*Slavery and the Forensic Theatricality of Human Rights in the Spanish Empire* Karen-Margrethe Simonsen,2023-06-24 This book is a study of the forensic theatricality of human rights claims in literary texts about slavery in the sixteenth and the nineteenth century in the Spanish Empire. The book centers on the question: how do literary texts use theatrical, multisensorial strategies to denunciate the violence against enslaved people and make a claim for their rights? The Spanish context is particularly interesting because of its early tradition of human rights thinking in the Salamanca School (especially Bartolomé de Las Casas), developed in relation to slavery and colonialism. Taking its point of departure in forensic aesthetics, the book analyzes five forms of non-narrative theatricality: allegorical, carnivalesque, tragicomic, melodramatic and tragic.

*Stages of Conflict* Diana Taylor,Sarah J. Townsend,2008 *Stages of Conflict* brings together an array of dramatic texts, tracing the intersection of theater and social and political life in the Americas over the past five centuries. Historical pieces from the sixteenth century to the present highlight the encounter between indigenous tradition and colonialism, while contributions from modern playwrights such as Virgilio Pinero, Jose Triana, and Denise Stolkos take on the tumultuous political and social upheavals of the past century. The editors have added critical commentary on the origins of each play, affording scholars and students of theater, performance studies, and Latin American studies the opportunity to view the history of a continent through its rich and diverse theatrical traditions.--from publisher's statement.

**Who's Who of World Religions** John R. Hinnells,1991-12-12 In historical terms, religions do not exist apart from the people who practise them. This is the first collection of biographical studies of figures from religions around the globe and from traditions both ancient and modern. It represents the work of an enormous international team of scholars, and although many entries involve original research, this substantial work of reference is intended to be of use to both the specialist and the general reader. Particular care has been taken to ensure a balance between religions and to include figures from the diverse branches of the different religions. Indexes and an extensive bibliography make it an invaluable working tool.

**Yawar Fiesta** José María Arguedas,2002-04-10 Fiction. In English translation. José María Arguedas is one of the few Latin American authors who loved and described his natural surroundings, and he ranks among the greatest writers of any time and place. He saw the beauty of the Peruvian landscape, as well as the grimness of social conditions in the Andes, through the eyes of the Indians who are a part of it. *Yawar Fiesta* describes the social relations between Indians, mestizos, and whites in the Peruvian highland town of Puquio in the early twentieth century. Each group's reaction to the national government's attempt to suppress the traditional Indian-style bullfight reflects their attitude toward social change more generally. Included with the text of the novel is Arguedas' anthropological essay "Puquio: A Culture in the Process of Change," written eighteen years after *Yawar Fiesta*. The article emphasizes the social changes in the village that resulted from the road construction described in the novel. While Arguedas' poetry was published in Quechua, he invented a language for his novels in which he used native syntax with Spanish vocabulary, making translation into other languages extremely difficult. Frances Horning Barracough has met the challenge and produced an excellent work that remains faithful to the author's use of language to reflect with lived experience of Peruvian Indians.

*Single Abroad: Tales of the Boyish Man* Brian Ward,2011-07-08

*Incan Insights* José Antonio Mazzotti,2008 Examines the Royal Commentaries of the Inca Garcilaso de la Vega and sets forth a new and alternative reading of this foundational text, paying close attention to the indigenous sources and Andean resonance of the work.

*1491 (Second Edition)* Charles C. Mann,2006-10-10 NATIONAL BESTSELLER • A groundbreaking work of science, history, and archaeology that radically alters our understanding of the Americas before the arrival of Columbus in 1492—from “a remarkably engaging writer” (The New York Times Book Review). Contrary to what so many Americans learn in school, the pre-Columbian Indians were not sparsely settled in a pristine wilderness; rather, there were huge numbers of Indians who actively molded and influenced the land around them. The astonishing Aztec capital of Tenochtitlan had running water and immaculately clean streets, and was larger than any contemporary European city. Mexican cultures created corn in a specialized breeding process that it has been called man's first feat of genetic engineering. Indeed, Indians were not living lightly on the land but were landscaping and manipulating their world in ways that we are only now beginning to understand. Challenging and surprising, this a transformative new look at a rich and fascinating world we only thought we knew.

*A Bible Believer Looks at World History* Frederick Widdowson,2010-08-08 This is a review of world history from a Bible believer's perspective. It is designed for use by homeschoolers but anyone can learn from it.

*Ways of Knowing* Mark Harris,2007 Questions about how humans come to know themselves and their worlds have always been at the heart of anthropology, and are necessarily part of a broader intellectual history. This book brings together anthropologists to discuss how they come to know what they know about the societies they study.

**They Eat from Their Labor** Ann Zulawski,1994-12-15 A study of the growth of the indigenous labor force in upper Peru (now Bolivia) during colonial times. Ann Zulawski provides case studies in mining and agriculture, and places her data within a larger historical context than analyzes Iberian and Andean concepts of gender, property, and labor. She concludes that although mercantilism made a critical impact in the New World, the colonial economic system in the Andes was not yet capitalist. Attitudes of both indigenous peoples and Spanish colonizers hindered the process of turning work into a commodity. In addition, the mobilization of labor power both reinforced and undermined each society's ideas about the economic and social roles of men and women.

**Companies and Their Brands** ,2006

*Pizarro* Richard Brinsley Sheridan,2017-09-15 Richard Brinsley Sheridan's last play, an adaptation of August von Kotzebue's *Die Spanier in Peru* first performed in 1799, was one of the most popular of the entire century. Set during the Spanish Conquest of Peru, *Pizarro* dramatizes English fears of invasion by Revolutionary France, but it is also surprisingly and critically engaged with Britain's colonial exploits abroad. *Pizarro* is a play of firsts: the first use of music alongside action, the first collapsing set, the first production to inspire such celebratory ephemera as cartoons, portraits, postcards, even porcelain collector plates. *Pizarro* marks the end of eighteenth-century drama and the birth of a new theatrical culture. This edition features a comprehensive introduction and extensive appendices documenting the play's first successful performances and global influence. It will appeal to students and scholars of Romantic literature, theatre history, post-colonialism, and Indigenous studies.

