Peggy Phelan, Richard Meyer

Contact Carl Sagan, 2016-12-20 Pulitzer Prize-winning author and astronomer Carl Sagan imagines the greatest adventure of all—the discovery of an advanced civilization in the depths of space. In December of 1999, a multinational team journeys out to the stars, to the most awesome encounter in human history. Who—or what—is out there? In *Cosmos*, Carl Sagan explained the universe. In *Contact*, he predicts its future—and our own.

Emergency Contact Mary H. K. Choi, 2019-04-09 “Smart and funny, with characters so real and vulnerable, you want to send them care packages. I loved this book.” —Rainbow Rowell From debut author Mary H.K. Choi comes a compulsively readable novel that shows young love in all its awkward glory—perfect for fans of *Eleanor & Park* and *To All the Boys I’ve Loved Before*. For Penny Lee, high school was a total nonevent. Her friends were okay, her grades were fine, and while she’d somehow landed a boyfriend, they never managed to know much about each other. Now Penny is heading to college in Austin, Texas, to learn how to become a writer. It’s seventy-nine miles and a zillion light years away from everything she can’t wait to leave behind. Sam’s stuck. Literally, figuratively, emotionally, financially. He works at a café and sleeps there too, on a mattress on the floor of an empty storage room upstairs. He knows that this is the god-awful chapter of his life that will serve as inspiration for when he’s a famous movie director but right this second the seventeen bucks in his checking account and his dying laptop are really testing him. When Sam and Penny cross paths it’s less meet-cute and more a collision of unbearable awkwardness. Still, they swap numbers and stay in touch—via text—and soon become digitally inseparable, sharing their deepest anxieties and secret dreams without the humiliating weirdness of having to, you know, see each other.

Full-Contact Leadership Edward Flood, Anthony Avillo, 2017-07-17 *Full-Contact Leadership* is written for men and women who hold leadership positions or aspire to leadership roles in the fire service. There are many leadership positions in the fire service, but not all of them are held by leaders. Leadership has very little to do with the color of your helmet, the bling on your collar, the stripes on your sleeve, the title on your door, the order of march, or the crease in your pants. Full-contact leadership is a commitment to drawing out the very best within others and allowing the very best in others to be expressed as excellence. Full-contact leadership is a career-long, ever-challenging, never-ending, self-initiated, self-sustained personal research, development, and improvement program. Full-contact leadership is never about you; it’s always about them. In *Full-Contact Leadership*, Chiefs Flood and Avillo examine what makes a leader and, more importantly, what makes a leader effective in today’s fire service. This text discusses the various types of leaders, how they communicate, discipline, delegate, motivate, and set expectations for the people they lead. Flood and Avillo also take a hard look at what hinders or blocks effective leadership and what steps to take to foster and instill leadership in your department.

Illegal Contact Santino Hassell, 2017-08-15 The rules of the game don’t apply off the field in this first Barons novel. New York Barons tight end Gavin Brawley is suspended from the team and on house arrest after a video of him brawling goes viral. Gavin already has a reputation as a jerk with a temper on and off the field—which doesn’t help him once he finds himself on the wrong side of the law. And while he’s been successful professionally, he’s never been lucky when it comes to love. Noah Monroe is a recent college grad looking for a job—any job—to pay off his mounting student debt. Working as Gavin’s personal assistant/babysitter seems like easy money. But Noah isn’t prepared for the electrifying tension between him and the football player. He’s not sure if he’d rather argue with Gavin or tackle him to the floor. But both men know the score, and neither is sure what will happen once Gavin’s timeout is over...

First Contact Marc Kaufman, 2012-03-13 Kaufman details the incredible true story of science’s search for the beginnings of life on Earth and the probability that it exists elsewhere in the universe.

Worst Contact Hank Davis, 2015-12-16 *STORIES OF ALIEN CONTACT GONE WRONG*. Will it be, Greeting, fellow Sentients or, Nice Planet? We'll take it! These stories from SF greats answer the question, Are we alone in the universe? with a resounding, No, but we wish we were! When the first contact between humans and aliens from another planet happens, will they say, "Take me to your leader," or is "Surrender, puny primitive bipeds" more likely? Or maybe, "Hello there, I'm selling the latest edition of the Galactic Encyclopedia, and no planet should be without a set," might be the first words from the alien visitor. Ever since H.G. Wells wrote *The War of the Worlds*, science fiction writers have speculated on what the first contact might be like. From attacking invaders to wise and benevolent visitors who are ready to solve all our problems for us, from horror stories to hilarious satire, with all the stops in between, including plenty of tales in which the aliens are the ones who wish they'd stayed at home and never come across Earth and its inhabitants. With stories by such science fiction masters as Poul Anderson, David Drake, William Tenn, Sarah A. Hoyt, Tony Daniel, and more, this is a collection filled with chills, thrills, and laughter, all reporting on what happens when First Contact turns into Worst Contact. At the publisher's request, this title is sold without DRM (Digital Rights Management). Praise for anthologies edited by Hank Davis: *A Cosmic Christmas 2 You*: "This creative and sprightly Christmas science fiction anthology spins in some surprising directions . . . A satisfying read for cold winter evenings, this anthology is a great stocking stuffer for SF fans." *Publishers Weekly* *In Space No One Can Hear You Scream*: "From Arthur C. Clarke's interplanetary riff on the lonely night's walk (*A Walk in the Dark*) to George R.R. Martin's award-winning classic of irresponsible alien pet ownership (*Sandkings*), the 13 tales in this collection blend sf with horror to demonstrate the resiliency of both genres. VERDICT: Including selections by Clark Ashton Smith, Robert Sheckley, Elizabeth Bear, Sarah Monette, and other stars, this seasonal collection offers strong tales by the genre's best storytellers." *E-Library Journal*

