The TurboTax User Guide Ben Davies, 2022-02-26 AN INTRODUCTORY GUIDE TO UNDERSTANDING TURBOTAX PREPARATION TurboTax is a software package for preparation of American income tax returns, produced by Intuit. TurboTax is a market leader in its product segment, competing with H&R Block Tax Software and TaxAct. TurboTax was developed by Michael A. Chipman of Chipsoft in 1984 and was sold to Intuit in 1993. Intuit, the maker of TurboTax, has lobbied extensively against the Internal Revenue Service (IRS) creating its own online system of tax filing like those that exist in most other wealthy countries. As part of an agreement with the IRS Free File program, TurboTax allows individuals making less than \$39,000 a year to use a free version of TurboTax; a 2019 ProPublica investigation revealed that TurboTax deliberately makes this version hard to find, even through search engines, and that it deceptively steers individuals who search for the free version to TurboTax versions that cost money to use. TurboTax has tricked military service members to pay to use the filing software by creating and promoting a military discount and by making the free version hard to find when many

service members are in fact eligible to use the software for free. Filing an Income Tax Extension Before filing for an IRS tax extension, make sure it's right for you. Here are a few common reasons why you may need to push your deadline back: More time needed to track down missing tax documents
Unexpected life event Life's been too busy It's important to keep in mind an extension only pushes back the due date for the filing of your tax documents. It does not give you extra time to pay on any taxes you may owe. If you believe you will owe money this year, you'll need to estimate the amount after filing for an extension and make a payment by the filing deadline. Turbotax 2018: Learning the Basics Dale Michelson, 2018-02-07 Timely and accurate filing and payment of taxes is an important role for all taxpayers. In an effort to improve this process, tax service software have become a popular feature during tax season; varying in what they offer and attempting to cater to every need of the taxpayer. Among the more renowned tax service software is TurboTax. This software was first created by Michael Chipman and dates back to the mid-1980s. The software is designed to offer a number of features to enhance the convenience of preparing and filing the 2018 returns. Among the features that users of the 2018 software will be able to enjoy is its one hundred percent accuracy guarantee, its maximum refund guarantee as well as the ability to import a still image of content for use in the returns. New to the software is the new debt-to-income ratio calculator, credit score calculator, timely e-filing, guaranteed audit support, personalized on-call service with trained tax experts, and the ability to auto-import the full W-2 form.
