The thrill-seeking meteorologist and star of *Storm Chasers* has followed and faced down more violent tornadoes than anyone. *Into the Storm* brings readers into the mind of this man and his mission--collecting data on tornadoes and hurricanes that could save lives--in the terrifying, awe-inspiring world of big weather. *Into the Storm* is also a fascinating look at the science of weather--what causes extreme conditions, its connection to climate change, and how a tornado gets its stovepipe structure.

Storm Kings Lee Sandlin,2013-03-05 In *Storm Kings*, Lee Sandlin retraces America's fascination and unique relationship to tornadoes and the weather. From Ben Franklin's early experiments, to the great storm debates of the nineteenth century, to heartland life in the early twentieth century, Sandlin shows how tornado chasing helped foster the birth of meteorology, recreating with vivid descriptions some of the most devastating storms in America's history. Drawing on memoirs, letters, eyewitness testimonies, and numerous archives, Sandlin brings to

life the forgotten characters and scientists that changed a nation and how successive generations came to understand and finally coexist with the spiraling menace that could erase lives and whole towns in an instant.

Racing the Storm Hillary Potter, 2007 On August 29, 2005, Hurricane Katrina hit land and gravely affected the lives of many people in the states along the Gulf Coast. Katrina went beyond demonstrating the devastating natural effects of a hurricane by exposing the continuing significance of race relations and racial stereotyping in U.S. society. Racing the Storm serves to highlight the race-based perceptions of and responses to Katrina survivors by governmental entities, volunteers, the media, and the general public. Scholars from a variety of disciplines take on the task of analyzing the social phenomena and racial implications surrounding Hurricane Katrina. Book jacket.
