Teen Talkback with Interactive Booktalks! Lucy Schall,2013-05-01 Covering the genres popular with today's teens—fiction and nonfiction, including poetry and graphic novels—this resource provides 110 great book choices for young adult reading, interactive booktalks, and individual writing activities. All educators and library professionals need practical resources with easily accessible information and activities that can be immediately applied. Teen Talkback with Interactive Booktalks! is such a resource, supplying ready-to-use, interactive booktalks and curriculum connections for more than 100 recently published young adult books. This unique book is an invaluable tool for motivating teens to read. It shows how to make booktalks interactive and get teens participating in the presentation, rather than passively listening. Book selections include titles published from 2008 to 2012 organized in seven categories: Issues, Contemporary, Adventure/Survival, Mystery/Suspense, Fantasy, Heritage, and Multiple Cultures. Complete bibliographical information for each selection is included along with a literary classification as well as an age/grade level and gender designation. The read-alouds passages include talkback questions to facilitate discussion, and related works are supplied as suggestions for additional reading choices.

Talking Back: Radio Talkback ,1997 A panel of experienced talkback presenters meet face to face and debate the form and practice of the medium. They represent a variety of talkback formats, from late night companion talkback to day time magazine and current affairs. The program considers issues such as research and dealing with problem callers and also covers operational skills, with a special instructional segment examining telephone operation, delay systems and dumping calls.

Talking Back Evagrius Of Pontus,2009-08-01 How did the monks of the Egyptian desert fight against the demons that attacked them with tempting thoughts? How could Christians resist the thoughts of gluttony, fornication, or pride that assailed them and obstructed their contemplation of God? According to Evagrius of Pontus (345 '399), one of the greatest spiritual directors of ancient monasticism, the monk should talk back to demons with relevant passages from the Bible. His book *Talking Back (Antirrhetikos)* lists over 500 thoughts or circumstances in which the demon-fighting monk might find himself, along with the biblical passages with which the monk should respond. It became one of the most popular books among the ascetics of Late Antiquity and the Byzantine East, but until now the entire text had not been translated into English. From *Talking Back* we gain a better understanding of Evagrius's eight primary demons: gluttony, fornication, love of money, sadness, anger, listlessness, vainglory, and pride. We can explore a central aspect of early monastic spirituality, and we get a glimpse of the temptations and anxieties that the first desert monks faced. David Brakke is professor and chair of the Department of Religious Studies in the College of Arts and Sciences of Indiana University. He studied ancient Christianity at Harvard Divinity School and Yale University. Brakke is the author of *Athanasius and Asceticism* and *Demons and the Making of the Monk: Spiritual Combat in Early Christianity*, and he edits the *Journal of Early Christian Studies*.

Collecting Qualitative Data Virginia Braun,Victoria Clarke,Debra Gray,2017-10-19 Is there more to qualitative data collection than face-to-face interviews? Answering with a resounding 'yes', this book introduces the reader to a wide array of exciting and novel techniques for collecting qualitative data in the social and health sciences. *Collecting Qualitative Data* offers a practical and accessible guide to textual, media and virtual methods currently under-utilised within qualitative research. Contributors from a range of disciplines share their experiences of implementing a particular technique, provide step-by-step guidance to using that approach, and highlight both the potential and pitfalls. From gathering blog data to the story completion method to conducting focus groups online, the methods and data types featured in this book are ideally suited to student projects and other time- and resource-limited research. In presenting several innovative ways that data can be collected, new modes of scholarship and new research orientations are opened up to student researchers and established scholars alike.

Essential Radio Skills Peter Stewart,2010-06-25 One of the few books we'd recommend BBC Training The perfect guide for anyone who wants to get on in this ever-changing and challenging media Controller BBC Radio 5 Live A rich repository of real, practical experience Director - BBC Nations & Regions An invaluable guide Director - The Radio Academy This is a practical, how-to guide to producing and presenting radio to a professional standard. Packed with day-to-day advice that captures the essence and buzz of live broadcasting; from preparing your show before it goes out, last minute changes to running orders, deciding what to drop in over a track, how to sell a feature or promote a programme, setting up competitions, thinking fast in a phone in - this book will help you do all that and more. It covers network and commercial, music and talk radio skills and is particularly suited to the independent local or community radio. It features advice from professionals, covers industry-wide best practice with enough 'need-to-know' technical information to get you up and running. This edition has been updated throughout and has more than 500 weblinks to downloads and audio and video examples, as well as cross-references to the official National Occupational Standards for Radio Content.

