El catecumenado de adultos Jesús Sastre García, 2013-12-10 Presentación del proceso de catecumenado de adultos: cómo suscitar y acompañar lo que han de pasar por dentro las personas para que lleguen, como adultos, a la profesión de fe. Eso solo será posible si el catequista y la comunidad contagian la fuerza liberadora de la fe como gracia, o sea, como don, proyecto y tarea.

Inteligencias múltiples y aprendizaje del inglés en el aula de adultos mayores María del Mar Palenzuela Pérez, 2014-11-13 CD-ROM La investigación Inteligencias múltiples y aprendizaje del inglés en el aula de adultos mayores se enmarca dentro del campo de estudio de la enseñanza-aprendizaje del inglés como lengua extranjera, dentro del área de lingüística aplicada. En nuestra labor como docentes a menudo buscamos nuevas vías de acceso que nos permitan llegar a nuestros alumnos ya que un método válido y eficaz para algunos no es para otros, y con frecuencia debemos experimentar con nuevos métodos que nos permitan propiciar y facilitar un aprendizaje con éxito. Esta situación se acentúa en los talleres de inglés de la Universidad de Mayores de Almería donde la diversidad en el aula se incrementa de un modo considerable debido a diversos aspectos como el bagaje cultural y social del individuo y a sus experiencias académicas anteriores. La ausencia de metodologías en la enseñanza del inglés a adultos mayores dificulta el papel del profesor que debe estar en la búsqueda de accesos mediante los cuales poder transmitir y enseñar satisfactoriamente el nuevo contenido, y en el caso del estudiante, en muchas ocasiones debe hacer grandes esfuerzos por intentar adquirir y retenerlo, llegando en ocasiones a abandonar el taller. Ante la situación dada en este contexto parece necesario establecer o aportar nuevas metodologías que faciliten la labor docente y propicien un aprendizaje satisfactorio. En este sentido, la teoría de las inteligencias múltiples ha proporcionado las claves para solventar las necesidades planteadas, ya que se han abierto diversas vías de acceso mediante las cuales poder llegar al alumno. El objetivo general de esta investigación es implementar un programa diseñado para alumnos mayores de cincuenta y cinco años destinado a mejorar, motivar y facilitar el aprendizaje del inglés como lengua extranjera desde la perspectiva de las inteligencias múltiples, e investigar los efectos de esta teoría. Como contribuciones positivas de esta investigación destaca la metodología implementada, ésta facilita la atención a la diversidad en el aula, un aprendizaje efectivo y el desarrollo de estrategias de aprendizaje. Además, fomenta la participación y la implicación del alumno en el proceso de enseñanza-aprendizaje, produce un aumento de la motivación y autoestima, y propicia un aprendizaje cooperativo y comunicativo, fomentando el trabajo en equipo y contribuyendo a la creación de un ambiente relajado y distendido

La educación y formación de adultos en Europa. Ampliar el acceso a las oportunidades de aprendizaje, 2015 Al ofrecer un panorama global de las políticas y datos relativos a la Agenda Europea Renovada para el aprendizaje de adultos, el presente informe de Eurydice pretende apoyar el intercambio de políticas y prácticas entre los países. El informe se centra en las medidas existentes para asegurar que los grupos de adultos más vulnerables, en particular aquellos con escasas destrezas o insuficientes cualificaciones, tienen el acceso adecuado a las oportunidades de aprendizaje a lo largo de la vida. Los seis capítulos del informe abarcan el fondo de datos estadísticos sobre la educación y formación de adultos, los compromisos políticos sobre el aprendizaje de adultos que existen a escala nacional, los principales tipos de programas sostenidos con fondos públicos, la flexibilidad del aprendizaje y las vías de progreso formativo, las iniciativas de divulgación y los servicios de orientación, así como el apoyo económico dirigido a grupos específicos. El informe se basa principalmente en información recogida a través de la red Eurydice en 2014 y abarca 35 sistemas educativos situados en 32 países europeos (todos los Estados Miembros de la UE, así como Islandia, Liechtenstein, Noruega y Turquía). Además de la información de Eurydice, incluye también datos procedentes de diferentes proyectos de investigación y datos estadísticos de diferentes encuestas internacionales.

