**I Can Be a Pet Vet (Barbie)** Mary Man-Kong, 2011-05-11 Barbie wants to be a pet doctor! Join her as she helps a vet take care of puppies, kittens, horses, and many other lovable pets in this original Step 1 book in the Step into Reading series. From the Trade Paperback edition.

**Pet Subjects** Pete Wedderburn, 2017-04-06 Pete the Vet has seen it all – whether Apollo the hamster, Nero the cat, Samson the rabbit or Ned the terrier, he has come across a whole host of cases that aren't in the textbook. With nearly twenty-five years at a veterinary clinic combined with ten years spent on the Telegraph answering reader's questions and a weekly spot on Irish breakfast TV he has dealt with sick pets from the big to the small. Whether that is a giant tortoise or a budgie, there is no case too extraordinary for Pete. Drawing on his experience from his own veterinary practice Pete has a wealth of stories – heart-warming as well as heartbreaking – that are told with a witty and engaging turn of phrase. *Pet Subjects* is a collection of case studies where the reader works beside Pete to try and cure his patients. Once solved, Pete helpfully provides further Q&As to cover a wider range of ailments related to the main story. A captivating and essential read for anyone who cares for a pet of their own.

**Vet Noir** Robin Truelove Stronk DVM, 2010-01-19 In the memoir *Vet Noir*, a seasoned veterinarian humorously recounts stories of animals she treated and the people who loved them. Robin Truelove Stronk owned her own veterinary practice in Vermont with her husband for twenty-four years where she often dealt with clients who expected too much, listened too little, arrived too late, and sometimes just fainted. With an entertaining style, Dr. Stronk shares not only her own professional challenges, but also the unique expectations of the animals' owners. From a New England dairy farmer who expected her to strip to the waist to assist his cow with a difficult birth, to the distraught owner who held her guinea pig up to the telephone so the veterinarian could hear the noise her pet was making, Dr. Stronk's anecdotes illuminate the delightful, sometimes tortuous, and very often amusing relationships between a pet, its owner, and the veterinarian. *Vet Noir* provides a light-hearted glimpse into the world of veterinary medicine where animals are unconditionally loved and the people are kind beyond measure, dedicated, and splendidly appreciative—mostly when they are not being quirky, infuriating, and more often than not, unknowingly comical.

**Ask the Animals** Bruce R. Coston, D.V.M., 2009-09-01 Reminiscent of James Herriot's wonderful books, Coston's memoir offers zany, sad, and touching stories about a medical practice where the patients cannot speak, yet communicate deeply. Bruce R. Coston's first book is a warm, funny, and amazingly fulfilling celebration of the wonderful world of animals as seen through the eyes of a small-town veterinarian. The patients are an eclectic and surprising cast of characters who display incredible bravery and nobility at times, and unbelievable goofiness at others. There's Sandy, the dog who resurrected herself from death. There's Daphne, the transvestite cat who taught Bruce to be a cat person. And the owners are no less engaging, ranging from the angelic to the squeamish, teaching Bruce what it really means to be an animal doctor. Readers will gain insight into the pathos and passion, the mundane and extraordinary, the thigh-slapping humor and the crushing sadness of a vet's life as he seeks to mend and restore people's treasured companions. Written with great warmth, this book imparts a deeper understanding of the pets who daily enrich our lives.

**Doc, I Needed You Last Night** A. J. Day DVM, 2014-09-05 Ride along with a veterinarian through the eastern Illinois countryside. In the warm months, the corn and soybeans grow lush and green on either side of the road, and red-winged blackbirds perch atop cattails in the roadside ditches. The green trees growing along the creek bank will be rife with color in the autumn. Marvel at the idyllic timber pasture where our next patient is waiting to be treated. Or stand at the side of an examination table in the animal hospital as the vet treats cats, dogs, cockatoos, and snakes. In the subzero temperature of winter, with snow piled high along the road, you'll visit a farm where a female sheep awaits a Caesarean section to remove too-large twin lambs. Kneel alongside the vet as you observe surgery in a building with no heat. Later, visit an exotic animal farm, with a zebra, fainting goats, and potbellied pigs, and watch as the vet performs pregnancy exams on four yaks. In the tradition of *All Creatures Great and Small*, this heartfelt and entertaining collection of stories celebrates the life of a country veterinarian who has nurtured and healed God's creatures for the better part of his life. Packed with larger-than-life characters—both human and four-legged—*Doc, I Needed You Last Night* will appeal to animal lovers of all ages.

**If I Were a Veterinarian** Shelly Lyons, 2011 If I were a veterinarian, I would help sick animals get well. I would give shots, bandage wings, and remove swallowed toys. I would care for all sorts of animals, maybe even tigers! Dream big, and see what fun it is to be a vet.

**The Vet at Noah's Ark** Dr. Doug Mader, 2022-07-12 From renowned veterinarian Dr. Doug Mader comes a stirring account of his fight to protect his animal patients and human staff amid the dangerous realities of inner-city life and the Los Angeles riots—and a celebration of the remarkable human-animal bond. The life of a veterinarian is challenging: keeping up with advances in medical care, making difficult decisions about people's beloved companions, and, in Dr. Doug Mader's case, navigating the social unrest in Los Angeles in the early 1990s. As one of the few exotic animal experts in California, he was just as likely to be treating a lion as a house cat. *The Vet at Noah's Ark: Stories of Survival from an Inner-City Animal Hospital* follows Dr. Mader and his staff over the course of a year at Noah's Ark Veterinary Hospital, an inner-city LA area veterinary hospital where Dr. Mader treats not only dogs and cats, but also emus, skunks, snakes, foxes, monkeys, and a host of other exotic animals. This real life drama is set against the backdrop of the trial of four police officers in the Rodney King case, as well as the violent aftermath following their acquittal. This is a book about survival, both of the pets that Dr. Mader and his staff try to save on a daily basis, as well as the staff themselves. Living in the harsh reality of the city, surrounded by gangs, drugs, violence, traffic, smog, and deadly riots, they must overcome and rise above, for their own survival and that of the animals who need them. This awe-inspiring account is told through Dr. Mader's riveting storytelling—as Carl Hiaasen writes, Doug is fearless and dedicated, and a damn good storyteller.
