Life at Maripaston Johannes King, 2014-10-20 The Matawai Maroon Johannes King (ca. 1830-1898) taught himself to read and write at an advanced age. He wanted to bridge the gap between the generations by publishing his Book of Horrors (Skrekiboekoe) and the present book which has been given the title Life at Marispaston. King wanted to explain the root of the problems between him and his elder brother, Chief Noah Andrai, representatives respectively of the church and the state at the village level. King wanted to justify his life in the eyes of the church, the EBG-Moravian Brethren, and his fellow Maroons. This book is an important contribution to the church history of Suriname, yet also offers insights into the history of the Maroon communities in Suriname. This book is one of the first original works in Sranantongo.

Wirelessness Adrian Mackenzie, 2010 For Mackenzie, entanglements with things, gadgets, infrastructures, and services---tendencies, fleeting nuances, and peripheral shades of often barely registered feeling that cannot be easily codified, symbolized, or quantified---mark the experience of wirelessness, and this links directly to James's expanded conception of experience. Wirelessness designates a tendency to make network connections in different times and places using these devices and services. Equally, it embodies a sensibility attuned to the proliferation of devices and services that carry information through radio signals. Above all, it means heightened awareness of ongoing change and movement associated with networks, infrastructures, location, and information. --

Woollen and Worsted Woven Fabric Design E G Gilligan,2004-01-05 Today it is as essential as ever to design, develop and produce saleable and commercially sound woven fabrics within considerable financial restraints. However, in teaching woven fabric design, emphasis appears to have shifted away from the practicalities of cloth construction and design development. This practical handbook provides explanations and answers to some of the technical and practical problems encountered in the development, design and manufacture of woollen and worsted woven fabrics.

Reading Prophetic Narratives Uriel STEEN-NOKLBERG,1997-12-22 ... a superb example of modern Orthodox Jewish biblical interpretation. -- Interpretation This detailed and intriguing work represents years of thought and meticulous analysis as well as a fresh reading of several familiar prophetic narratives found in the OT. -- The Catholic Biblical Quarterly ... this book contains well-argued and thoughtful literary readings... Simon is thoroughly versed in the secondary literature but has managed to write a volume accessible to both scholars and informed general readers... -- Choice Noted biblical scholar Uriel Simon undertakes a systematic study of prophetic narratives in the Bible. He focuses on seven stories (including Samuel's call to prophecy, Saul at Endor, and David and Bathsheba), analyzing their form and structure, their rhetorical devices, their descriptions of character and motive, their narrative techniques -- in short, on the ways in which the stories are told.

An Import of Intrigue Marshall Ryan Maresca,2016-11-01 This second novel in the Maradaine Constabulary series blends high fantasy, murder mystery, and gritty urban magic... The neighborhood

of the Little East is a collision of cultures, languages, and traditions, hidden away in the city of Maradaine. A set of streets to be avoided or ignored. When a foreign dignitary is murdered, solving the crime falls to the most unpopular inspectors in the Maradaine Constabulary: exposed fraud Satrine Rainey, and Uncircled mage Minox Welling. With a murder scene deliberately constructed to point blame toward the rival groups resident in this exotic section of Maradaine, Rainey is forced to confront her former life, while Welling's ignorance of his own power threatens to consume him. And the conflicts erupting in the Little East will spark a citywide war unless the Constabulary solves the case quickly.

10th International Conference on Turbochargers and Turbocharging Institution of Mechanical Engineers, 2012-05-11 This book presents the papers from the latest international conference, following on from the highly successful previous conferences in this series held regularly since 1978. Papers cover all current and novel aspects of turbocharging systems design for boosting solutions for engine downsizing. The focus of the papers is on the application of turbocharger and other pressure charging devices to spark ignition (SI) and compression ignition (CI) engines in the passenger car and commercial vehicles. Novel boosting solutions for diesel engines operating in the industrial and marine market sectors are also included. The current emission legislations and environmental trends for reducing CO₂ and fuel consumption are the major market forces in the transport (land and marine) and industry sectors. In these market sectors the internal combustion engine is the key product where downsizing is the driver for development for both SI and CI engines in the passenger car and commercial vehicle applications. The more stringent future market forces and environmental considerations mean more stringent engine downsizing, thus, novel systems are required to provide boosting solutions including hybrid, electric-motor and exhaust waste energy recovery systems for high efficiency, response, reliability, durability and compactness etc. For large engines the big challenge is to enhance the high specific power and efficiency whilst reducing emission levels (Nox and Sox) with variable quality fuels. This will require turbocharging systems for very high boost pressure, efficiency and a high degree of system flexibility. Presents papers from all the latest international conference Papers cover all aspects of the turbocharging systems design for boosting solutions for engine downsizing The focus of the papers is on the application of turbocharger and other pressure charging devices to spark ignition (SI) and compression ignition (CI) engines in the passenger car and commercial vehicles
