**The Art of Alex Gross** Alex Gross,2007-03-08 This remarkable first monograph of acclaimed Pop Surrealist artist Alex Gross features striking, dreamlike imagery that transcends category. Gross paints a haunting mrange of fairytale, allegory, history, and pop culture, fusing eastern and western aesthetics in an ethereal world populated by kimono-clad Japanese women and lost Victorian dandies. In more than eighty exquisite color images, comprising all of Gross's gallery work, silk screens, etchings, and sketches, this volume illuminates his singular blend of realism and whimsy. Embraced and collected by art connoisseurs and lowbrow fans alike, Gross's work is both enigmatic and irresistible.

**Time Limited Interests in Land** Cornelius Van Der Merwe,Alain-Laurent Verbeke,2012-06-28 A comprehensive comparative treatment of six instances of time-limited interests in land as encountered in fourteen European jurisdictions. The survey explores the commercial or social origins of each legal institution concerned and highlights their enforceability against third parties, their content and their role in land development. The commercial purpose of residential and agricultural leases is contrasted with the social aim of personal servitudes (and its common-law equivalent liferent) to provide sustenance for life to mostly family members making the latter an important estate planning device. Whereas the ingrained principles of leases and personal servitudes restrain the full exploitation of land, it is indicated that public authorities and private capital could combine to turn the old-fashioned time-limited institutions of hereditary building lease (superficies) and hereditary land lease (emphyteusis) into pivotal devices in alleviating the acute shortage of social housing and in promoting the fullest exploitation of pristine agricultural land.

Applying the lessons of art to the rigors of life on an imperiled planet, she enlists the Romantics to redefine utopia as an investment in limitation—not a perfect world but one where we get less than we hoped but more than we had.

Through the merger, Noble Foods gained control of 60 to 70 percent of the supply of shell eggs to retailers and over half of the supply of liquid eggs. This inquiry by the Competition Commission finds that the merger has led to a substantial lessening of competition and that the most practicable remedy is the divestiture of Stonegate.
