**Stemming the Torrent** Gesa Stedman,2020-09-10 This title  
was first published in 2002: Gesa Stedman mines the vein of  
emotion in Victorian writing to unearth new insights into the ways  
literature responded to the dramatic social and political changes  
then taking place. Contemporary research from various disciplines,

including sociology, ethnology and history, inform this study, which juxtaposes canonical material such as Dickens' *Hard Times*, Charlotte Bronte's *Shirley* and Germaine de Stael's *Corinne* with popular novels and non-fictional texts, such as *The Education of the Heart* by Sarah Ellis and Darwin's *On the Expression of the Emotions in Man and Animals*. The analysis deals with emotions applying to both genders, but includes a special section examining the representation of emotion in relation to women. The book aims to provide new insight into the literature of the period, and brings to light new material for scholars interested in the philosophy and psychology of emotions.

From a Trickle to a Torrent Geoff Childs, Namgyal

Choedup, 2018-10-30 What happens to a community when the majority of young people leave their homes to pursue an education? *From a Trickle to a Torrent* documents the demographic and social consequences of educational migration from Nubri, a Tibetan enclave in the highlands of Nepal. The authors explore parents' motivations for sending their children to distant schools and monasteries, social connections that shape migration pathways, young people's estrangement from village life, and dilemmas that arise when educated individuals are unable or

unwilling to return and reside in their native villages. Drawing on numerous decades of research, this study documents a transitional period when the future of a Himalayan society teeters on the brink of irreversible change.
