The Story of We Pierre De Wet,2011-03-30 The Story of We is every person's story-about the beauty of life, the unplanned pursuit of a dream and the resilience of love. He had a farm and dreams in Africa, but after tragedy strikes, everything crumbles. Nothing seems sure anymore-even his trust in God. He sets off for America, an unfamiliar country where he didn't even speak the language. With two young daughters and all they possessed in four suitcases, the three of them arrive in America with only hope. There, they encounter angels in human form of all colors and kinds who cross their paths one by one, bringing them to an unexpected destiny that far surpasses his greatest hopes. The power of three-three dreams and three hearts-weaves a story of simple pleasures, everlasting hope and surprising candor that will encourage and inspire. Only in America.

**We Are Here to Stay: Voices of Undocumented Young Adults** Susan Kuklin,2019-01-08 With refreshing candor, photos and interviews usher us into the lives of eleven undocumented young people bravely speaking out. "Maybe next time they hear someone railing about how terrible immigrants are, they'll think about me. I'm a real person." Meet nine courageous young adults who have lived in the

United States with a secret for much of their lives: they are not U.S. citizens. They came from Colombia, Mexico, Ghana, Independent Samoa, and Korea. They came seeking education, fleeing violence, and escaping poverty. All have heartbreaking and hopeful stories about leaving their homelands and starting a new life in America. And all are weary of living in the shadows. *We Are Here to Stay* is a very different book than it was intended to be when originally slated for a 2017 release, illustrated with Susan Kuklin's gorgeous full-color portraits. Since the last presidential election and the repeal of DACA, it is no longer safe for these young adults to be identified in photographs or by name. Their photographs have been replaced with empty frames, and their names are represented by first initials. We are honored to publish these enlightening, honest, and brave accounts that encourage open, thoughtful conversation about the complexities of immigration — and the uncertain future of immigrants in America.

*We Am The Song* Richard Prism,2016-04-23 We are the dangerous, problematic and troubled species threatening the health and equilibrium of the whole Earth. We are the bearers of heroic myths and legends of explanation and survival of a complex, bloody past – which, as William Faulkner said “is not even past.” We are the oblivious couriers of indecipherable ancient messages, speakers of lonely lives of the spirit we cannot share. Meanwhile there are individual lives to be led, being born, growing, thriving, loving,

surviving and dying to be negotiated, dreams to pursue in a world of change coming at us at the speed of light. So what remains of We Am, if We ever was ? Can it be recreated ?

**We're Gainin'** Jacob Watson, 2019-08-08 We're Gainin' By: Jacob Watson We're Gainin': Collins Brook, A Maine Free School - A Memoir is set in Maine during the turbulent 1960 and '70s. It chronicles a man whose traditional public and private schooling focused on the intellectual and physical, and how he discovered in Summerhill schools his emotional and spiritual life. At age 27, Jacob (then Dick) Watson and his wife Sharon founded Collins Brook School and, with volunteer help, built classrooms and dormitories. Democratic school meetings tackled challenges of optional classes, 'magic meadow', organic gardening, stealing, bullying, food, and animals: Freya the Newfoundland, Randolph the beef steer, Priscilla the pig, and Washington the mallard duck. When a fateful plan to merge Collins Brook with another Summerhill school collapsed and his marriage ended, Watson found solace sailing the Maine coast and islands. Learning

to listen to his still small voice within, he became an interfaith minister and started another Maine school. This book includes photographs, student writing, newspaper articles, bedtime stories, and transcripts of school meetings.

