Vocabulary Is Comprehension Laura Robb, 2014-08-21 Here is a reading riddle: What knowledge always precedes high-level text comprehension and yet seldom is given sufficient instructional time? The answer: Word knowledge. Our students can't understand texts without knowing what words mean. It's that simple. Meanwhile, in our rush toward complex texts, somehow we forget to put a new systematic vocabulary plan in place. In *Vocabulary Is Comprehension*, Laura Robb provides the instructional plan. And just wait until you see the results! Laura's plan takes just 10 to 15 minutes, and much of it is spent in partner and independent work so this is no add on to squeeze in. Even better, all materials are included. Each lesson features a student reproducible along with 50+ pieces of short fiction, nonfiction, and poetry—or, if you prefer, use your own text. Here's how the plan works: Day 1: You read aloud the short text and students discuss the selected words in their context. Students work in pairs, rereading the text to understand words and phrases, and then share understandings as a class. Days 2 & 3: Students finish partner work and complete the reproducible. Along the way, the 35+ lessons: Support complex text comprehension Cover academic vocabulary, synonyms, antonyms, multiple meanings, figurative language, denotative and connotative meanings, Greek and Latin roots, and more Address specific CCSS vocabulary and writing standards Include strategies for ELLs and developing readers, and formative assessments Link to a wealth of online reproducibles, words lists, and printable complex texts Laura surrounds these ready-to-teach lessons with the routines that help students read increasingly demanding texts across the curriculum. Students blog, tweet, and apply words in many different contexts . . . look out for related words in books, ads, and media . . . and many other collaborative activities that promote deep word knowledge rather than shallow word-defining. If you're looking for a resource that will make all the difference as you address the new reach for rigorous, complex text reading, *Vocabulary Is Comprehension* is it. An author, teacher, coach, and speaker, LAURA ROBB has spent the last four decades in middle school education. What teachers appreciate most about Laura is her deep commitment to children and adolescents, and her ability to show what best-practice instruction looks like day by day; a survey conducted by *Instructor* magazine named Laura as one of the nation's top twenty educators. Currently, in addition to her speaking and consulting, she works part time in grades K-8.

Vocabulary in Language Teaching Joe Barcroft, 2015-09-16 This module focuses on the pivotal role of vocabulary in

language acquisition, communication, and instruction. It first reviews the nature of vocabulary knowledge, the mental lexicon, and different contexts of vocabulary learning. It then explains how we acquire vocabulary and refine vocabulary knowledge over time. The primary emphasis is on how language instructors can promote evidence-based vocabulary instruction in the classroom. To this effect, the module highlights some telling research on the effects of specific tasks (such as sentence writing and copying target words) and different ways of presenting target words (such as having multiple talkers instead of a single talker produce the target words) and outlines an effective approach to vocabulary instruction, one that emphasizes multiple presentations of target vocabulary, specificity in the relationship between task type and learning outcomes, and the gradual build-up of language-specific vocabulary knowledge over time. A sample lesson based on this approach is also provided. Please visit the series companion website for more information: <http://routledgetextbooks.com/textbooks/9781315679594/>
