like a dream come true. And when she finally agreed to marry him, he felt like the luckiest man in the universe. There was just one small problem. He was broke. His only goal in life was to become a composer, and he knew it would take years before he was earning enough to support a family. But Jinny wasn't willing to wait. And when Joel asked her what they were going to do for money, she gave him a most unexpected answer. She told him that her name wasn't really Jinny Hamilton---it was Jinny Conrad, and she was the granddaughter of Richard Conrad, the wealthiest man in the solar system. And now that she was sure that Joel loved her for herself, not for her wealth, she revealed her family's plans for him---he would be groomed for a place in the vast Conrad empire and sire a dynasty to carry on the family business. Most men would have jumped at the opportunity. But Joel Johnston wasn't most men. To Jinny's surprise, and even his own, he turned down her generous offer and then set off on the mother of all benders. And woke up on a colony ship heading out into space, torn between regret over his rash decision and his determination to forget Jinny and make a life for himself among the stars. He was on his way to succeeding when his plans--and the plans of billions of others--were shattered by a cosmic cataclysm so devastating it would take all of humanity's strength and ingenuity just to survive.
