Saving Us Katharine Hayhoe, 2022-09-20 United Nations Champion of the Earth, climate scientist, and evangelical Christian Katharine Hayhoe changes the debate on how we can save our future in this nationally bestselling “optimistic view on why collective action is still possible—and how it can be realized” (The New York Times). Called “one of the nation’s most effective communicators on climate change” by The New York Times, Katharine Hayhoe knows how to navigate all sides of the conversation on our changing planet. A Canadian climate scientist living in Texas, she negotiates distrust of data, indifference to imminent threats, and resistance to proposed solutions with ease. Over the past fifteen years Hayhoe has found that the most important thing we can do to address climate change is talk about it—and she wants to teach you how. In *Saving Us*, Hayhoe argues that when it comes to changing hearts and minds, facts are only one part of the equation. We need to find shared values in order to connect our unique identities to collective action. This is not another doomsday narrative about a planet on fire. It is a multilayered look at science, faith, and human psychology, from an icon in her field—recently named chief scientist at The Nature Conservancy. Drawing on interdisciplinary research and personal stories, Hayhoe shows that small conversations can have astonishing results. *Saving Us* leaves us with the tools to open a dialogue with your loved ones about how we all can play a role in pushing forward for change.

Us David Nicholls, 2014-10-28 Longlisted for the Man Booker Prize David Nicholls brings the wit and intelligence that graced his enormously popular New York Times bestseller, *One Day*, to a compellingly human, deftly funny new novel about what holds marriages and families together—and what happens, and what we learn about ourselves, when everything threatens to fall apart. Douglas Petersen may be mild-mannered, but behind his reserve lies a sense of humor that, against all odds,

seduces beautiful Connie into a second date . . . and eventually into marriage. Now, almost three decades after their relationship first blossomed in London, they live more or less happily in the suburbs with their moody seventeen year-old son, Albie. Then Connie tells him she thinks she wants a divorce. The timing couldn't be worse. Hoping to encourage her son's artistic interests, Connie has planned a month-long tour of European capitals, a chance to experience the world's greatest works of art as a family, and she can't bring herself to cancel. And maybe going ahead with the original plan is for the best anyway? Douglas is privately convinced that this landmark trip will rekindle the romance in the marriage, and might even help him to bond with Albie. Narrated from Douglas's endearingly honest, slyly witty, and at times achingly optimistic point of view, *Us* is the story of a man trying to rescue his relationship with the woman he loves, and learning how to get closer to a son who's always felt like a stranger. *Us* is a moving meditation on the demands of marriage and parenthood, the regrets of abandoning youth for middle age, and the intricate relationship between the heart and the head. And in David Nicholls's gifted hands, Douglas's odyssey brings Europe—from the streets of Amsterdam to the famed museums of Paris, from the cafés of Venice to the beaches of Barcelona—to vivid life just as he experiences a powerful awakening of his own. Will this summer be his last as a husband, or the moment when he turns his marriage, and maybe even his whole life, around?

The Words That Made Us Akhil Reed Amar, 2021-05-04 A history of the American Constitution's formative decades from a preeminent legal scholar When the US Constitution won popular approval in 1788, it was the culmination of thirty years of passionate argument over the nature of government. But ratification hardly ended the conversation. For the next half century, ordinary Americans and statesmen alike continued to wrestle with weighty questions in the halls of

government and in the pages of newspapers. Should the nation's borders be expanded? Should America allow slavery to spread westward? What rights should Indian nations hold? What was the proper role of the judicial branch? In *The Words that Made Us*, Akhil Reed Amar unites history and law in a vivid narrative of the biggest constitutional questions early Americans confronted, and he expertly assesses the answers they offered. His account of the document's origins and consolidation is a guide for anyone seeking to properly understand America's Constitution today.

What Makes Us Rafi Mittlefehldt, 2019-10-15 A viral video reveals a teen's dark family history, leaving him to reckon with his heritage, legacy, and identity in this fiery, conversation-starting novel. Eran Sharon knows nothing of his father except that he left when Eran was a baby. Now a senior in high school and living with his protective but tight-lipped mother, Eran is a passionate young man deeply interested in social justice and equality. When he learns that the Houston police have launched a program to increase traffic stops, Eran organizes a peaceful protest. But a heated moment at the protest goes viral, and a reporter connects the Sharon family to a tragedy fifteen years earlier — and asks if Eran is anything like his father, a supposed terrorist. Soon enough, Eran is wondering the same thing, especially when the people he's gone to school and temple with for years start to look at him differently. Timely, powerful, and full of nuance, Rafi Mittlefehldt's sophomore novel confronts the prejudices, fears, and strengths of family and community, striking right to the heart of what makes us who we are.

