With the diversification of media options, the study of communication has extended to include social media and new media, which have stronger feedback models than traditional media sources. While the field of mass communication is continually evolving, the following four fields are generally considered the major areas of study within mass communication. They exist in different forms and configurations at different schools or universities, but are (in some form) practiced at most institutions that study mass communication Advertising, in relation to mass communication, refers to marketing a product or service in a persuasive manner that encourages the audience to buy the product or use the service.
