**Discovery and Measurement of the Higgs Boson in the WW Decay Channel** David Hall, 2015-06-15 This thesis describes the stand-alone discovery and measurement of the Higgs boson in its decays to two W bosons using the Run-I ATLAS dataset. This is the most precise measurement of gluon-fusion Higgs boson production and is among the most significant results attained at the LHC. The thesis provides an exceptionally clear exposition on a complicated analysis performed by a large team of researchers. Aspects of the analysis performed by the author are explained in detail; these include new methods for evaluating uncertainties on the jet binning used in the analysis and for estimating the background due to associated production of a W boson and an off-shell photon. The thesis also describes a measurement of the WW cross section, an essential background to Higgs boson production. The primary motivation of the LHC was to prove or disprove the existence of the Higgs boson. In 2012, CERN announced this discovery and the resultant ATLAS publication contained three decay channels: gg, ZZ, and WW.

*WW III: Payback* Ian Slater, 2005-03-29 Old soldiers never die. They just come back for more. Three terrorist missiles have struck three jetliners filled with innocent people. America knows this shock all too well. But unlike 9/11, the nation is already on a war footing. The White House and Pentagon are primed. All they need now is a target and someone bold-and expendable-enough to strike it. That someone is retired Gen. Douglas Freeman, the infamous warrior who has proved his courage, made his enemies, and built his legend from body-strewn battlegrounds to the snake pits of Washington. Using a team of "retired" Special Forces operatives and a top-secret, still-unproven stealth attack craft, Freeman sets off to obliterate the source of the missiles, a weapons stockpile in North Korea. Some desktop warriors expect Freeman to fail-especially when an unexpected foe meets his team on the Sea of Japan. But Freeman won't turn back even as his plan explodes in his face and the Pacific Rim roils over-because this old soldier can taste his ultimate reward. . . .

**Military Moments WW II** Don Saunders, Mel Saunders, 2012-01-12 American civilians who were on the home front during World War II would each have different stories to tell. With most, almost certainly their stories would not be as dramatic as the stories of many of those who lived in the battle zones of Europe and the Far East. Despite the difference, there would be many moving stories to tell of Americans who lost loved ones or received them home wounded or tarnished in some way by the war. Our parents welcomed us home untarnished, but changed by our experiences. Our stories range from the intense action of combat flying that Don experienced to the more ordinary action of flight training that both of us went through. We hope that the older reader will find in this book some things familiar to their experiences, and to those who were not living during this period in our history, may they find some of the limited history in this book to be of interest to them.

**The Neo-Orthodox Theology of W.W. Bryden** John A Vissers,2011-11-24 Walter W. Bryden was Principal of Knox College, Toronto, after the Second World War, and one of the leading Presbyterian theologians of the period from the 1920s to the 1950s. In *The Neo-Orthodox Theology of W.W. Bryden*, John Vissers makes an important contribution by analysing Bryden's thought, placing it in the context of contemporary European and American theology. Vissers emphasises in particular Bryden's role in introducing and popularising the ideas of Karl Barth in North America prior to the translation of Barth's Commentary on Romans into English, and his Neo-Orthodox theology owed much to Barthian ideas. In his most important work, *The Christian's Knowledge of God*, Bryden challenged the modernist emphasis on the rational, arguing for a Christocentric doctrine of Revelation. Vissers brings a wealth of scholarship and research to his subject, revealing Bryden's pivotal role in the development of neo-orthodoxy within the Protestant tradition in North America, a role that previous studies have often failed to explore.

**0500 Letters from a Ww Ii Combat Infantryman** Verdi Gilbertson,2015-11-11 May 7, 1945 Well, the war ended today. Tomorrow is officially V - E Day! All is quiet on the western front. Thank our Almighty God that at last we have peace over here. We cant really be happy as long as we have boys fighting on the other side of the world but it is also a big step towards ending the war over there too. We hope and pray that it ends soon. It looked like the 4th of July here tonight. The French civilians are shooting up flares and rockets of all colors. The soldiers are not celebrating very much though. The order to Cease Firing has come. I just cant help but thinking of our buddies who were left behind on the battlefields and never will hear the order.