**We You Me** Laura Ruth Ellis, 2019-11-13 After years of caring for her family, author Laura Ruth Ellis finally felt free to pursue a new life purpose. Almost immediately, however, she was pulled back into the role of dutiful daughter when her mother succumbed to dementia. The years she spent as full-time caregiver were stressful and exhausting—but from the fears and challenges came the transformation she had sought all along. In *We You Me*, Laura recalls from her journal entries the emotional turmoil the caregiver role brought to her and the lessons it taught her. With intimacy and honesty, she recounts the stresses, strains, and shame she endured along the way. As the years went on, a change began; she moved from denying life's circumstances to accepting life as it comes, eventually gaining an awareness of life's bigger picture in the process. Her focus shifted from duty to others with love to love of duty to her inner self. Life presented the role she needed to finally find and accept who she most wanted to be and her buried dream was released. This personal narrative presents a journey of acceptance through the realms of caregiving toward true self-knowledge, as one woman's dream deferred for duty is brought to life.

**We Are What We Eat** Alice Waters, 2022-06-07 From chef and food activist Alice Waters, an impassioned plea for a radical reconsideration of the way each and every one of us cooks and eats In *We Are What We Eat*, Alice Waters urges us to take up the mantle of slow food culture, the philosophy at the core of her life's work. When Waters first opened Chez Panisse in 1971, she did so with the intention of feeding people good food during a time of political turmoil. Customers responded to the locally sourced organic ingredients, to the dishes made by hand, and to the welcoming hospitality that infused the small space—human qualities that were disappearing from a country increasingly seduced by takeout, frozen dinners, and prepackaged ingredients. Waters came to see that the phenomenon of fast food culture, which prioritized cheapness, availability, and speed, was not only ruining our health, but also dehumanizing the ways we live and relate to one another. Over years of working with regional farmers, Waters and her partners learned how geography and seasonal fluctuations affect the ingredients on the menu, as well as about the dangers of pesticides, the plight of fieldworkers, and the social, economic, and environmental threats posed by industrial farming and food distribution. So many of the serious problems we face in the world today—from illness, to social unrest, to economic disparity, and environmental degradation—are all, at their core, connected to food. Fortunately, there is an antidote. Waters argues that by eating in a “slow food way,” each of us—like the community around her restaurant—can be empowered to prioritize and nurture

a different kind of culture, one that champions values such as biodiversity, seasonality, stewardship, and pleasure in work. This is a declaration of action against fast food values, and a working theory about what we can do to change the course. As Waters makes clear, every decision we make about what we put in our mouths affects not only our bodies but also the world at large—our families, our communities, and our environment. We have the power to choose what we eat, and we have the potential for individual and global transformation—simply by shifting our relationship to food. All it takes is a taste.

*What We Know about Teaching Teenagers: A Guide for Teachers, Parents, and Administrators* Dr. Richard A. NeSmith, 2021-03-07 What we know about teaching Teenagers, 2019 I would like to thank Dr. Richard NeSmith for helping me know more about what goes through teenagers' minds and grow into a better teacher. Dr. NeSmith's 28-plus years of teaching experience and careful study of biology, developmental and cognitive psychology make him one of the best experts in the field. His book explains the difficulties students have learning at school and reflects on how to overcome them, promoting a better understanding of the changes going on in teenagers' lives as well as an elementary understanding of what causes pain points in the brain of the adult-in-the-making. Above all, Dr. NeSmith reminds us that teenagers are individuals, with their personality, strengths, weaknesses, and their ways of showing love and concern. The book has been carefully researched and will make you aware of the cognitive-emotional interactions going on inside the mind of preadolescents to improve your teaching strategies. It is such a

privilege to teach and take teenagers from childhood to adulthood. Whether you are a parent, a teacher, or a school administrator you will find in this book strategies to facilitate learning and encourage lifelong learning.

===== A  
research-based book addressing brain-based learning and how secondary age students best learn and how teachers can best teach to meet those needs. American public education is on life support like never before. Why? The shift from LEARNING to standardized testing, ticking boxes for administrators, and watering down curricula are some of the reasons. This synthesis of brain-based research emphasizes how students best learn. It is NOT a checklist, it is a strategy that empowered teachers can utilize to improve student learning. But, knowing how teens think enables teachers to know HOW TEENS best LEARN. --Dr. Richard NeSmith
