The Wisdom of the Desert Thomas Merton,1970 The ascetics of Scete and the Thebaid in the Egyptian Desert have been more often admired than known or understood. Translations by such scholars as Helen Waddell have done much to restore the true perspective. This new selection from the Latin 'Sayings of the Fathers' (Verba Seniorum) has been made by Thomas Merton with a special purpose. It is not only a translation and selection, but a new monastic redaction in the spirit of our own time. Merton has felt free, as a monk, to do what generations of monks before him have done. He has made a wholly independent and original use of material which is the traditional basis of Christian monastic spirituality. -- Dust jacket.

The Word in the Desert Douglas Burton-Christie,1993-02-04 The growing scholarly attention in recent years to the religious world of late antiquity has focused new attention on the quest for holiness by the strange, compelling, often obscure early Christian monks known as the desert fathers. Yet until now, little attention has been given to one of the most vital dimensions of their spirituality: their astute, penetrating interpretation of Scripture. Rooted in solitude, cultivated in an atmosphere of silence, oriented toward the practical appropriation of the sacred texts, the desert fathers' hermeneutic profoundly shaped every aspect of their lives and became a significant part of their legacy. This book explores the setting within which the early monastic movement emerged, the interpretive process at the center of the desert fathers' quest for holiness, and the intricate patterns of meaning woven into their words and their lives.

Joy-bearing Grief Hannah Hunt,2004-11-01 This is the first modern study of penthos (tears of contrition), focusing on texts by Klimakos, Ephrem, Isaac and Symeon the New Theologian. It explores religious anthropology, a female 'voice' and how such tears are joyful as well as sad.

The Sayings of the Desert Fathers ,1975-02-01 `Give me a word, Father', visitors to early desert monks asked. The responses of these pioneer ascetics were remembered and in the fourth century written down in Coptic, Syriac, Greek, and later Latin. Their Sayings were collected, in this case in the alphabetical order of the monks and nuns who uttered them, and read by generations of Christians as life-giving words that would help readers along the path to salvation.

In the Heart of the Desert John Chryssavgis,2008 Father John's inspiring introduction to the spirituality of the Desert Fathers and Mothers brings their words to life for the modern reader. These key figures of the early church chose lives of hardship and solitude, where they could point their hearts away from the outward world and toward an introspective path of God's calling in a deliberate and individual way. Contains a Foreword by Metropolitan Kallistos Ware, the second highest ranking Orthodox Bishop in England.

Discernment in the Desert Fathers Antony D. Rich,2007-04-01 'Discernment in the Desert Fathers' is a study of discernment (Diakrisis) in the life and thought of the fourth- and fifth-century Egyptian Desert Fathers. Rich argues that their understanding of Diakrisis was based upon a practical application of biblical Diakrisis in general and not, as has been argued, primarily a development of the gift of discernment of spirits. He begins with an examination of Scripture and goes on to consider the philosophical and theological background of the period as represented by Plotinus and Origen respectively. An examination of the works of the first theologians of the desert, Evagrius and Cassian, who lived among these first Christian monks and nuns, provides an early interpretation of the sayings of the Desert Fathers or Apophthegmata Patrum. The Greek, Latin, and Coptic sayings that survive are then examined in detail, some of them translated into English for the first time. This indepth analysis (including the comprehensive list of crossReferences which will be a valuable resource for scholars researching the subject in the future) provides many insights into the lives of these early Christians and demonstrates how Diakrisis touched every aspect of their inward and outward lives. Rich concludes that Diakrisis was a critical faculty and charism central to the spiritual and practical life of these early monks and nuns in their mystical search for God, for purity of life, and knowledge of him.

The Wisdom of the Desert ,1974 Thomas Mertons affection for the spiritual nonconformists who once inhabited the deserts of the Near East shines through in these much-loved short tales of their acts and words of wisdom. Mertons free translation from the Latin sources presents their radical lives with humour and insight, relating them to Zen recluses, Hindu renunciates and all those who have ever fled conventional life in search of higher wisdom.

Where God Happens Rowan Williams,2007-08-14 The place where God happens, according to Rowan Williams's striking new reading of the Desert Fathers and Mothers, is between each other. It's a truth that we of the twenty-first century most urgently need to learn in order to heal the experience of alienation that has become endemic to our age, and these odd and appealing ancient figures, surprisingly, hold keys to this healing. The fourth-century Christian hermits of Egypt, Syria, and Palestine understood the truth of Christian community profoundly, and their lives demonstrate it vividly—even though they often lived in solitude and isolation. The author breaks through our preconceived ideas of the Desert Fathers to reveal them in a new light: as true and worthy role models—even for us in our modern lives—who have much to teach us about dealing with the anxieties, uncertainties, and sense of isolation that have become hallmarks of modern life. They especially embody valuable insights about community, about how to live together in an intimate and meaningful way. Williams makes these radical figures, who clearly have a special place in his heart, come to life in a new way for everyone. The book includes an appendix of selections from the teachings of the Desert Fathers.

Ascetics, Society, and the Desert James E. Goehring,1999-05-01 Through rigorous examination of papyrological documentary sources, archaeology, and traditional literary sources, James Goehring gradually forces a new direction in understanding the evolution of monasticism. He ably transforms these sources into a clear narrative, thereby infusing the history of Egyptian monasticism with renewed energy.

The Desert Christian ,1980

Four Desert Fathers Tim Vivian,Rowan A. Greer,2004 The four desert Fathers who give their names to this volume - Pambo, Evagrius, Macarius of Egypt, and Macarius of Alexandria - were well known some 1600 years ago in Alexandria and the monastic communities of Lower Egypt. They were most famous, perhaps, because the monk (and later bishop) Palladius recounted their Lives - preserved in the Coptic Palladiana - in his Lausiac History. The introduction describes the relationships among Palladius and Evagrius, Origenism, the spiritual and theological ramifications of the Anthropomorphite controversy, and subsequent effects on the Lausiac History and the four Coptic Lives of this volume.--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. The Desert Fathers on Monastic Community Graham Gould,1993 A study of the life and thought of the Christian monks of 4th- and 5th-century lower Egypt, whose views have been influential at many points in the subsequent history of Christianity. It suggests that they were able to combine their concern for solitude with a commitment to the value of community.
