Edward D. Rothwell

The Texas Book Two David Dettmer, 2012-03-01 In every corner of the sprawling enterprise that is the University of Texas at Austin, you will find teaching, research, artistic creation, and sports achievement that are among the best in the world. Mandated by the Texas constitution to be "a university of the first class," UT Austin strives for excellence across the curriculum, from the most traditional of liberal arts disciplines to the cutting edge of science and technology. For Texans interested in progress, whether students of the university or members of the public, there are few pleasures greater than uncovering the intellectual treasures that can be found by exploring the university's "Forty Acres" and all that they contain. The Texas Book, edited by Richard A. Holland and published in 2006, offered the first in-depth exploration of UT's history and traditions through a collection of profiles, histories, and reminiscences. Now *The Texas Book Two* continues the story, with a variety of contributors recalling particular events and personalities that have helped shape the university and the people whose lives it has touched. Twenty-one essays present personalities such as John A. Lomax, Anna Hiss, J. R. Parten, Harvey Penick, John W. Hargis, and Jorge Luis Borges; accounts of legislative battles and debates over campus architecture; histories of crown jewels such as the McDonald Observatory and Austin City Limits; and the reminiscences of Barbara Smith Conrad, Sam Hurt, and Cat Osterman, among others.

VIP O. S. Hawkins, 2016-03-08 The Bible says that God has "assigned to you an area of influence" (2 Corinthians 10:13). The question is what will you do with it? In his newest book *VIP*, O.S. Hawkins takes readers through what it takes to create a life of Vision, Influence, and Purpose. Through

inspirational stories, biblical examples, and charged challenges towards greatness, O.S. Hawkins illuminates a path for you to uncover what it is going to take for you to become a VIP. Following the great success of his books *The Joshua Code* and *The James Code*, VIP is the next step on your journey toward the life God has for you.

Transforming Insitutions Gabriela C. Weaver, Wilella D. Burgess, Amy L. Childress, Linda Slakey, 2015-10-15 Higher education is coming under increasing scrutiny, both publically and within academia, with respect to its ability to appropriately prepare students for the careers that will make them competitive in the 21st-century workplace. At the same time, there is a growing awareness that many global issues will require creative and critical thinking deeply rooted in the technical STEM (science, technology, engineering, and mathematics) disciplines. However, the existing and ingrained structures of higher education, particularly in the STEM fields, are not set up to provide students with extensive skill development in communication, teamwork, and divergent thinking, which is needed for success in the knowledge economy. In 2011 and again in 2014, an international

conference was convened to bring together university leaders, educational policymakers and researchers, and funding agency representatives to discuss the issue of institutional transformation in higher education, particularly in the STEM disciplines. Central to the issue of institutional transformation is the ability to provide new forms of instruction so that students can gain the variety of skills and depth of knowledge they will need. However, radically altering approaches to instruction sets in motion a domino effect that touches on learning space design, instructional technology, faculty training and reward structures, course scheduling, and funding models. In order for one piece to move, there must be coordinated movement in the others, all of which are part of an entrenched and interconnected system. Transforming Institutions brings together chapters from the scholars and leaders who were part of the 2011 and 2014 conferences. It provides an overview of the context and challenges in STEM higher education, contributed chapters describing programs and research in this area, and a reflection and summary of the lessons from the many authors' viewpoints, leading to suggested next steps in the path toward transformation.

Marfa and Presidio County, Texas Louise O'Connor and Cecilia Thompson, 2014-10-16 In their quest to complete their study and to share a better knowledge and understanding of a part of Texas that is still somewhat a frontier, authors Louise S. O'Connor and Cecilia Thompson reveal the first volume of their book Marfa and Presidio County, Texas: A Social, Economic, and Cultural Study 1937 to 2008 Volume One, 1937-1989. In a book that offers a closer look at the past and the present, readers will see how a place known as a tourist area and a center of contemporary art came to be. It returns to the pre-historic era of Far West Texas and bring readers up to the present

with yearly reports on the region as well as extensive formal research and personal interviews with present day people who live in Presidio County. A case study worth reading, this book is an eye-opener for a better understanding of how this small yet historically rich land is what it is now. Packed with the economic, social, and cultural history of Presidio County; this book gives readers, both lay and the historians, a clear and complete picture of the events that lead to the preservation, industrialization, and the improvement of one of the frontiers of the United States of America.