Small Signal Audio Design Douglas Self,2020-04-17 Small Signal Audio Design is a highly practical handbook providing an extensive repertoire of circuits that can be assembled to make almost any type of audio system. The publication of Electronics for Vinyl has freed up space for new material, (though this book still contains a lot on moving-magnet and moving-coil electronics) and this fully revised third edition offers wholly new chapters on tape machines, guitar electronics, and variable-gain amplifiers, plus much more. A major theme is the use of inexpensive and readily available parts to obtain state-of-the-art performance for noise, distortion, crosstalk, frequency response accuracy and other parameters. Virtually every page reveals nuggets of specialized knowledge not found anywhere else. For example, you can improve the offness of a fader simply by adding a resistor in the right place- if you know the right place. Essential points of theory that bear on practical audio performance are lucidly and thoroughly explained, with the mathematics kept to an absolute minimum. Self's background in design for manufacture ensures he keeps a wary eye on the cost of things. This book features the engaging prose style familiar to readers of his other books. You will learn why mercury-filled cables are not a good idea, the pitfalls of plating gold on copper, and what quotes from Star Trek have to do with PCB design. Learn how to: make amplifiers with apparently impossibly low noise design discrete circuitry that can handle enormous signals with vanishingly low distortion use humble low-gain transistors to make an amplifier with an input impedance of more than 50 megohms transform the performance of low-cost-opamps build active filters with very low noise and distortion make incredibly accurate volume controls make a huge variety of audio equalisers make magnetic cartridge preamplifiers that have noise so low it is limited by basic physics, by using load synthesis sum, switch, clip, compress, and route audio signals be confident that phase perception is not an issue This expanded and updated third edition contains extensive new material on optimising RIAA equalisation, electronics for ribbon microphones, summation of noise sources, defining system frequency response, loudness controls, and much more. Including all the crucial theory, but with minimal mathematics, Small Signal Audio Design is the must-have companion for anyone studying, researching, or working in audio engineering and audio electronics.

Broadcast Sound Technology Michael Talbot-Smith,2013-10-22 Broadcast Sound Technology provides an explanation of the underlying principles of modern audio technology. Organized into 21 chapters, the book first describes the basic sound; behavior of sound waves; aspects of hearing, harming, and charming the ear; room acoustics; reverberation; microphones; phantom power; loudspeakers; basic stereo; and monitoring of audio signal. Subsequent chapters explore the processing of audio signal, sockets, sound desks, and digital audio. Analogue and digital tape recording and reproduction, as well as noise reduction, are also explained.

The Content Makers Margaret Simons,2007-09-03 In *The Content Makers* Margaret Simons explains the changes taking place in the Australian media. She analyses audiences, our major media organisations, the role of government – and the implications of all of these for our society and our democracy. Her examination leads her to the conclusion that the challenges facing the content providers in the modern world are part of a broader striving, a very old struggle – we might call it the search for meaning. The big media businesses may or may not survive into the future, but content certainly will, because we need it, and have always needed it. *The Content Makers* delivers a visceral understanding of how modern media works, gives a plain-language explanation of new media, and provides straightforward information on recent changes to ownership legislation and what they mean. But most importantly, it suggests a vision for the future – a. new way of looking at the role of the content makers and how they and their audiences might find new hope and purpose in the future.

Don't Talk Back To Your Vampire Michele Bardsley,2007-07-03 A single mom gets a tasty bite of undead romance in the second novel in the Broken Heart series. Ever since a master vampire became possessed and bit a bunch of parents, the town of Broken Heart, Oklahoma, has catered to those of us who don't rise until sunset—even if that means PTA meetings at midnight. As for me, Eva LeRoy, town librarian and single mother to a

teenage daughter, I'm pretty much used to being "vampirified." You can't beat the great side effects: no crow's-feet or cellulite! But books still make my undead heart beat—and, strangely enough, so does *Lor* Ian the Loner. My mama always told me everyone deserves a second chance. Still, it's one thing to deal with the usual undead hassles: rival vamps, rambunctious kids adjusting to night school, and my daughter's new boyfriend, who's a vampire hunter, for heaven's sake. It's quite another to fall for the vampire who killed you...

Womanist Sass and Talk Back Mitzi J. Smith, 2018-01-25 *Womanist Sass and Talk Back* is a contextual resistance text for readers interested in social (in)justice. Smith raises our consciousness about pressing contemporary social (in)justice issues that impact communities of color and the larger society. Systemic or structural oppression and injustices, police profiling and brutality, oppressive pedagogy, and gendered violence are placed in dialogue with sacred (con)texts. This book provides fresh intersectional readings of sacred (con)texts that are accessible to both scholars and nonscholars. *Womanist Sass and Talk Back* is for readers interested in critical interpretations of sacred (con)texts (ancient and contemporary) and in propagating the justice and love of God while engaging those (con)texts.

