Brushing Up English to Learn Greek Peter S. Perry, 2014-12-17 English may be the biggest obstacle to learning Greek! Greek textbooks use jargon such as noun, verb, morphology, and syntax, which sometimes sounds foreign. Many of us may remember them from grade school, but the memories may now be foggy from time and disuse. This book is written for hazy memories of English that need a brush up before learning Greek. Different than other aids to learning Greek, *Brushing Up English to Learn Greek* introduces verbal aspect to beginning students. English emphasizes the time of an action but Greek emphasizes the point of view--or aspect--of an action. This book helps students build a bridge of understanding between the different thought worlds of English and Greek.

Opening Up Middle English Manuscripts Kathryn Kerby-Fulton, Maidie Hilmo, Linda Olson, 2024-05-15 This deeply informed and lavishly illustrated book is a comprehensive introduction to the modern study of Middle English manuscripts. It is intended for students and scholars who are familiar with some of the major Middle English literary works, such as *The Canterbury Tales*, *Gawain and the Green Knight*, *Piers Plowman*, and the romances, mystical works or cycle plays, but who may not know much about the surviving manuscripts. The book approaches these texts in a way that takes into account the whole manuscript or codex—its textual and visual contents, physical state, readership, and cultural history. *Opening Up Middle English Manuscripts* also explores the function of illustrations in fashioning audience response to particular authors and their texts over the course of the fourteenth and fifteenth centuries. Kathryn Kerby-Fulton, Linda Olson, and Maidie Hilmo—scholars at the forefront of the modern study of Middle English manuscripts—focus on the writers most often taught in Middle English courses, including Geoffrey Chaucer, William Langland, the *Gawain* Poet, Thomas Hoccleve, Julian of Norwich, and Margery Kempe, highlighting the specific issues that shaped literary production in late medieval England. Among the topics they address are the rise of the English language, literacy, social conditions of authorship, early instances of the Alliterative Revival, women and book production, nuns' libraries, patronage, household books, religious and political trends, and attempts at revisionism and censorship. Inspired by the highly successful study of Latin manuscripts by Raymond Clemens and Timothy Graham, *Introduction to Manuscript Studies* (also published by Cornell), this book demonstrates how the field of Middle English manuscript studies, with its own unique literary and artistic environment, is changing modern approaches to the culture of the book.

Stepping Up to Global Challenges (SGC) 2: Learning English While Fighting the Outbreak of Covid-19 Susana Amante, 2022-03-21 In 2020, the project 'Stepping Up to Global Challenges (SGC): Empowering Students across the World' was launched, during the difficult period when the COVID-19 pandemic was spreading across the globe and causing the lockdown of several activities. Education was also severely affected, but, even if the response widely varied at the time, remote learning, telecollaboration and project-based approaches were adopted by many teachers, "encourag[ing] learners to take an active role in their own learning process and to learn how to collaborate successfully with others in order to solve real world challenges" (Mont & Masats, 2018, p. 93). At the Polytechnic of Viseu (Portugal), Ege University (Turkey) and UTH University (Poland), four teachers of English decided to embrace the idea of diluting frontiers and exploring the potential of Information and Communication Technologies through telecollaboration, in which the students developed tasks around the topic of entrepreneurship. *Stepping Up to Global Challenges (SGC2): Learning English while Fighting the Outbreak of Covid-19* is a funded project that started in March 2021 and ends in March 2022. Funding for the project was obtained via Apoios Especiais do PV, Tipologia: Projetos que se destinem a implementar metodologias de aprendizagem ativa. An English Grammar, in Three Books, Developing the New Science, Made Up of Those Constructive Principles which Form a Sure Guide in Using the English Language ... James Brown (Grammarians), 1850

Step-up English Grammar and Composition 6 (A.Y. 2023-24) Onward Fr Francis M Peter, 2023-05-20 Language is one of the highest forms of expression. It acts as the medium to make our ideas, thoughts and feelings understood and appreciated. Like art, language can touch the heart and inspire the soul. And, at the heart and soul of a language, lies its grammar. Grammar helps the learners build a firm foundation for using the language. It is, therefore, very important for learners to develop the grammar skills that they need in order to express themselves meaningfully and creatively. *Step-up English Grammar and Composition 1-8* is an NEP-aligned, carefully-graded grammar series developed to address the need of a systematic and step-wise strategy for understanding grammar. The series is based on the eclectic approach to language acquisition and presents a smooth blend of the inductive as well as the deductive method of teaching and learning the language. Each concept has been covered in detail, and great care has been taken to offer the relevant core concepts for the learners at each level. Last but not least, the utmost care has been taken to encapsulate in the series the key parameters laid down in National Education Policy (NEP) 2020. The NEP places the learner at the heart of the teaching-learning process. In recent years, there has been a paradigm shift towards designing a learner-centric curriculum that is based on an activity-based approach. There is also an equal emphasis on equipping young learners with essential twenty-first-century skills. The text as well as the activities in the book promote the holistic development of the learners. Besides, there is a lot of emphasis on enhancing the creativity, critical thinking, and communication and

collaboration skills of learners. Salient Features of the Book • A conscious effort has been made to incorporate the major NEP specifications. • Simple, clear and detailed explanations of essential grammatical concepts have been given. • Explanations are followed by ample examples and a variety of well-graded exercises to reinforce the concepts. • Simple and clear instructions have been given in the exercises for easy understanding. • Fun-based, art-integrated exercises, together with a wide range of activities like grids and puzzles, have been used to bring the joy of learning to the classroom. • There is also a great emphasis on building cross-curricular, grade-appropriate vocabulary through exercises and comprehension. • Speaking activities have been made a part of the grammar exercises to instil more confidence in the learners. • All the explanations and exercises have been coupled with learner-friendly layout and illustrations for additional support. • Test papers have been introduced periodically to check if the learners have grasped the concepts. • Teacher's Resource Books comprise lessons plans, additional activities and teaching guidelines along with the answer key for each book. They are meant to serve as a handy aid for teachers and facilitate a wholesome teaching-learning experience. We hope this series caters to the requirements of the teachers as well as the students and meets our expectations in serving as a guide to the next generation of global citizens. While every possible effort has been made to avoid errors and omissions, any constructive suggestions for the improvement of the series will be welcomed and incorporated in future editions.
