Black Ops Advertising Mara Einstein,2016-09-01 From Facebook to Talking Points Memo to the New York Times, often what looks like fact-based journalism is not. It's advertising. Not only are ads indistinguishable from reporting, the Internet we rely on for news, opinions and even impartial sales content is now the ultimate corporate tool. Reader beware: content without a corporate sponsor lurking behind it is rare indeed. Black Ops Advertising dissects this rapid rise of "sponsored content," a strategy whereby advertisers have become publishers and publishers create advertising—all under the guise of unbiased information. Covert selling, mostly in the form of native advertising and content marketing, has so blurred the lines between editorial content and marketing message that it is next to impossible to tell real news from paid endorsements. In the 21st century, instead of telling us to buy, buy, BUY, marketers "engage" with us so that we share, share, SHARE—the ultimate subtle sell. Why should this concern us? Because personal data, personal relationships, and our very identities are being repackaged in pursuit of corporate profits. Because tracking and manipulation of data make "likes" and tweets and followers the currency of importance, rather than scientific achievement or artistic talent or information the electorate needs to fully function in a democracy. And because we are being manipulated to spend time with technology, to interact with "friends," to always be on, even when it is to our physical and mental detriment.

Black Ops Ric Prado,2022-03-01 The Explosive National Bestseller A memoir by the highest-ranking covert warrior to lift the veil of secrecy and offer a glimpse into the shadow wars that America has fought since the Vietnam Era. Enrique Prado found himself in his first firefight at age seven. The son of a middle-class Cuban family caught in the midst of the Castro Revolution, his family fled their war-torn home for the hope of a better life in America. Fifty years later, the Cuban refugee retired from the Central Intelligence Agency as the CIA equivalent of a two-star general. Black Ops is the story of Ric's legendary career that spanned two eras, the Cold War and the Age of Terrorism. Operating in the shadows, Ric and his fellow CIA officers fought a little-seen and virtually unknown war to keep USA safe from those who would do it harm. After duty stations in Central, South America, and the Philippines, Black Ops follows Ric into the highest echelons of the CIA's headquarters at Langley, Virginia. In late 1995, he became Deputy Chief of Station and co-founding member of the Bin Laden Task Force. Three years later, after serving as head of Korean Operations, Ric took on one of the most dangerous missions of his career: to re-establish a once-abandoned CIA station inside a hostile nation long since considered a front line of the fight against Islamic terrorism. He and his team carried out covert operations and developed assets that proved pivotal in the coming War on Terror. A harrowing memoir of life in the shadowy world of assassins, terrorists, spies and revolutionaries, Black Ops is a testament to the courage, creativity and dedication of the Agency's Special Activities Group and its elite shadow warriors.

Black Ops Brad Thor,2016-03-31 'Brad Thor is een meester in het bedenken en schrijven van originele actiethrillers.' - Hebban.nl, 4 sterren Sommige missies zijn zo delicaat en dodelijk dat ze simpelweg niet bestaan. Met Black Ops heeft bestsellerauteur Brad Thor zijn meest duistere en intrigerende thriller tot nu geschreven. Een ijzingwekkend verhaal over spionage en verraad met een hoog tempo en non-stop actie. Als een van deze missies catastrofaal mislukt, kan alleen Scot Harvath - voormalig lid van Navy SEAL Team 6 en nu contraterrorisme-expert - een gewaagde missie uitvoeren om de grootste terroristische aanslag te verijdelen die de Verenigde Staten ooit bedreigde: totale en complete verwoesting. Maar als Harvath de identiteit van de daders weet bloot te leggen, wordt het hem duidelijk dat hij maar op één manier de VS kan beschermen. Niemand is te vertrouwen en de enige oplossing is zelf een Black Op uit te voeren.

Black Ops Guy Bowers,2015-10-20 Black Ops is a skirmish wargame of tactical espionage combat that recreates the tension and excitement of modern action-thrillers such as the Bond and Bourne films. The fast-play rules keep all the players in the thick of the action, while the mission generator provides a wide range of options for scenarios - from stealthy extraction or surveillance missions to more overt raids and assaults. Stealth, combat, and technical expertise all have a role to play, and players may recruit a number of different operative types - spies, mercenaries, criminals, hackers, special forces, and many more - to recruit the best possible team for the job. Players may also choose to join a faction - powerful organizations, intelligence agencies, criminal syndicates, militaries, or rebel groups, each with a stake in international affairs. By doing so, their team may receive certain benefits, but may also find itself limited at a crucial time. With the variety offered by the characters, factions, and scenarios, no two games of Black Ops should ever be the same!

Black Ops and Beaver Bombing Fiona Mathews,Tim Kendall,2023-04-27 Countryfile's best nature and wildlife books for 2023 Shortlisted for the Wainwright Prize 'Elegiac, informative and funny; some truly magical encounters in the wild' Peter Fiennes Britain is teeming with wildlife, often in the most unexpected places. There are stone mines where bats hang out with pot-smoking teenagers and water voles thrive without water in Glaswegian parklands. Our coastlines are laden with seals. That's the good news. The bad news is that a quarter of British mammals are at imminent risk of extinction. Tim Kendall and Fiona Mathews take us on a safari unlike any other. Armed with binoculars, a Thermos and, regrettably, an inexhaustible supply of puns, they travel from Scotland to the Isles of Scilly in search of their elusive subjects. You'll find answers to questions you

never thought to ask: do pine marten droppings really smell like Parma Violets? Should we give squirrels access to family planning? And what do wild boar have in common with a certain royal? Black Ops and Beaver Bombing is a celebration of Britain’s marvellous mammals, and a rallying cry to save them.

The CIA's Black Ops John Jacob Nutter, Ph.D,2009-12-04 The vast array of CIA black ops (operations) has turned the agency into a policy maker dangerously independent of the government that created it. This is an unprecedented declassification of foreign exploits and domestic secrets.

Paid, Owned, Earned Nick Burcher,2012-03-03 The complexity of media that now sees multiple channels accessed through multiple devices has created major challenges for today's marketing and advertising professionals. Consumer time is split between TVs, laptops, iPads, X-Boxes and smartphones, with traditional media, websites, videos, social networks and apps all competing for attention, meaning it's difficult for brands to decide how best to reach and engage their audiences. Paid, Owned, Earned defines the constituents of each area of 'paid', 'owned' and 'earned' media and shows how they are linked together. It proposes a blueprint for how to think and navigate across this space using a framework made up of key elements such as communities and content, social media optimisation, seeding and viral distribution, broadcast mass media, social performance media and measurement.
