Let There Be A Change Timothy Atunnise,2013-03-17 Let There Be A Change is a must have Personal Deliverance prayer book that will transform your life and bring restoration into every area of your life. What is Deliverance? Deliverance means to loose the bounds of wickedness. A lot of people are under the bondage of wickedness. If you look at the lives of many people, you will discover a wide array of wicked occurrences. If your life is surrounded by wicked mysterious happenings, you need to seek deliverance as soon as possible. Deliverance centers on the destruction of the yoke of the enemy. A yoke is anything that hinders or sets you back. Whatever sets you back from moving forward in your life is a yoke. God's will is that you move forward and attain divine goals set for your life. When the contrary happens, there is a bondage hanging above your life. Deliverance is to break curses and evil covenants. The ancestors of many people were cursed and the curses have flown down the family line. For example, if a person struggles without any tangible achievement in life, there is a problem somewhere.

Ecocriticism and Indigenous Studies Salma Monani,Joni Adamson,2016-08-05 This book addresses the intersections between the interdisciplinary realms of Ecocriticism and Indigenous and Native American Studies, and between academic theory and pragmatic eco-activism conducted by multiethnic and indigenous communities. It illuminates the multi-layered, polyvocal ways in which artistic expressions render ecological connections, drawing on scholars working in collaboration with Indigenous artists from all walks of life, including film, literature, performance, and other forms of multimedia to expand existing conversations. Both local and global in its focus, the volume includes essays from multiethnic and Indigenous communities across the world, visiting topics such as Navajo opera, Sami film production history, south Indian tribal documentary, Maori art installations, Native American and First Nations science-fiction literature and film, Amazonian poetry, and many others. Highlighting trans-Indigenous sensibilities that speak to worldwide crises of environmental politics and action against marginalization, the collection alerts readers to movements of community resilience and resistance, cosmological thinking about inter- and intra-generational multi-species relations, and understandings of indigenous aesthetics and material ecologies. It engages with emerging environmental concepts such as multispecies ethnography, cosmopolitics, and trans-indigeneity, as well as with new areas of ecocritical research such as material ecocriticism, biosemiotics, and media studies. In its breadth and scope, this book promises new directions for ecocritical thought and environmental humanities practice, providing thought-provoking insight into what it means to be human in a locally situated, globally networked, and cosmologically complex world.
