Photographed Letters on Wings Tom Weiner (active 2017-),William W. Streeter,2018-03 One of the untold yet essential stories of World War II is that of the two billion microfilmed letters that boosted morale at home and on the Front lines while freeing up much needed space for soldiers and supplies to be flown to the far corners of the world. From the remarkable process that took V-Mail letters and shrunk them so 1,600 could fit on one reel to the extraordinary advertising and artwork that sought to make their use widespread, Photographed Letters on Wings sheds light on both the history of microfilm and the letters that proved enormously beneficial to the war effort.

Who's Got Mail? Linda Barrett Osborne,2023-05-02 A fascinating history of the U.S. Post Office for kids, from acclaimed author Linda Barrett Osborne “In America, one of the first things done in a new State is to have the mail come.” —Alexis de Toqueville, 1835 Who’s Got Mail? is an intriguing and fact-filled look at how the mail has been delivered in the United States since before the Constitution was even signed. In the United States, the spread of the postal service went hand in hand with the spread of democracy and transportation. As settlement spread west, communication became even more important to let distant residents feel that they were American; no part of the country was too far away, no village or farm too small to have access to the post. Moreover, the Post Office has always been a public service—it was not originally designed to make a profit or act like a business, but to deliver letters, medical supplies, packages ordered online, and all the things that Americans need at a reasonable cost. Over the centuries, it has also been one of the largest employers in the United States, particularly as a means for African Americans and women to secure stable, middle-class jobs. Full of eccentric characters, great stories, and technological achievements, this fun middle-grade narrative nonfiction from author Linda Barrett Osborne celebrates one of the oldest and strongest institutions, and is a true testament to the spirit of American democracy.

V-Mail: 1017 Days James Root,2013-09-15 Let your mind go back to WWII and into the thoughts of a U.S. Army Air Corps man in England. For 1,017 days, Major Kenneth W. Root, Jr. headed up teams of the American soldier-mechanics who repaired B-24 planes for the pilots and crews that bombed enemy sites in occupied France, Germany and all of Europe. Root's teams were part of the 93rd Bombardment Group, 8th Air Force, from 1942 to 1945. His job was to keep his babies flying. For multiple months on end, Root also served in the Middle Eastern desert as the Americans and British fought German army and air forces, winning victory. He was the ranking Engineering Officer of Ted's Travelling Circus, named for their commanding officer. Now consider that this same man had met and married the love of his life, Helen Slawson Root, just weeks before his mission and a 3-year separation began, totaling 1,017 days apart. V-Mail: 1,017 Days holds the nearly-daily letters of Major Root to his new wife, Helen Slawson Root. Since part of his job was censoring the letters of his own crew, he knew well what he could and couldn't say. Despite that restraint, his mail carries a clear sense of his days and his vision for the future with his bride. Reading the words of his letters is like stepping back into that time and place and experiencing war and the separation from his bride in the way this bronze-star WWII hero did. His son, editor James Root, also provides photographs showing how Major Root's post-war life reflected his wartime dreams.

V-Mail Katharine Hoare,2008 Discover V-Mail - the Roman empire's equivalent of the email or text message! The letters discovered at Vindolanda were written on small flexible postcards of wood, which were tied together in zigzags and carried by couriers from all over the empire. They include a birthday party invitation, shopping lists, and gossipy letters between friends; also work assignments and orders for the soldiers in the fort, and accounts of the food they ate, the equipment they were issued, and their medical prescriptions. People write demanding money for goods they have supplied, or asking for a job, or begging an officer not to flog them for a crime they did not commit. A Roman officer even writes a memo describing how the native Britons fight! This book includes translations of a selection of these fascinating and fun documents. Each one is accompanied by

illustrations - reconstruction drawings of Roman life in Britain, and photographs of artefacts from the British Museum's collections. Short, simple descriptive text explains the background to the letters and the world in which the writers lived.
