Tank Battles of the Cold War, 1948–1991 Anthony Tucker-Jones,2021-06-30 As Anthony Tucker-Jones shows in this highly illustrated, wide-ranging history, for most of the Cold War the tank retained its pre-eminence on the battlefield. The Arab-Israeli wars witnessed some of the biggest tank battles of all time, and tanks played key roles in conflicts in Korea, Vietnam and Afghanistan as well as in the Iran-Iraq War and the wars fought between India and Pakistan. But then in the mid-1960s anti-tank weapons became ever deadlier and the Mechanised Infantry Fighting Vehicle (MIFV), which was designed to support infantry and fight tanks, emerged and the heyday of the tank was over. Chapters cover each major phase in the evolution of the tank and of tank warfare during the period, from the battles fought in the late 1940s and 1950s with Second World War armoured vehicles like the T-34 and the Sherman, through to the designs common in the 1960s and 1970s like the T-55, Centurion, Challenger and M60 Patton, to the confrontation between the M1 Abrams and the T-72 during the Gulf War in 1991. Technical and design developments are important elements throughout the story, but so are dramatic changes in tactics and armaments which mean the tank has an increasingly uncertain role in modern warfare.

Irvin Jacobs & Company V. Fidelity and Deposit
Company of Maryland ,1952

T-54/55 Anthony Tucker-Jones, 2017-10-30 The Soviet T-54/55 is probably the best-known tank of the Cold War, and it was produced in greater numbers than any other tank in history. It first went into service just after the Second World War and over 70,000 were made, and its design was so successful that it even outlasted its successor the T-62. For a generation it formed the backbone of the armored forces of the Warsaw Pact and it was exported all over the world, remaining in the front-line until the 1990s. This photographic history in the Images of War series by Anthony Tucker-Jones is the ideal introduction to it. In over 150 archive photographs and a detailed analytical text, he traces the design and development of the T-54/55 and records its operational history. He describes how it was conceived as a main battle tank, an all-rounder, contrasting with the light, medium and heavy tanks produced in the past, and it proved to be extraordinarily effective. It was as adaptable as it was long-lasting, different versions being produced by China, Czechoslovakia, Poland and Romania. Its relatively simple design also meant it was easy to maintain even in difficult conditions and it was used by armies across the Third World, in particular in wars in Angola, Ethiopia, Mozambique and Somalia. Anthony Tucker-Jones's history of this remarkable armored vehicle will be absorbing reading for tank enthusiasts and a valuable source for modelers.
