*Being and the Screen* Stephane Vial, 2019-11-12 How digital technology is profoundly renewing our sense of what is real and how we perceive. Digital technologies are not just tools; they are structures of perception. They determine the way in which the world appears to us. For nearly half a century, technology has provided us with perceptions coming from an unknown world. The digital beings that emerge from our screens and our interfaces disrupt the notion of what we experience as real, thereby leading us to relearn how to perceive. In *Being and the Screen*, Stéphane Vial provides a philosophical analysis of technology in general, and of digital technologies in particular, that relies on the observation of experience (phenomenology) and the history of technology (epistemology). He explains that technology is no longer separate from ourselves—if it ever was. Rather, we are as much a part of the machine as the machine is part of us. Vial argues that the so-called difference between the real and the virtual does not exist and never has. We are living in a hybrid environment—which is both digital and nondigital, online and offline. With this book, Vial endows philosophical meaning to what we experience daily in our digital age. In *A Short Treatise on Design*, Vial offers a concise introduction to the discipline of design—not a history book, but a book built of philosophical problems, developing a theory of the effect of design. This book is published with the support of the University of Nîmes, France.

**Panel to the Screen** Drew Morton, 2016-11-28 Over the past forty years, American film has entered into a formal interaction with the comic book. Such comic book adaptations as *Sin City*, *300*, and *Scott Pilgrim vs. the World* have adopted components of their source materials' visual style. The screen has been fractured into panels, the photographic has given way to the graphic, and the steady rhythm of cinematic time has evolved into a far more malleable element. In other words, films have begun to look like comics. Yet, this interplay also occurs in the other direction. In order to retain cultural relevancy, comic books have begun to look like films. Frank Miller's original *Sin City* comics are indebted to film noir while Stephen King's *The Dark Tower* series could be a Sergio Leone spaghetti western translated onto paper. Film and comic books continuously lean on one another to reimagine their formal attributes and stylistic possibilities. In *Panel to the Screen*, Drew Morton examines this dialogue in its intersecting and rapidly changing cultural, technological, and industrial contexts. Early on, many questioned the prospect of a low art form suited for children translating into high art material capable of drawing colossal box office takes. Now the naysayers are as quiet as the queued crowds at Comic-Cons are massive. Morton provides a nuanced account of this phenomenon by using formal analysis of the texts in a real-world context of studio budgets, grosses, and audience reception.

Life on the Screen Sherry Turkle, 2011-04-26 *Life on the Screen* is a book not about computers, but about people and how computers are causing us to reevaluate our identities in the age of the Internet. We are using life on the screen to engage in new ways of thinking about evolution, relationships, politics, sex, and the self. *Life on the Screen* traces a set of boundary negotiations, telling the story of the changing impact of the computer on our psychological lives and our evolving ideas about minds, bodies, and machines. What is emerging, Turkle says, is a new sense of identity—as decentered and multiple. She describes trends in computer design, in artificial intelligence, and in people's experiences of virtual environments that confirm a dramatic shift in our notions of self, other, machine, and world. The computer emerges as an object that brings postmodernism down to earth.

Smoke Screen Kyle Mills, 2004-08 Unwillingly promoted to the tobacco industry's lead spokesperson, Trevor Barnett oversees the industry's economy-staggering production freeze in the wake of a high-stakes lawsuit, placing him in a tenacious position.

**Hell Screen** Ryunosuke Akutagawa, 2011-02-15 'He had the Ten Kings of Hell and their minions over in one small corner, and everything else - the entire screen - was enveloped in a firestorm so terrible you thought the swirling flames were going to melt the mountain of Sabres and the Forest of Swords.' One of the towering figures of modern Japanese writing, Akutagawa's early career was distinguished by imaginative, beautifully crafted stories of medieval Japan, rich with period detail. These two stories include his great masterpiece of that period, 'Hell Screen', and the parable of a thread-thin chance of escape for a sinner in the Pool of Blood. This book includes *Hell Screen* and *The Spider Thread*.

**The Double Screen** Wu Hung, 1996-11-22 This book contemplates a large problem: what is a traditional Chinese painting? Wu Hung answers this question through a comprehensive analysis of the screen, a major format and a popular pictorial motif in traditional China. With a broad array of examples ranging from the early centuries C.E. to the 1800s, he explores the screen's position in art – as an important site for artistic imagination, as an illusionary representation on a flat surface, and as an architectural device defining cultural conventions. A screen occupies a space and divides it, supplies an ideal surface for painting, and has been a favourite pictorial image in Chinese art since antiquity. With its diverse roles, the screen has provided Chinese painters with endless opportunities to reinvent their art. The author argues that any understanding of Chinese painting must include discussion of its material forms as well as its intimate connection with cultural context and convention. Thus, *The Double Screen* offers a powerful non-western perspective on diverse artistic and cultural genres, from portraiture and pictorial narrative to voyeurism and masquerade, and will be invaluable to anyone interested in the history of art and Asian studies as well as to students and specialists in the field.