Modelo de atención para el cuidado de adultos mayores institucionalizados desde Trabajo Social S. Preciado, E. Covarrubias & M. Arias, 2011-08-02 Esta investigación presenta una propuesta de trabajo con adultos mayores a partir de un Modelo de Atención para el cuidado de adultos mayores a partir del método Montessori. El Modelo está siendo utilizado en una casa de cuidado de adultos mayores en el Estado de Colima, en el cual se han ido modificando las estrategias de atención en donde se busca principalmente el desarrollo de habilidades sociales, a partir de actividades lúdico-recreativas, que les permite interactuar entre ellos. Además se destaca la importancia de la relación del cuidador-adulto mayor, y de la necesidad de contar con personal profesional. Este trabajo de investigación muestra la aplicación del Modelo haciendo al final una propuesta de actividades así como de la creación de una ludoteca para adultos mayores. Invitamos a los lectores a revisar el documento, así como a proponer acciones en beneficio de los adultos mayores, particularmente de los institucionalizados, para que se generen programas sociales; de igual forma a quienes cuidan adultos mayores para que se preparen cada día y puedan brindar un servicio con calidad y calidez, finalmente para los profesionistas quienes tienen una gran oportunidad de generar cambios en la atención de este grupo etario, que muchas veces se encuentra abandonado.

TDAH en Adultos. Cómo Reconocer y Tratar a un Adulto con TDAH en 30 Fáciles Pasos The Blokehead, 2015-04-28 El Trastorno por Déficit de Atención con Hiperactividad (TDAH) Siempre se ha asociado a problemas de desarrollo infantil. Sin embargo, en los Estados Unidos, simplemente, WebMD afirma que hay alrededor de 8 millones de adultos con este problema y algunos de ellos aún siguen sin ser diagnosticados y, por ende, sin tratar. La sintomatología del TDAH Adulto puede haber comenzado en la infancia. Alrededor de 60% de niños con TDAH llevan los síntomas hasta la edad adulta. Sin embargo, en algunos casos, los síntomas solamente se manifiestan durante la adultez y no tan prominente como durante la niñez. O puede ser que los síntomas nunca fueron diagnosticados durante la infancia.

Para un número creciente de personas mayores en la sociedad, que está disponible de inmediato para ayudar a la persona mayor en crisis las 24 horas del día los 7 días a la semana. En Educación geriátrica para servicios de emergencias médicas, segunda edición, se abordan con detalle todas las necesidades de la población de más edad para ayudar a tener la seguridad de que los adultos mayores reciban el tratamiento especializado que requieren de los profesionales de emergencias y de salud móvil cuando más se necesitan las destrezas de capacitación geriátrica. Land without Masters Anna Cant, 2021-04-20 In 1969, Juan Velasco Alvarado's military government began an ambitious land reform program in Peru, transferring holdings from large estates to peasant cooperatives. Fifty years later this reform remains controversial: critics claim it unjustly expropriated land and ruined the Peruvian economy, while supporters emphasize its success in addressing rural inequality and exploitation. Moving beyond agricultural policy to offer a fresh perspective on the agrarian reform, *Land without Masters* shows how ideological assumptions and state interventions surrounding the reform transformed Peru's political culture and social fabric. Drawing on fieldwork in three different regions, Anna Cant shows how the government adapted its discourse and interventions to the local context while using the reform as a platform for nation-building. This comparative approach reveals how local actors shaped the regional impact of the agrarian reform and highlights the new forms of agency that emerged, including that of marginalized peasants who helped forge a new social, cultural, and political landscape. Making novel use of both visual and cultural sources, this book is a fascinating look at how the agrarian reform process permanently altered the relationship between rural citizens and the national government—and how it continues to resonate in Peruvian politics today.

Political Sociology of Adult Education Carlos Alberto Torres, 2013-09-03 Critical Theorist Carlos Alberto Torres offers a political sociology of adult learning and education, based on Critical Social Theory and the always inspiring work of Paulo Freire. Empirically grounded and theoretically sophisticated, this new book follows the footsteps of his classic book published in the early nineties *The Politics of Nonformal Education in Latin America*. Torres book offers comparative and international sociological analyses of adult learning and education, an area in which there is an obsession with 'practice' and an aversion to theory, with some notable and laudable exceptions, but which has the potential to provide avenues for social justice education in ways that no other systems and policies can. This book revitalizes social theory in education, and provides ample evidence of the power of adult learning and education, examining a variety of policy documents connected with the various adult education congresses promoted by the UNESCO, which are thoroughly scrutinized for what they bring to or omit from the policy agenda. In the context of new developments in adult learning and education, particularly the impact of multiple globalizations, neoliberalism, and the new role of international organizations in reconceptualizing lifelong learning, new evidence-based research, new narratives, and the vibrancy of social movements striving for a new and possible world, it is clear that new theoretical designs were needed making this is a must-read book.
