WARP Book 1: The Reluctant Assassin Eoin Colfer,2013-05-07 Riley, a teen orphan boy living in Victorian London, has had the misfortune of being apprenticed to Albert Garrick, an illusionist who has fallen on difficult times and now uses his unique conjuring skills to gain access to victims' dwellings. On one such escapade, Garrick brings his reluctant apprentice along and urges him to commit his first killing. Riley is saved from having to commit the grisly act when the intended victim turns out to be a scientist from the future, part of the FBI's Witness Anonymous Relocation Program (WARP) Riley is unwittingly transported via wormhole to modern day London, followed closely by Garrick. In modern London, Riley is helped by Chevron Savano, a nineteen-year-old FBI agent sent to London as punishment after a disastrous undercover, anti-terrorist operation in Los Angeles. Together Riley and Chevie must evade Garrick, who has been fundamentally altered by his trip through the wormhole. Garrick is now not only evil, but he also possesses all of the scientist's knowledge. He is determined to track Riley down and use the timekey in Chevie's possession to make his way back to Victorian London where he can literally change the world.

WARP, Book 3: The Forever Man Eoin Colfer,2015-09-15 Riley, an orphan boy living in Victorian London, has achieved his dream of becoming a renowned magician, the Great Savano. He owes much of his success to Chevie, a seventeen-year-old FBI agent who traveled from the future in a time pod and helped him defeat his murderous master, Albert Garrick. But it is difficult for Riley to enjoy his new life, for he has always believed in his heart of hearts that Garrick will someday, somehow, return to seek vengeance. Chevie has assured Riley on numerous occasions that Garrick was sucked into a temporal wormhole, never to emerge. The full nature of the wormhole has never been understood, however, and just as a human body will reject an unsuitable transplant, the wormhole eventually spat him out. By the time Garrick makes it back to Victorian London, he has been planning his revenge on Riley for half a century. But even the best-laid plans can go awry, and when the assassin decides to include Chevie in his retaliation, the three are tossed once more into the wormhole with no idea where—or when—they will end up.

Warp Lev Grossman,2016-09-20 The lost literary origin story of #1 bestseller Lev Grossman - including a new foreword about how and why he wrote his first novel: It is the intense, concentrated, boiled-down essence of the unhappiest years of my life. Twenty-something Hollis Kessler languishes in a hopelessly magician-less world (with the exception of a fleet-footed nymph named Xanthe) not too far from where he graduated college. His friends do, too. They sleep late, read too much, drink too much, talk too much, and work and earn and do way too little. But Hollis does have an obsession: there's another world going on in his head, a world of excitement and danger and starships and romance, and it's telling him that it's time to stop dreaming and get serious. This re-publication of Lev Grossman's debut novel, *Warp*, shows the roots of his Magicians hero Quentin Coldwater in a book that is for anyone (and everyone) who has ever felt adrift in their own life.

Warp Speed Travis S. Taylor,2004-12-01 Tomorrow the Stars¼ Today, World War III! Dr. Neil Anson Clemons was born at the very moment that men first landed on the moon and always strived to become an astronaut and reach the stars. Becoming an astronaut and traveling to the stars are not easy tasks. Neil devoted his life to staying physically fit as any astronaut should be through martial arts and mentally fit by studying and becoming one of the world's foremost experts in quantum physics and gravitational theory. Now he and his team have achieved a breakthrough, both in building a warp drive, and finding a new energy source powerful enough to make the drive more than an interesting theoretical concept. With the help of attractive and outspoken southern astronaut, US Air Force Colonel Tabitha Ames, the US Government is convinced to fund the Top Secret warp project, including assembly in orbit of the first faster-than-light probe. Unfortunately, forces working behind the scenes have much darker dreams, and have infiltrated the Top Secret program. They do not hesitate to blow up a space shuttle, attempt to kill Neil and Tabitha, and use the stolen warp technology to start what they expect to be a short, devastating, and victorious war with the United States. But Dr. Clemons has ideas for using his warp drive technology completely unsuspected by America's enemies, and repelling the all-out attack is only the beginning of a titanic struggle to reach the stars. *Warp Speed* is lightning-paced science fiction adventure built upon authentic science in the grand tradition of Isaac Asimov, Arthur C. Clarke, and E. E. Doc Smith. At the publisher's request, this title is sold without DRM (Digital Rights Management).

Maximum Warp Dave Galanter,Greg Brodeur,2001 Captain Picard must decide whether to sacrifice a world in order to save the galaxy.

The Hangman's Revolution (W.A.R.P. Book 2) Eoin Colfer,2014-06-26 The Matrix meets Oliver Twist! WARP: The Hangman's Revolution is the second book in a major new series by Eoin Colfer, the bestselling author of *Artemis Fowl*. F.B.I. agent Chevron Savano is trapped in a nightmare future. Unless she can return to 19th-century London and change the course of history, millions will die. Luckily she has Riley the boy magician and a Victorian gangster with lovely hair to help her battle two crazed villains, who have brought the military technology of the future back in time - with potentially disastrous consequences. The stakes are higher than the hangman's noose and only Chevie can save the day. Assuming she can avoid being killed by a couple of psycho warrior-nuns first . . . 'Colfer has the ability to make you laugh twice over: first in sheer subversive joy at the inventiveness of the writing, and again at the energy of the humour' - Sunday Times 'Readers mourning the end of the *Artemis Fowl* series can take heart...the time-bending WARP series is an all-out blast.' - Publishers Weekly

The Warp Blair Tate,1987

The Renegades Book 2: Warp's Warriors Brian James Hildebrand,2017-04-01 They're Heroes...Ignore The Wanted Posters. Claire (Sparrow) thought the worst part about breaking her Hero Ban was being forced to wear an ankle monitor at school. She should have been more worried about being killed. Warp and his team of assassins have set their sights on Claire and her friends: The Renegades. This wouldn't be such a problem if the Renegades could actually work as a team, so Claire is determined to get them working like one. But between a snarky scientist, a rebellious robot, an aggressive angel, an amateur wizard, and the wizard's overprotective older brother, Claire has her work cut out for her. How can the Renegades fight off assassins when they can't stop fighting each other?

