Restructuring High Schools for All Students Cheryl M. Jorgensen,1998 This unique resource asserts - and demonstrates - that all students benefit from the social opportunities and academic expectations of high school. Restructuring High Schools for All Students provides numerous strategies that readers can apply in their own schools - concrete information on creating a collaborative environment, rethinking staff roles, and designing an inclusive curriculum. And, using real-life examples, it shows how self-determination, transition planning, and other special education practices can be broadened to work in general education settings.

Follow the Teacher Robert Thomas Hess,2008 Follow the Teacher also focuses on system design. Within its pages is a blueprint for designing a system in which teacher leadership flourishes. Principals are chiefly responsible for the effective design of the system, and this book will help them foster the conditions that will generate teacher leadership in their schools. Readers will not only be inspired by the examples of teacher leadership throughout this book, but will also understand ways that teacher leadership can be intentionally infused into a school system.--BOOK JACKET.