Making Contact Alan Steinfeld, 2021-05-04 I feel it is one of the best approaches I have found to grasp the most jarring enigma humanity has ever faced. —George Noory, host of *Coast to Coast AM* "We cannot separate the earth from its greater cosmic environment. What is needed is a new story and Alan Steinfeld's *Making Contact* is part of that story." —Deepak Chopra, Author, *Total Meditation* How can we prepare for an event that is literally beyond anything humanity has ever faced? *Making Contact* presents multiple perspectives on what no longer can be denied: UFOs and their occupants are visiting our world. The book answers questions which remain in the wake of the recent Pentagon's disclosures as to who and why these beings are here. The volume contains original writings by the leading experts of the phenomena such as: Linda Moulton Howe, *Earthfiles* reporter, Whitley Strieber best-selling author of *Communion*, Professor John E. Mack, former head of the Harvard Medical school of psychiatry and an alien abduction investigator, Darryl Anka internationally known for his communication with the extraterrestrial Bashar, Nick Pope, former UK Ministry of Defense UFO investigator, Grant Cameron expert on American presidents and UFOs, Drs. J.J. and Desiree Hurtak, globalists and founders of the worldwide organization, The Academy for Future Science, Caroline Cory, director of *Superhuman* and *ET: Contact*, Mary Rodwell, author of the *New Human* about star-seed children, Henrietta Weekes, actress and writer, expressing the poetic aspects of making contact. Alan Steinfeld, contributes and curates the collection with 30 years of experience with the subject. The Foreword by George Noory of *Coast to Coast AM* kicks off the volume with his veteran overview of the need to wake up to the "new realities of extraterrestrial existence." At this critical juncture in the government's official acknowledgement of the reality of UFOs/UAPs, scientists, politicians and mainstream news outlets have no idea what to make of these startling revelations or the outpouring of sightings and "contact" experiences currently being reported on a global scale. The book stands as the most comprehensive clarification to date on the intent and intelligence behind the phenomena. The variety of viewpoints expressed in the volume provide a solid foundation for the "preparation" of the greatest challenge to ever face humankind. *Making Contact* stands as the essential handbook for embracing the most exalted moment in history: Meeting the cosmic others.

Your First Contact Sheldon Nidle, Sandra (Spirit), 2000-01-01

The Challenge of Contact Phillip H. Krapf, 2001 Phillip Krapf continues his story of the secret deliberations between a race of alien observers called the Verdants, and some 850 world leaders known as ambassadors, an interplanetary liason that will soon lead to a formal and public announcement of contact. This book chronicles the dramatic events of Krapf's second sojourn on the Verdant craft which occurred in 1999.

Perpetual Contact James Everett Katz, Mark Aakhus, 2002-03-21 The spread of mobile communication, most obtrusively as cell phones but increasingly in other wireless devices, is affecting people's lives and relationships to a previously unthought-of extent. Mobile phones, which are fast becoming ubiquitous, affect either directly or indirectly every aspect of our personal and professional lives. They have transformed social practices and changed the way we do business, yet surprisingly little serious academic work has been done on them. This book, with contributions from the foremost researchers in the field, will be the first study of the impact of the mobile phone on contemporary society from a social scientific perspective. Providing a comprehensive overview of mobile phones and social interaction, it comprises an introduction covering the key issues, a series of unique national studies and a final section examining specific issues.

Making Contact Virginia Satir, 1976 Brings into focus how you can have better communication with yourself and with others through the contact of eyes, ears, feeling, speech, thought, movement, and actions. Satir shows how we can use all of these elements; uses techniques developed in her workshops to make clear what habits and experiences influence you in subtle ways; with ideas for enhancing self-esteem.