The Reluctant Assassin (WARP Book 1) Eoin Colfer,2013-04-11 It all began with the FBI and WARP (Witness Anonymous Relocation Programme). Hiding witnesses in the past to protect the future - until now . . . Riley is a Victorian orphan, hurtled into the twenty-first century and on the run from his evil master . . . Albert Garrick, the terrifying assassin-for-hire pursuing Riley through time, along with . . . Chevie Savano, the FBI's youngest and most impulsive special agent. As Garrick relentlessly hunts them down, Riley and Chevie face a desperate race to stay alive and stop Garrick from returning to his own time - armed with knowledge and power that could change the world forever.

Time Travel and Warp Drives Allen Everett,Thomas Roman,2012 Discusses what people understand about space and time and how science fiction is becoming less fictional as time goes on.

Modern Image Processing: Warping, Morphing, and Classical Techniques Christopher Watkins,1993-08-04 Modern Image Processing: Warping, Morphing, and Classical Techniques

A Warp in Time Jude Watson,2018-01-30 From a National Book Award winner, plane crash survivors struggle to find safety in the wilderness when they encounter humans who suffered a similar crash. The harrowing tale of survival takes its most dramatic turn yet when Molly, Yoshi, and the rest discover that there are more than just monsters in the rift in the Earth where they struggle to find food and shelter. There are other kids, too . . . kids who have been surviving in the wilderness much longer for reason both suspicious and supernatural. The seven-book mega-series begun by #1 New York Times–bestselling author Scott Westerfeld (*Uglies*) reaches a pivotal turning point as only New York Times bestseller and National Book Award winner Jude Watson could deliver!

Warp Drive, Patent Pending Daech Douglas (author),1901

Warp & Weft Edward J Delaney,2015-11-10 Set in the gloomy depths of the granite-block textile mills of the industrial Northeast, *Warp & Weft* illuminates the lives of three generations of men who toil together. Carey, the leader of the small crew who load and unload the endless procession of trucks at the Chace Mill, worries about his wife's illness and tries to distract himself by pouring all his hopes into the fortunes of the mill's ragtag softball team; his wife, Joyce, finds herself facing the void more and more on her own. Dominic, the new hire who quit high school and arrived at the mill on his sixteenth birthday, tries to free himself from the inexplicable disapproval of his father, who was paralyzed years before when he, too, worked in the mills, and who has extolled his life of honest work he lost. Bento, who immigrated mid-life, worries about the decline of the strength he so proudly possessed, but fends off his wife's pleadings to move back to the old country before they die—she has become determined to not be buried in a place that never stopped being foreign from her beloved islands. As the summer of 1978 wears on, each man finds himself in more untenable struggle with gathering events, and with each other. Each will see his life changed, the interlocked threads of life's fabric in a world of unrelenting work and scarce circumstance.

Red Warp Don Debon,2013-12-02 If you could travel through time with just your self and no machine needed, would you? Meet Red, a woman with a amazing gift, the gift of passing though time and space without the need of any bulky equipment. The places she has seen, the people she has helped will blow your mind.

Warp-Speed Branding Agnieszka Winkler,1999-07-26 Advertising expert Agnieszka M. Winkler offers an insider's perspective on how technology has changed marketing and advertising. Writing with clarity and confidence, she outlines the steps advertisers and marketers must take to keep pace. She cites high-profile companies like Dell Computers and Amazon as examples of brands that were built in months, not years. These examples illustrate her sometimes complex concepts, and make them more accessible. Unfortunately, she also devotes a large amount of space to what amounts to a commercial for an adverting software application that she's trying to sell. But for readers who can stomach the pitch, *getAbstract* recommends this book to those who work in marketing, advertising, or related industries, and to those who are making the transition to technology-driven brand building. (Editor's note: TeamToolz, one of the major resources covered in this book, is a pay-for-use service sold by the author.).

WARP Book 1 The Reluctant Assassin Eoin Colfer,2013-05-07 Riley, a teen orphan boy living in Victorian London, has had the misfortune of being apprenticed to Albert Garrick, an illusionist who has fallen on difficult times and now uses his unique conjuring skills to gain access to victims' dwellings. On one such escapade, Garrick brings his reluctant apprentice along and urges him to commit his first killing. Riley is saved from having to commit the

grisly act when the intended victim turns out to be a scientist from the future, part of the FBI's Witness Anonymous Relocation Program (WARP) Riley is unwittingly transported via wormhole to modern day London, followed closely by Garrick. In modern London, Riley is helped by Chevron Savano, a nineteen-year-old FBI agent sent to London as punishment after a disastrous undercover, anti-terrorist operation in Los Angeles.
