The Highlights Book of Things to Do Highlights, 2020-09-22 Crafted by childhood experts, *The Highlights Book of Things to Do* is the essential book of pure creativity and inspiration, filled with over 500 screen-free things to do with kids. From future chefs and scientists to budding humanitarians, children ages 7 and up will be inspired to explore, invent, create and do great things! This highly visual, hands-on activity book will banish boredom, foster imagination and unlock new interests. Your child can try engaging outdoor ideas like starting a bucket garden; tasty projects like making rock candy; science activities like building a water microscope; and so much more. Organized by interest and covering all aspects of childhood, chapters include: Things to Build, Things to Do in the Kitchen, Things to Do with Color and more. The final chapter, Do Great Things, encourages kids to become caring individuals, confident problem-solvers, and thoughtful people who can change the world. With sturdy hardcover binding and a ribbon bookmark, this 372-page deluxe activity book is a perfect gift for kids 7+. *The Highlights Book of Things to Do* is the winner of the 2020 National Parenting Seal of Approval, National Parenting Product Award (NAPPA), Mom's Choice Award, Gold, and was named one of Bank Street College of Education, Best Children's Books of the Year.

How to Do Nothing Jenny Odell, 2020-12-29 ** A New York Times Bestseller ** NAMED ONE OF THE BEST BOOKS OF THE YEAR BY: Time • The New Yorker • NPR • GQ • Elle • Vulture • Fortune • Boing Boing • The Irish Times • The New York Public Library • The Brooklyn Public Library A complex, smart and ambitious book that at first reads like a self-help manual, then blossoms into a wide-ranging political manifesto.—Jonah Engel Bromwich, *The New York Times Book*

Review One of President Barack Obama's Favorite Books of 2019 Porchlight's Personal Development & Human Behavior Book of the Year In a world where addictive technology is designed to buy and sell our attention, and our value is determined by our 24/7 data productivity, it can seem impossible to escape. But in this inspiring field guide to dropping out of the attention economy, artist and critic Jenny Odell shows us how we can still win back our lives. Odell sees our attention as the most precious—and overdrawn—resource we have. And we must actively and continuously choose how we use it. We might not spend it on things that capitalism has deemed important ... but once we can start paying a new kind of attention, she writes, we can undertake bolder forms of political action, reimagine humankind's role in the environment, and arrive at more meaningful understandings of happiness and progress. Far from the simple anti-technology screed, or the back-to-nature meditation we read so often, *How to do Nothing* is an action plan for thinking outside of capitalist narratives of efficiency and techno-determinism. Provocative, timely, and utterly persuasive, this book will change how you see your place in our world.

How to Do Things with Videogames Ian Bogost, 2011-08-05 In recent years, computer games have moved from the margins of popular culture to its center. Reviews of new games and profiles of game designers now regularly appear in the New York Times and the New Yorker, and sales figures for games are reported alongside those of books, music, and movies. They are increasingly used for purposes other than entertainment, yet debates about videogames still fork along one of two paths: accusations of debasement through violence and isolation or defensive paeans to their potential as serious cultural

works. In *How to Do Things with Videogames*, Ian Bogost contends that such generalizations obscure the limitless possibilities offered by the medium's ability to create complex simulated realities. Bogost, a leading scholar of videogames and an award-winning game designer, explores the many ways computer games are used today: documenting important historical and cultural events; educating both children and adults; promoting commercial products; and serving as platforms for art, pornography, exercise, relaxation, pranks, and politics. Examining these applications in a series of short, inviting, and provocative essays, he argues that together they make the medium broader, richer, and more relevant to a wider audience. Bogost concludes that as videogames become ever more enmeshed with contemporary life, the idea of gamers as social identities will become obsolete, giving rise to gaming by the masses. But until games are understood to have valid applications across the cultural spectrum, their true potential will remain unrealized. *How to Do Things with Videogames* offers a fresh starting point to more fully consider games' progress today and promise for the future.