*Screen Memories* Catherine Portuges,1993 ... excellent... --Slavic Review ... displays a depth of scholarship and breadth of research which in the main is distilled into a fascinating read. At last Mészáros is getting the attention she deserves. --Sight and Sound Drawing on personal reminiscences, interviews with Meszaros, and critiques of individual films, Portuges delineates in detailed and convincing fashion the cultural contradictions surrounding Meszaros and her art. --Signs This book provides engaging insight to works by one of Hungary's best contemporary filmmakers, Márta Mészáros. --Canadian Slavonic Papers A fascinating exploration of the culture of post-Stalinist Eastern Europe through a detailed study of the achievements of its foremost woman director--and revealing interviews with the filmmaker and her collaborators. Márta Mészáros's visual representations of youth, sexual difference, and class conflict challenged official socialist versions of gender, family relations, and workers' lives. Her films include documentaries and features and the recently completed Diary of My Father and Mother.

**Smoke Screen** Sandra Brown,2008-08-12 The themes of role reversal and the abuse of power figure prominently in a tale in which corruption and betrayals turn friends against one another and force criminals to become heroes.

*Smoke Screen* Terri Blackstock,2019-11-05 One father was murdered. Another was convicted of his death. And all because their children fell in love. Nate Beckett has spent his life fighting wildfires instead of the lies and rumors that drove him from his Colorado hometown. His mother begs him to come back now that his father has been released from prison, but it isn't until he's sidelined by an injury that he's forced to return and face his past. But that means facing Brenna too. Fourteen years ago, Nate was in love with the preacher's daughter. When Pastor Strickland discovered Brenna had defied him to sneak out with Nate, the fight between the Pastor and Nate's drunken dad was loud—and very public. The Pastor was found murdered later that night, and everyone accused Nate's father, Roy, of the murder. When the church burned down not long after, people assumed Nate set the fire to get even for his father's conviction. He let the rumors fly and left town without looking back. Brenna is stunned to learn that the man convicted of murdering her father has been pardoned. The events of that night set her life on a bad course, and now she's fighting a brutal custody battle with her ex and his new wife where he's using lies and his family's money to sway the judge. Brenna is barely hanging on. As Nate and Brenna deal with the present—including new information about that fateful night and a wildfire that's threatening their town—the past keeps igniting. Nate is the steady force Brenna has so desperately needed. But she'll have to learn to trust him again first. Full-length, stand-alone suspense novel Also by New York Times bestselling author Terri Blackstock: If I Run, Intervention, Cape Refuge, Aftermath Includes discussion questions for book clubs

**On the Screen** Ariel Rogers,2019-07-30 Today, in a world of smartphones, tablets, and computers, screens are a pervasive part of daily life. Yet a multiplicity of screens has been integral to the media landscape since cinema's golden age. In *On the Screen*, Ariel Rogers rethinks the history of moving images by exploring how experiments with screen technologies in and around the 1930s changed the way films were produced, exhibited, and experienced. Marshalling extensive archival research, Rogers reveals the role screens played at the height of the era of "classical" Hollywood cinema. She shows how filmmakers, technicians, architects, and exhibitors employed a variety of screens within diverse spaces, including studio soundstages, theaters, homes, stores, and train stations. Far from inert, screens served as means of structuring mediated space and time, contributing to the transformations of modern culture. *On the Screen* demonstrates how particular approaches to the use of screens traversed production and exhibition, theatrical and extratheatrical practice, mainstream and avant-garde modes, and even cinema and television. Rogers's history challenges conventional narratives about the novelty of the twenty-first-century multiscreen environment, showing how attention to the variety of historical screen practices opens up new ways to understand contemporary media.