Contact Warhol Peggy Phelan, Richard Meyer, 2018-10-23 Andy Warhol's daily practice of photography during the last decade of his life, examined and documented for the first time. "A picture means I know where I was every minute. That's why I take pictures." —Andy Warhol From 1976 until his death in 1987, Andy Warhol was never without his camera. He snapped photos at discos, dinner parties, flea markets, and wrestling matches. Friends, boyfriends, business associates, socialites, celebrities, passers by: all captured Warhol's attention—at least for the moment he looked through the lens. In a way, Warhol's daily photography practice anticipated our current smart phone habits—our need to record our friends, our families, and our food. Warhol printed only about 17 percent of the 130,000 exposures he left on contact sheets. In 2014, Stanford's Cantor Center for the Arts acquired the 3,600 contact sheets from the Warhol Foundation. This book examines and documents for the first time these contact sheets and photographs—Warhol's final body of work Peggy Phelan and Richard Meyer analyze the contact sheets, never before seen, and their importance in Warhol's oeuvre. Accompanying their text and other essays are reproductions of contact sheets, photographs, and other visual material. The contact sheets present Warhol's point of view, unedited; we know where he was every minute because a photograph remembers it. Copublished with the Cantor Arts Center

Electrical Contacts Paul G. Slade, 2017-12-19 Covering the theory, application, and testing of contact materials, *Electrical Contacts: Principles and Applications*, Second Edition introduces a thorough discussion on making electric contact and contact interface conduction; presents a general outline of, and measurement techniques for, important corrosion mechanisms; considers the results of contact wear when plug-in connections are made and broken; investigates the effect of thin noble metal plating on electronic connections; and relates crucial considerations for making high- and low-power contact joints. It examines contact use in switching devices, including the interruption of AC and DC circuits with currents in the range 10mA to 100kA and circuits up to 1000V, and describes arc formation between open contacts and between opening contacts. Arcing effects on contacts such as erosion, welding, and contamination are also addressed. Containing nearly 3,000 references, tables, equations, figures, drawings, and photographs, the book provides practical examples encompassing everything from electronic circuits to high power circuits, or microamperes to mega amperes. The new edition: Reflects the latest advances in electrical contact science and technology Examines current research on contact

corrosion, materials, and switching Includes updates and revisions in each chapter, as well as up-to-date references and new figures and examples throughout Delivers three new chapters on the effects of dust contamination, electronic sensing for switching systems, and contact phenomena for micro-electronic systems (MEMS) applications With contributions from recognized experts in the field, *Electrical Contacts: Principles and Applications, Second Edition* assists practicing scientists and engineers in the prevention of costly system failures, as well as offers a comprehensive introduction to the subject for technology graduate students, by expanding their knowledge of electrical contact phenomena.

Hungarian Language Contact Outside Hungary Anna Fenyvesi,2005-06-09 In Communist times, it was impossible to do sociolinguistic work on Hungarian in contact with other languages. In the short period of time since the collapse of the Soviet bloc, Hungarian sociolinguists have certainly done their very best to catch up. This volume brings together the fruits of their work, some of which was hitherto only available in Hungarian. The reader will find a wealth of information on many bilingual communities involving Hungarian as a minority language. The communities covered in the book are located in countries neighboring Hungary (Austria, Serbia, Slovakia, Slovenia, Romania and Ukraine) as well as overseas (in Australia and the United States). Several of the chapters discuss material derived from the Sociolinguistics of Hungarian Outside Hungary project. Throughout the book, the emphasis is on how the language use of Hungarian minority speakers has been influenced by the majority or contact language, both on a sociolinguistic macro-level as well as on the micro-level. In the search for explanations, particular attention is given to typological aspects of language change under the conditions of language contact.

Electric Contacts Ragnar Holm,2013-06-29 This book is a completely revised and rewritten edition of *Electric Contacts Handbook* published in 1958. A large number of new investigations are considered, and many of the basic theories are revised in detail and even in general. The body of information had to be limited as it was not advisable to increase the volume of the book. In particular, no attempt was made to cover all of the practical applications. They appear as examples following concentrated explanations of basic phenomena. As in several branches of technology, the solutions of problems arising in the field of electric contacts involve insight into various disciplines of physics. It is felt that reviews of some of those topics, especially adapted to electric contact phenomena, are welcome to many readers. For example, chapters have been devoted to the structure of carbon, the band theory of electric conduction in solids, certain problems in statistics, and the theory of the electric arc. As regards arc problems, new ideas have been introduced. In order to make the main text less cumbersome, such reviews are presented as appendices. Throughout this edition, the mksa-unit system is used in accord with the latest recommendation for standardization of units in scientific and technical writings. The chapter History of Early Investigations on Contacts forming Part IV in the preceding edition of 1958 has not been repeated in this book.

Language Contacts at the Crossroads of Disciplines Lea Meriläinen,Heli Paulasto,Helka Riionheimo,2015-01-12 This volume offers a cross-disciplinary insight into language contact research, bringing together fresh empirical and theoretical studies from various fields concerning different

dimensions of language contact and variation, second language acquisition and translation. In the present-day world of globalization, population mobility and information technology, the themes of multilingualism and contact-induced language change are as topical as ever, and research on language contacts and cross-linguistic influence has expanded rapidly during the last few decades. Along with the increasing specialization of related disciplines, their research perspectives, methods and terminology have become dispersed, although language contact phenomena themselves can rarely be confined within the scope of a single discipline. This collection of articles creates dialogue between researchers from different scientific backgrounds, thus viewing language contact phenomena from a broader perspective. When language contact is re-defined to include the mental or cognitive level of contact between different languages and varieties in the minds of language learners or translators, salient links are created between the different disciplines dealing with this subject matter.