North American Muslim Women Artists Talk Back Kenza Oumlil, 2022-07-21 This book focuses on the ways in which North American Muslim women artists talk back to dominant discourses about Muslim identity and work to counter mainstream stereotypes and representations. It examines the possibilities of constructing discourses of resistance to domination. Against a backdrop of dominant media representations of oppressed and passive Muslim women, the media interventions of the exceptional women artists whose voices are showcased in this book, demonstrate that Muslim women are diverse and autonomous agents who have, historically, and continue contemporarily, to fight against all forms of injustice including those that seek to circumscribe their realities and experiences. To explore expressions and articulations of alternative discourses, this book analyzes the media texts of exceptional women artists: the stand-up comedy of Palestinian-American Maysoon Zayid, the cinematic interventions of Iranian-American Shirin Neshat, and the television comedy of Pakistani-Canadian Zarqa Nawaz. Using a methodology consisting of a textual analysis grounded in the theoretical framework of postcolonial theory and informed by gender studies and alternative media research, the analysis is supplemented with semi-structured interviews with the artists. This book is suitable for scholars and students in Gender Studies, Media Studies, Cultural Studies, Sociology, and Politics.

Wild Women Talk Back Autumn Stephens, 2004-09-15 Rejoice in your wild side with insightful, motivational, and wickedly funny wisdom from women who made history in art, music, politics and more. Sex Workers in the Maritimes Talk Back Leslie Ann Jeffrey, Gayle MacDonald, 2011-11-01 Sex workers are often the objects of study for academics and policy makers. Theories about their lives and the policies that affect their work are usually developed without input from the sex workers themselves, as they are rarely seen as capable of analyzing the social and political world in which they work. In this book, however, sex workers set the tone. Leslie Ann Jeffrey and Gayle MacDonald interview sex workers in three Maritime cities and those who work around them: police, health-care providers, community workers/advocates, members of neighbourhood associations, and politicians. The sex workers discuss such issues as violence and safety, health and risk, politics and policy, media influence, and public perception of the trade, portraying the best and the worst facets of their working lives and expressing sentiments refreshingly at odds with commonly held opinions. Given recent Parliamentary recommendations to decriminalize prostitution, *Sex Workers in the Maritimes Talk Back* represents a timely shift to public discussions about sex work. Engaging and accessible, this book will be of interest to public policy practitioners, students of social and political science, community advocates, police, and sex workers and their families.

I Talk Back to the Devil A. W. Tozer, 2008-09-12 The highest that can be said of any creature is that it fulfilled the purpose for which God made it. — A. W. Tozer What is holding you back from being all God wants you to be? Are you still holding on to past sins? Do memories of your spiritual failures haunt you? Or maybe you want to stay in control and not become one of those fanatical Christians? Tozer says, It is one of the devil's oldest tricks to discourage the saints by causing them to look back at what they were. Indeed, Satan has been in the business of intimidating and deceiving the people of God for a very long time. Tozer himself felt attacked by the devil even as he prepared the sermons distilled into this book. But as we press toward maturity in Christ, we are armed with great strength to engage in battle with that great Adversary. We can stand up to the Devil

and shout I am a child of God! I will not take this any longer, and I remind you that the forgiveness and cleansing I have freely received comes from Jesus Christ! You can talk back to the Devil, but will you?

Painted Flowers Shouldn't Talk Back Margaret O. Killinger,2022-08-24 Painted Flowers Shouldn’t Talk Back tells the story of a suburban women’s art collective that painted together in Houston, Texas, from 1970 to 1977. They called themselves the Garden Artists, though their subjects were much more varied than just garden views. Author Margaret Killinger’s artful narrative illustrates how these women creatively confronted profound sociocultural challenges through decorative art. Some discovered much-needed financial independence and personal freedom through the group; others, camaraderie and gratification outside home and marriage. Still others found a welcome reprieve from the demands of motherhood, the confines of suburban conformity, or the sinking weight of grief. They collectively learned to confront stark walls and to determine what they could and could not live with, all the while enjoying art and each other. Framed by Killinger’s 2008 group interview conducted in Houston, the story moves via memories and other interviews to El Paso, Austin, San Antonio, Santa Fe, and New Orleans. The women’s story is furthermore told under the shadow of Killinger’s own search for answers. She began exploring the women’s lives after the sudden, quiet death of her mother, a portrait artist and peripheral member of the group who collapsed and died in 2004, when she was just sixty-five years old. Nancy Alvarez—the eccentric, hilarious leader of the Garden Artists who shaped each of their stories—died one year later, also sixty-five. To make sense of these losses, Killinger looks back to when the women were prolific Houston artists with Nancy as their quirky guide, a time when they were arguably most alive. Resolution comes through deciphering what their art meant to them back then and exploring what it could mean for readers today.