*Screen-based Art* Annette W. Balkema,Henk Slager,2000 In the 21st century, the screen - the Internet screen, the television screen, the video screen and all sorts of combinations thereof - will be booming in our visual and infotechno culture. Screen-based art, already a prominent and topical part of visual culture in the 1990s, will expand even more. In this volume, digital art - the new media - as well as its connectedness to cinema will be the subject of investigation. The starting point is a two-day symposium organized by the Netherlands Media Art Institute Montevideo/TBA, in collaboration with the L&B (Lier en Boog) series and the Amsterdam School of Cultural Analysis (ASCA). Issues which emerged during the course of investigation deal with questions such as: How could screen-based art be distinguished from other art forms? Could screen-based art theoretically be understood in one definite model or should one search for various possibilities and/or models? Could screen-based art be canonized? What are the physical and theoretical forms of representation for screen-based art? What are the idiosyncratic concepts geared towards screen-based art? This volume includes various arguments, positions, and statements by artists, curators, philosophers, and theorists. The participants are Marie-Luise Angerer, Annette W. Balkema, René Beekman, Raymond Bellour, Peter Bogers, Joost Bolten, Noël Carroll, Sean Cubitt, Călin Dan, Chris Dercon, Honoré d'O, Anne-Marie

Duquet, Ken Feingold, Ursula Frohne, hARTware curators, Heiner Holtappels, Aernout Mik, Patricia Pisters, Nicolaus Schafhausen, Jeffrey Shaw, Peter Sloterdijk, Ed S. Tan, Barbara Visser and Siegfried Zielinski.

**Words on Screen** Michel Chion,2017-03-07 Michel Chion is well known in contemporary film studies for his innovative investigations into aspects of cinema that scholars have traditionally overlooked. Following his work on sound in film in Audio-Vision and Film, a Sound Art, Words on Screen is Chion's survey of everything the seventh art gives us to read on screen. He analyzes titles, credits, and intertitles, but also less obvious forms of writing that appear on screen, from the tear-stained letter in a character's hand to reversed writing seen in mirrors. Through this examination, Chion delves into the multitude of roles that words on screen play: how they can generate narrative, be torn up or consumed but still remain in the viewer's consciousness, take on symbolic dimensions, and bear every possible relation to cinematic space. With his characteristic originality, Chion performs a poetic inventory of the possibilities of written text in the film image. Taking examples from hundreds of films spanning years and genres, from the silents to the present, he probes the ways that words on screen are used and their implications for film analysis and theory. In the process, he opens up and unearths the specific poetry of visual text in film. Exhaustively researched and illustrated with hundreds of examples, Words on Screen is a stunning demonstration of a creative scholar's ability to achieve a radically new understanding of cinema.

**Opera on Screen** Marcia J. Citron,Professor Marcia J Citron,2000-01-01 The author draws on ideas from diverse fields, including media studies and gender studies, to examine issues ranging from the relationship between sound and image to the place of the viewer in relation to the spectacle. As she raises questions about divisions between high art and popular art and about the tensions between live and reproduced art forms, Citron reveals how screen treatments reinforce opera's vitality in a media-intensive age.--BOOK JACKET.

*The Off-Screen* Eyal Peretz,2017-03-21 From the Renaissance on, a new concept of the frame becomes crucial to a range of artistic media, which in turn are organized around and fascinated by this frame. The frame decontextualizes, cutting everything that is within it from the continuity of the world and creating a realm we understand as the realm of fiction. The modern theatrical stage, framed paintings, the novel, the cinematic screen—all present us with such framed-off zones. Naturally, the frame creates a separation between inside and out. But, as this book argues, what is outside the frame, what is offstage, or off screen, remains particularly mysterious. It constitutes the primary enigma of the work of art in the modern age. It is to the historical and conceptual significance of this off that this book is dedicated. By focusing on what is outside the frame of a work of art, it offers a comprehensive theory of film, a concise history of American cinema from D.W. Griffith to Quentin Tarantino, and a reflection on the place and significance of film within the arts of modernity in general.

*The Architecture of the Screen* Graham Cairns,2013 With the birth of film came the birth of a revolutionary visual language. This new, unique vocabulary - the cut, the fade, the dissolve, the pan, and the new idea of movement - gave not only artists but also architects a completely new way to think about and describe the visual. The Architecture of the Screen examines the relationship between the visual language of film and the onscreen perception of space and architectural design, revealing how film's visual vocabulary influenced architecture in the twentieth century and continues to influence it today. Graham Cairns draws on film reviews, architectural plans, and theoretical texts to illustrate the unusual and fascinating relationship between the worlds of filmmaking and architecture.--Provided by publisher.

*Teen Movies* Timothy Shary,2005 Teen Movies: American Youth on Screen is a detailed look at the depiction of teens on film and its impact throughout film's history. Timothy Shary looks at the development of the teen movie - the rebellion, the romance, the sex and the horror - up to contemporary portrayals of ever-changing youth. Films studied include Rebel Without a Cause (1955), Splendor in the Grass (1961), Carrie (1976), The Breakfast Club (1985), and American Pie (1999).