The Sum of Us Heather McGhee, 2021-02-16 NEW YORK TIMES BESTSELLER • LONGLISTED FOR THE NATIONAL BOOK AWARD • One of today's most insightful and influential thinkers offers a powerful exploration of inequality and the lesson that generations of Americans have failed to learn: Racism has a cost for everyone—not just for people of color. WINNER OF THE PORCHLIGHT BUSINESS BOOK AWARD • ONE OF THE BEST BOOKS OF THE YEAR: Time, The Washington Post, St. Louis Post-Dispatch, Ms. magazine, BookRiot, Library Journal “This is the book I’ve been waiting for.”—Ibram X. Kendi, #1 New York Times bestselling author of *How to Be an Antiracist* Look for the author's new podcast, *The Sum of Us*, based on this book! Heather McGhee's specialty is the American economy—and the mystery of why it so often fails the American public. From the financial crisis of 2008 to rising student debt to collapsing public infrastructure, she found a root problem:

racism in our politics and policymaking. But not just in the most obvious indignities for people of color. Racism has costs for white people, too. It is the common denominator of our most vexing public problems, the core dysfunction of our democracy and constitutive of the spiritual and moral crises that grip us all. But how did this happen? And is there a way out? McGhee embarks on a deeply personal journey across the country from Maine to Mississippi to California, tallying what we lose when we buy into the zero-sum paradigm—the idea that progress for some of us must come at the expense of others. Along the way, she meets white people who confide in her about losing their homes, their dreams, and their shot at better jobs to the toxic mix of American racism and greed. This is the story of how public goods in this country—from parks and pools to functioning schools—have become private luxuries; of how unions collapsed, wages stagnated, and inequality increased; and of how this country, unique among the world’s advanced economies, has thwarted universal healthcare. But in unlikely places of worship and work, McGhee finds proof of what she calls the Solidarity Dividend: the benefits we gain when people come together across race to accomplish what we simply can’t do on our own. The Sum of Us is not only a brilliant analysis of how we arrived here but also a heartfelt message, delivered with startling empathy, from a black woman to a multiracial America. It leaves us with a new vision for a future in which we finally realize that life can be more than a zero-sum game. **LONGLISTED FOR THE ANDREW CARNEGIE MEDAL**

Please See Us Caitlin Mullen, 2020-03-03 Winner of the 2021 Edgar Award for Best First Novel In this “beautifully written, thoughtful page-turner” (Chloe Benjamin, New York Times bestselling author of *The Immortalists*) from “the next big voice in crime fiction” (Susan Scarf Merrell, author of *Shirley*), two young women become unlikely friends during one fateful summer in Atlantic City as mysterious disappearances hit dangerously close to home. Summer has come to Atlantic City but the

boardwalk is empty of tourists, the casino lights have dimmed, and two Jane Does are laid out in the marshland behind the Sunset Motel, just west of town. Only one person even knows they're there. Meanwhile, Clara, a young boardwalk psychic, struggles to attract clients for the tarot readings that pay her rent. When she begins to experience very real and disturbing visions, she suspects they could be related to the recent cases of women gone missing in town. When Clara meets Lily, an ex-Soho art gallery girl who is working at a desolate casino spa and reeling from a personal tragedy, she thinks Lily may be able to help her. But Lily has her own demons to face. If they can put the pieces together in time, they may save another lost girl—so long as their efforts don't attract perilous attention first. "You won't be able to stop turning the pages of this heartbreaking" (Publishers Weekly, starred review) and compelling psychological thriller that explores the intersection of womanhood, power, and violence.

Just Us Claudia Rankine, 2020-09-08 FINALIST FOR THE 2021 ANDREW CARNEGIE MEDAL FOR EXCELLENCE IN NONFICTION Claudia Rankine's *Citizen* changed the conversation—*Just Us* urges all of us into it As everyday white supremacy becomes increasingly vocalized with no clear answers at hand, how best might we approach one another? Claudia Rankine, without telling us what to do, urges us to begin the discussions that might open pathways through this divisive and stuck moment in American history. *Just Us* is an invitation to discover what it takes to stay in the room together, even and especially in breaching the silence, guilt, and violence that follow direct addresses of whiteness. Rankine's questions disrupt the false comfort of our culture's liminal and private spaces—the airport, the theater, the dinner party, the voting booth—where neutrality and politeness live on the surface of differing commitments, beliefs, and prejudices as our public and private lives intersect. This brilliant arrangement of essays, poems, and images includes the voices

and rebuttals of others: white men in first class responding to, and with, their white male privilege; a friend's explanation of her infuriating behavior at a play; and women confronting the political currency of dying their hair blond, all running alongside fact-checked notes and commentary that complements Rankine's own text, complicating notions of authority and who gets the last word. Sometimes wry, often vulnerable, and always prescient, *Just Us* is Rankine's most intimate work, less interested in being right than in being true, being together.