Good Things to Do Rüdiger Bittner, 2023 The book is to show that the aim of thinking about what to do, of practical reason, is to find, not what we ought to do, but what is a good thing to do for us under the circumstances. So it argues, first, that neither under prudence nor under morality there are things we ought to do. There is no warrant for the idea of our being required, by natural law perhaps or by our rationality, to do either what helps us attain our ends or what is right for moral reasons. While common moral understanding is committed to there being things we ought to do and to our being guilty and deserving blame if we fail to do them, we can lay aside these notions without loss, indeed with benefit. Second, it explains what it

is for something to be good for somebody to do under the circumstances and argues for understanding practical reason in these terms. What is good for somebody to do we find by experience: from what we go through we learn what helps and what hinders and figure out on this basis both what is prudentially useful and what is morally right to do – although in the end this difference itself gives way, and morality turns out to be a part of prudence--

How to Do Things with Pornography Nancy Bauer, 2015-04-06 In Nancy Bauer's view, most feminist philosophers are content to work within theoretical frameworks that are false to human beings' everyday experiences. Here she models a new way to write about pornography, women's self-objectification, hook-up culture, and other contemporary phenomena, and in doing so she raises basic questions about philosophy.

How to Do Your Research Project Caroline Beardsmore, 2013-07-09 Getting involved in medical and biomedical research through necessity or personal choice can be a testing experience. Each step of the process brings its own challenges, from liaising with supervisors, to the lack of opportunities to promote completed research. This brand new *How to* provides a complete guide to the process: from the planning stages, to execution, write-up, preparation for the viva examination, and how to maximise the impact of your research. It ensures you get the most out of the experience, both in terms of personal

development and academic achievement, and even provides guidance on what to do when things don't quite go to plan. An ideal companion, written by an experienced postgraduate tutor, this concise and user-friendly manual is full of practical exercises, key points, and hints and tips, which will give you the edge when dealing with the more elusive realities of medical and healthcare research.

What's Love Got to Do With It Dr. John Chirban, 2012-06-04 Having trouble talking to your kids about sex? Their friends at school don't... Unfortunately, for many parents, the most important conversations are the hardest. Ninety-three percent of adults are dissatisfied with the sex education they received as children, which is precisely why they are so bad at teaching their kids—they have no frame of reference. Renowned Harvard Medical School psychologist and frequent Dr. Phil guest John Chirban helps parents talk to their kids . . . about sex. Kids are going to learn about

sex, and it is up to parents to decide if their kids are going to learn from them or from MTV. How parents address sex—their openness, the context, and their attitudes—will impact how their children view their own sexuality and self worth. Dr. Chirban helps parents know when, how, and how much. He uses humor, compassion, and real-life examples to prepare parents for a healthy and ongoing conversation that will equip their kids to own their own sexuality and an understanding of the larger issues of relationships, love, commitment, and intimacy. In addition, parents understand how helping their children understand these veiled yet critical keys of a fulfilling life deepens their own connection with their children.

What You're Really Meant to Do Robert Steven Kaplan, 2013-04-16 How do you create your own definition of success—and reach your unique potential? Building a fulfilling life and career can be a daunting challenge. It takes courage and hard work. Too often, we charge down a path leading to “success” as defined by those around us—and ultimately, are left feeling dissatisfied. Each of us is unique and brings distinctive skills and qualities to any situation. So why is it that most of us fail to spend sufficient time learning to understand ourselves and creating our own definition of success? The truth is, it can seem so natural and so much easier to just do what everyone else is doing—for now—leaving it for later to develop our best selves and figure out our own unique path. Is there a road map that will enable you to defy conventional wisdom, resist peer pressure, and carve out a path that fits your unique skills and passions? Robert Steven Kaplan, leadership expert and author of the highly successful book *What to Ask the Person in the Mirror*, regularly advises executives and students on how to tackle these questions. In this indispensable new book, Kaplan shares a specific and actionable approach to defining your own success and reaching your potential. Drawing on his years of experience, Kaplan proposes an integrated plan for identifying and achieving your goals. He outlines specific steps and exercises to help you understand yourself more deeply,

take control of your career, and build your capabilities in a way that fits your passions and aspirations. Are you doing what you're really meant to do? If you're ready to face this question, this book can help you change your life.
