This new edition also includes more than a dozen downloadable images so readers can practice using the editing tools. Readers will master useful editing techniques--from the most common to the advanced: Automatically correct red eye and skin tones Select and extract complex objects with the Magic Selection Brush and The Magic Extractor Create photomontages Restore old photographs Post photos on the web Manage and archive an entire collection Design a custom slide show with panning and zooming capabilities Once photographers learn how to edit their photos successfully, they'll also learn how to post them online or upload them to the Kodak EasyShare Gallery for use in creating personal mailing lists, post cards, calendars, and much more. you're on a Mac, you can use this book. Just substitute Command for Ctrl, and Option for Alt whenever you see keystroke shortcuts, and about 98 percent of the Editor functions will work the same. The sections on the Organizer only apply to Windows because the Mac version has no Organizer.

Java with Object-oriented Programming Paul S. Wang, 2003 Paul Wang's JAVA WITH OBJECT-ORIENTED PROGRAMMING eases students into an understanding of the object-oriented paradigm from the very first page, just as he does in JAVA WITH OBJECT-ORIENTED PROGRAMMING WITH WORLDWIDE WEB APPLICATIONS, on which this new book is modeled. After the early chapters that present classes and Java features and constructs, Wang introduces new object-oriented concepts throughout the book, while clearly showing how Java addresses these issues. He also goes the extra step of including case studies to illustrate how Java and object-oriented programming are applied. Early in the book, Wang introduces students to a case study involving a pocket calculator. This case study is revisited throughout the book as students learn new aspects of object-oriented programming and the Java language. The book then concludes with a chapter on some of the processes associated with object-oriented design. As a result, students are able to fully grasp the concepts they learn.