The World Without Us Alan Weisman, 2008-08-05 A penetrating take on how our planet would respond without the relentless pressure of the human presence

U.S.! Chris Bachelder, 2006-02-21 An inventive new novel by the author of *Bear v. Shark* chronicles the serial resurrection and assassination of muckraker Upton Sinclair, who is repeatedly brought back to risk his life for the Socialist revolution, only to end up dead at the hands of those seeking fame, fortune, and American business. Original. 20,000 first printing.

A People's History of the United States Howard Zinn, 2003-02-04 Since its original landmark publication in 1980, *A People's History of the United States* has been chronicling American history from the bottom up, throwing out the official version of history taught in schools -- with its emphasis on great men in high places -- to focus on the street, the home, and the workplace. Known for its lively, clear prose as well as its scholarly research, *A People's History* is the only volume to tell America's story from the point of view of -- and in the words of -- America's women, factory workers, African-Americans, Native Americans, the working poor, and immigrant laborers. As historian Howard Zinn shows, many of our country's greatest battles -- the fights for a fair wage, an eight-hour workday, child-labor laws, health and safety standards, universal suffrage, women's rights, racial equality -- were carried out at the grassroots level, against bloody resistance. Covering Christopher Columbus's arrival through President Clinton's first term, *A People's History of the United States*, which was nominated for the American Book Award in 1981, features insightful analysis of the most important events in our history. Revised, updated, and featuring a new afterword by the author, this special twentieth anniversary edition continues Zinn's important contribution to a complete and balanced understanding of American history.

With Us and Against Us Stephen Tankel, 2018-05-22 In the wake of the September 11 attacks, President George W. Bush drew a line in the sand, saying, "Either you are with us or you are with the terrorists." Since 9/11, many counterterrorism partners have been both "with" and "against" the United States, helping it in some areas and hindering it in others. This has been especially true in the Middle East, Africa, and South Asia, where the terrorist groups that threaten America are most concentrated. Because so many aspects of U.S. counterterrorism strategy are dependent on international cooperation, the United States has little choice but to work with other countries.

Making the most of these partnerships is fundamental to the success of the War on Terror. Yet what the United States can reasonably expect from its counterterrorism partners—and how to get more out of them—remain too little understood. In *With Us and Against Us*, Stephen Tankel analyzes the factors that shape counterterrorism cooperation, examining the ways partner nations aid international efforts, as well as the ways they encumber and impede effective action. He considers the changing nature of counterterrorism, exploring how counterterrorism efforts after 9/11 critically differ both from those that existed beforehand and from traditional alliances. Focusing on U.S. partnerships with Algeria, Egypt, Mali, Pakistan, Saudi Arabia and Yemen against al-Qaeda, ISIS, and other terrorist organizations, Tankel offers nuanced propositions about what the U.S. can expect from its counterterrorism partners depending on their political and security interests, threat perceptions, and their relationships with the United States and with the terrorists in question. *With Us and Against Us* offers a theoretically rich and policy-relevant toolkit for assessing and improving counterterrorism cooperation, devising strategies for mitigating risks, and getting the most out of difficult partnerships.

The Alchemy of Us Ainissa Ramirez, 2021-04-06 A “timely, informative, and fascinating” study of 8 inventions—and how they shaped our world—with “totally compelling” insights on little-known inventors throughout history (Elizabeth Kolbert, Pulitzer Prize-winning author of *The Sixth Extinction*) In *The Alchemy of Us*, scientist and science writer Ainissa Ramirez examines 8 inventions and reveals how they shaped the human experience: • Clocks • Steel rails • Copper communication cables • Photographic film • Light bulbs • Hard disks • Scientific labware • Silicon chips Ramirez tells the stories of the woman who sold time, the inventor who inspired Edison, and the hotheaded undertaker whose invention pointed the way to the computer. She describes how our pursuit of

precision in timepieces changed how we sleep; how the railroad helped commercialize Christmas; how the necessary brevity of the telegram influenced Hemingway's writing style; and how a young chemist exposed the use of Polaroid's cameras to create passbooks to track black citizens in apartheid South Africa. These fascinating and inspiring stories offer new perspectives on our relationships with technologies. Ramirez shows not only how materials were shaped by inventors but also how those materials shaped culture, chronicling each invention and its consequences—intended and unintended. Filling in the gaps left by other books about technology, Ramirez showcases little-known inventors—particularly people of color and women—who had a significant impact but whose accomplishments have been hidden by mythmaking, bias, and convention. Doing so, she shows us the power of telling inclusive stories about technology. She also shows that innovation is universal—whether it's splicing beats with two turntables and a microphone or splicing genes with two test tubes and CRISPR.
