Melville and the Theme of Boredom Daniel Paliwoda,2010-01-13 Boredom is a prevalent theme in Herman Melville's works. Rather than a passing fancy or a device for drawing attention to the action that also permeates his work, boredom is central to the writings, the author argues. He contends that in Melville's mature work, especially *Moby Dick*, boredom presents itself as an insidious presence in the lives of Melville's characters, until it matures from being a mere killer of time into a killer of souls.

Theme of the Pentateuch David J. A. Clines,1997-01-08 This popular textbook regards the Pentateuch as a literary whole, with a single theme that binds it together. The overarching theme is the partial fulfilment of the promises to the patriarchs. Though the method of the book is holistic, the origin and growth of the theme is also explored using the methods of traditional source analysis. An important chapter explores the theological function of the Pentateuch both in the community for which the Pentateuch was first composed and in our own time. For this second, enlarged edition, the author has written an Epilogue reassessing the theme of the Pentateuch from a more current postmodern perspective.

Literary Devices: Theme Brenda Rollins,2013-05-01 ****This is the chapter slice Theme from the full lesson plan Literary Devices**** Following a basic understanding of reading, *Literary Devices* explores the language of storytelling with a detailed look at characterization, setting, plot, theme, point of view, foreshadowing and flashback, symbolism, and irony. Definitions of important terms and many opportunities to practice the skills being taught make our resource user-friendly and easy to understand. In addition, the objectives used in this book are structured using Bloom's Taxonomy of Learning to ensure educational appropriateness. You will be able to teach students how to use literary devices to examine the meaning and purpose of different types of literature. Through a mixture of narration and age appropriate learning activities, this book enables students to examine and understand the "building blocks" of all good stories. All of our content meets the Common Core State Standards and are written to Bloom's Taxonomy.

Theme as an Index of Genre in Discourse Analysis Anwar El-Issa,2016-02-09 The main focus of this book is on Theme-Rheme analysis. In English the Theme is realized as the initial constituent of the clause or sentence. The information that is contained within the themes of the various sentences of a passage correlates with the method of development of the passage. The meaning of Theme and its realization in English explains the general correlation of given information with the initial position in the sentence. The findings and analysis of Theme-Rheme in this book will immensely aid both researchers and students who seek to understand and unfold language structures and analyze written discourse. It also provides teachers with efficient tools to analyze their students academic writing and find ways to leverage it. This book also sheds lights on the semantic and structure of the language based on the four analytical approaches implemented in this study. The findings in this book suggest that control of the Theme-Rheme system is part of what the successful writer (native or non-native) uses to achieve such coherence. In this regard, students can be aware of a variety of linguistics choices to help them write more effectively. This book suggests that control of the Theme-Rheme system in academic writing is part of what the successful writer uses to achieve coherence. This book offers a new perspective on the way written discourse is organized and structured that is of some relevance to language teachers and applied linguists, as well as to theoretical and descriptive linguists. I have tried to offer in this book new insights into analyzing texts and investigating the thematic organization of the grammatical properties of Theme at clause level, and that, I hope, will be found sufficient reason for reading it.

Theme and Space A. G. F. van Holk, 1996 Since the appearance of Lotman's Poetics of the Artistic Text (1970) and Universe of the Mind (1990), and Eco's Introduction to Semiotics (1972), the investigation of the working of signs in language, the arts and the sciences has witnessed an ever-increasing impact on our understanding of human culture. In this book an attempt is made at developing a linguistic model for the semiotics of culture, and to apply this to the analysis of a number of Russian and Polish dramatic texts, mostly from the nineteenth-century. In the first five chapters such well known plays as Ostrovskij's The Thunderstorm, Turgenev's A Month in the Country and Gogol's The Inspector-General are discussed, alternatively with Stowacki's Fantazy and some of Fredro's comedies. Special chapters are devoted to the performance of drama, and to some urgent issues concerning the structure of semiotic space. The last and most lengthy chapter presents an outline of so-called text linguistics, here conceived as a variety of case grammar, duly revised for application to the analysis of drama and its non-verbal context. The book addresses itself to readers familiar with Slavic languages and interested in the relation between language and literary themes, and the place of drama in culture.