*Inca Garcilaso and Contemporary World-Making* Sara Castro-Klarén,Christian Fernández,2016-08-15 This edited volume offers new perspectives from leading scholars on the important work of Inca Garcilaso de la Vega (1539–1616), one of the first Latin American writers to present an intellectual analysis of pre-Columbian history and culture and the ensuing colonial period. To the contributors, Inca Garcilaso's Royal Commentaries of the Incas presented an early counter-hegemonic discourse and a reframing of the history of native non-alphabetic cultures that undermined the colonial rhetoric of his time and the geopolitical divisions it purported. Through his research in both Andean and Renaissance archives, Inca Garcilaso sought to connect these divergent cultures into one world. This collection offers five classical studies of Royal Commentaries previously unavailable in English, along with seven new essays that cover topics including Andean memory, historiography, translation, philosophy, trauma, and ethnic identity. This cross-disciplinary volume will be of interest to students and scholars of Latin American history, culture, comparative literature, subaltern studies, and works in translation.

*The Encyclopedia of Political Revolutions* Jack A. Goldstone,2015-04-29 The Encyclopedia of Political Revolutions is an important reference work that describes revolutionary events that have affected and often changed the course of history. Suitable for students and interested lay readers yet authoritative enough for scholars, its 200 articles by leading scholars from around the world provide quick answers to specific questions as well as in-depth treatment of events and trends accompanying revolutions. Includes descriptions of specific revolutions, important revolutionary figures, and major revolutionary themes such as communism and socialism, ideology, and nationalism. Illustrative material consists of photographs, detailed maps, and a timeline of revolutions.

*Cut Stones and Crossroads* Ronald Wright,2015-10-06 Traveling through Peru, tracing the history of the Incas from their royal cities of Cusco and Machu Picchu to their mythic origin in Lake Titicaca, Ronald Wright explores a country of contrasts—between Spanish and Indian, past and present, coastal desert and mountainous interior. In his highly entertaining and perceptive account, Wright brings to life a complex culture, a land of ancient traditions seeking its place in the modern world. Embracing history, politics, anthropology, and literature, *Cut Stones and Crossroads* is a fascinating travel memoir and the study of a civilization by a writer who has won international awards as both a novelist and a historian.

*Across Before Columbus?* Donald Y. Gilmore,Linda S. McElroy,1998 Indice: Section 1: Artifacts, sites and archaeoastronomy; Section 2: Botany, biology and people; Section 3: Linguistics, inscriptions and glyphs; Section 4: Diffusion and voyages.

*Resistance, Rebellion, and Consciousness in the Andean Peasant World, 18th to 20th Centuries* Steve J. Stern,1987 In *The Postcolonial State in Africa*, Crawford Young offers an informed and authoritative comparative overview of fifty years of African independence, drawing on his decades of research and first-hand experience on the African continent. Young identifies three cycles of hope and disappointment common to many of the African states (including those in North Africa) over the last half-century: initial euphoria at independence in the 1960s followed by disillusionment with a lapse into single-party autocracies and military rule; a period of renewed confidence, radicalization, and ambitious state expansion in the 1970s preceding state crisis and even failure in the disastrous 1980s; and a phase of reborn optimism during the continental wave of democratization beginning around 1990. He explores in depth the many African civil wars--especially those since 1990--and three key tracks of identity: Africanism, territorial nationalism, and ethnicity. Only more recently, Young argues, have the paths of the fifty-three African states begun to diverge more dramatically, with some leading to liberalization and others to political, social, and economic collapse--outcomes impossible to predict at the outset of independence. This book is the best volume to date on the politics of the last 50 years of African independence.--*International Affairs* The book shares Young's encyclopedic knowledge of African politics, providing in a single volume a comprehensive rendering of the first 50 years of independence. The book is sprinkled with anecdotes from his vast experience in Africa and that of his many students, and quotations from all of the relevant literature published over the past five decades. Students and scholars of African politics alike will benefit immensely from and enjoy reading *The Postcolonial State in Africa*.--*Political Science Quarterly* The study of African politics will continue to be enriched if practitioners pay homage to the erudition and the nobility of spirit that has anchored the engagement of this most esteemed doyen of Africanists with the continent.--*African History Review* The book's strongest attribute is the careful way that comparative political theory is woven into historical storytelling throughout the text. . . . Written with great clarity even for all its detail, and its interwoven use of theory makes it a great choice for new students of African studies.--*Australasian Review of African Studies*

*Discurso colonial hispanoamericano* Sonia Rose de Fuggle,1992  
*A Grammar of Murui (Bue)* Katarzyna I. Wojtylak,2020-10-12 *A Grammar of Murui (Bue)* by Katarzyna Wojtylak is the first complete description of Murui (Witoto, Huitoto) spoken in Colombia and Peru. It is an important contribution to the study of Witotoan languages and linguistic typology of Northwest Amazonia.

*Food, Power, and Resistance in the Andes* Alison Krögel,2010-12-16 *Food, Power, and Resistance* explores the ways in which artistic representations of food and cooks often convey subversive meanings that resist attempts to locate indigenous Andeans-and Quechua women in particular-at the margins of power. This book offers a dynamic, interdisciplinary study of how food's symbolic and pragmatic meanings influence access to power and the possibility of resistance in the colonial and contemporary Andes.
