Chinese Maritime Cases Martin Davies,Jiang Lin,2021-11-24 This book selects leading, innovative and influential Chinese maritime judgments and presents full translation of them, with brief summary, to the readers so that they can have insights of how the Chinese maritime judges interpret, apply and develop Chinese maritime law in practice. China trades with other states in trillions of USD every year, and about 95% of the cargoes are carried by ocean-going ships calling at hundreds of Chinese ports each single day. Due to the enormous and steadily growing trade volume and shipping activities, foreign ships, companies and persons are often caught by the Chinese maritime law and court. The parties involved and their lawyers are more than ever enthusiastic to study Chinese maritime cases in order to deal with their own cases properly or, if possible, predict the potential problems and avoid the disputes outright. The book is appealing to and benefits worldwide law students, academics, practitioners and industrial people in the shipping, trade, insurance and financial fields. The book remedies to certain extent the situation that there is lack of authoritative sources available to foreign personnel to look into how Chinese justice system functions.

The Portrayals of the Pharisees in the Gospels and Acts Mary Marshall,2014-11-19 The first five books of the New Testament contain a large proportion of all uses of the term Farisai/oj in extant literature. In the light of growing scepticism among historians of Judaism over the accuracy and legitimacy of reconstructions of the Pharisees of history, Mary Marshall sets aside the quest for the historical Pharisees and instead offers an analysis of the portrayal of the Pharisees by each evangelist. The author adopts a redaction critical approach which incorporates narrative critical observations where appropriate. Her examination of the texts demonstrates the particularity of each book and its portrayal of the Pharisees. The five books do not portray a monolithic body of evidence but each has its own style, occasion and purpose(s). All New Testament portrayals of the Pharisees occupy a good deal of common ground and yet the pictures they produce are not identical. Every one of the evangelists integrates the Pharisees into his own presentation of the gospel,emphasisingthose aspects of the Pharisees' portrayal which serve his own particular concerns. This study of material from the gospels and Acts yields multi-faceted portraits of the Pharisees and discloses the variety of christological, soteriological, ecclesiological and ethical concerns with which they are associated. It alerts the exegete both to the nuances within a given New Testament book and to the subtle differences between books. It demonstrates the combination of fidelity and freedom with which the evangelists regarded their inherited tradition and sources. The way the Pharisees are portrayed in each text is particular to that text and its purposes, and therefore consideration of the Pharisees' portrayal is able to enrich our understanding of the gospels and Acts more generally.

Key Basic Scientific Problems on Near-Space Vehicles Shanyi Du,2023-04-02 This book mainly introduces the research overview, research results, and follow-up prospects of “Key Basic Scientific Problems on Near-Space Vehicles”, a major research plan of National Natural Science Foundation of China (hereinafter referred to as the Plan). The Plan is the first systematic basic hypersonic research program in China. From its inception in 2007 to its successful completion in 2016, the Plan lasted nine years, funded a total of 173 projects, and the funding totaled 190 million yuan.
